

TEXAS TRANSPORTATION COMMISSION

WEBB County

MINUTE ORDER

Page 1 of 1

LAREDO District

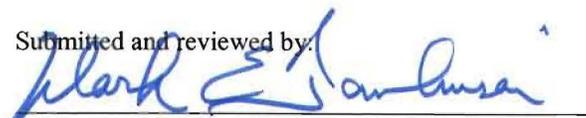

Title 43, Texas Administrative Code, §27.82(d) provides that the Texas Transportation Commission (commission) will establish toll rates for the use of a toll project on the state highway system. In setting toll rates, the commission considered: (1) the results of traffic and revenue studies and any schedule of toll rates established in traffic and revenue report; and (2) vehicle classifications, type and location of the facility, and similar criteria that apply to a specific project.

Camino Colombia Toll Road (SH 255) is a 22-mile tollway made up of two sections. The southern section, from FM 1472 to the roadside operations building, is a 3.5 mile, four-lane, divided roadway. The northern section, which continues from the operations building to I-35, is a 18.5 mile, two-lane, non-divided roadway. A new tolling system was installed in December 2008 converting Camino Colombia to an all-electronic, open road tolling facility.

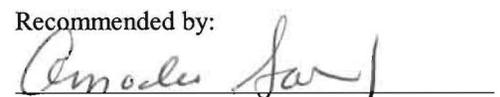

The results of the toll rate analysis for SH 255 provides toll rates at each tolling point as set forth in Exhibit A.

IT IS THEREFORE ORDERED by the commission that the Texas Department of Transportation (department) is authorized to charge tolls on the Camino Colombia toll project from FM 1472 to I-35 in the amounts stated in Exhibit A.
