Project Number:
(For TxDOT use only)

Statewide Services Project Application

(Please refer to the Program Guidance and Application Instructions for details on application submission requirements)
Applications may represent a single school campus, multiple schools, a region, community and/or a school district.

1. Applicant Information:

Name:
Title:
Organization:
Mailing address:
City, State, Zip:

Other Information:

Project manager:
Title:
Agency:
Telephone number:
Fax number:

2. Title of project (limit 100 characters)

3. Project description (limit 200 characters)

4. Which specific schools are affected by this project?

5. What is the proposed project start date? **end date?**

6. Which SRTS component(s) does your project address (check all that apply):

☐ Education ☐ Enforcement ☐ Encouragement ☐ Evaluation

Project Number:

(For TxDOT use only)

7. Has applicant previously been awarded an SRTS project?

☐ Yes ☐ No

If Yes, has the project been successfully completed?

☐ Yes ☐ No

If No, briefly explain:

Project Number: _____
(For TxDOT use only)

Statewide Problem Identification

Total points available - 25

Identify any potential safety problem(s) related to Safe Routes to School by indicating the type of educational and/or enforcement issues relating to walking and/or biking to and from the school site(s):

Please check at least one

- ☐ Absence of or lack of training for crossing guard(s)
- ☐ Children walking in street safely
- ☐ Lack of safe biking techniques
- ☐ Use of bike helmets
- ☐ Poor utilization of walkability/bikeability studies
- ☐ Enforcement of speed limits
- ☐ Lack of teacher / student training
- ☐ Lack of bicycle / pedestrian education
- ☐ Potential users not traveling due to perceived risk
- ☐ Other _____

Instructions: *Use the following space to demonstrate the need for proposed services in support of SRTS Programs by identifying risks or hazards facing children who bike and/or walk to school and how they will be addressed by the proposed services. If crashes or incidents have occurred, identify date, time, frequency, type, and severity of crashes that will be addressed by the proposed services. Other information, such as health statistics may also be included as support documentation. If documentation such as sketches, pictures, maps, exhibits, diagrams, examples of materials and tables are submitted, they must be referenced in the text and numbered sequentially.*

In addition, describe the target audience (i.e., students, community leaders, teachers or other populations) as it relates to the problem(s) identified in this section. (limit 5,000 characters)

Proposed Solution

Total points available - 25

Description of Proposed Solution (Limit 5,000 characters):

Please indicate which type of solution is proposed (check all that apply):

- ☐ Training
- ☐ Public information & educational materials
- ☐ Technical assistance
- ☐ Other

Instructions: *Use the following space to describe how the proposed solution will improve safety and encourage biking and walking to school. The connection between the problem(s) and the proposed solution(s) must be clearly demonstrated. If documentation such as sketches, pictures, maps, exhibits, diagrams, examplesof materials and tables are to be submitted, they must be referenced in the text and numbered sequentially. There will be a place on the online submission form to identify and attach these documents.*

Please attend to, at a minimum, the following:

- *Include how any student population will be affected by the implementation of this program or activity (specifically indicate area(s) to be served)*
- *Identify any enforcement, engineering, encouragement, and/or educational components related to your program or activity, either existing or planned; and*
- *Be sure to discuss how any changes to school(s) or communities that may impact the near term delivery of the program or activity.*
