

TEXAS TRANSPORTATION COMMISSION

VARIOUS Counties

MINUTE ORDER

Page 1 of 1

VARIOUS Districts

Pursuant to Transportation Code, Chapter 223, Subchapter A, and Title 43, Texas Administrative Code, Chapter 9, Subchapter B, the Texas Department of Transportation (department) solicited and received sealed competitive bid proposals for improvement of the State Highway System, which were publicly opened and read on November 5 & 6, 2009.

Pursuant to cited code provisions highway improvement contract bids on a project may be accepted or rejected, but if accepted must be awarded to the lowest bidder.

An award is conditional in the event it is subject to Federal Highway Administration concurrence, third party funding or concurrence, and other conditions listed in the contract or an exhibit to this order.

The department recommends that the commission respectively award to the lowest bidder or reject, as indicated, those highway and transportation enhancement building construction contracts identified on attached Exhibit A to this order.

IT IS THEREFORE ORDERED by the commission that the contracts described in Exhibit A be and are hereby respectively awarded to the lowest bidder or rejected as indicated therein.

If a contractual requirement of award is not satisfied within the prescribed time limit, including any extension of time allowed by the executive director or the director's designee, by reason of the action or inaction of the successful low bidder on any contract, including, but not limited to, disadvantaged business/historically underutilized business participation, the contract is automatically in default and the executive director is authorized and directed to retain and deposit the related contract proposal guaranty to the credit of the State Highway Fund and to readvertise that project for competitive bids at the earliest practical subsequent date.

If a condition of award is not satisfied, including, but not limited to, reason of nonconcurrence of the Federal Highway Administration, the failure of a third party to fund or concur, or failure to meet other conditions in the contract or an exhibit to this order, the respective award is voided and the department will return the bid guaranty.

Bid Error Exhibit
Contract No.: 11093207

Project ID: IM 0203(077)
County: Eastland
From: (Districtwide)

CCSJ: 0007-03-083
Roadway: IH 20
To: (Districtwide)

A bid error was alleged by apparent low bidder, Northeastern Pavers, Inc. for the above referenced project. The bid error was received on November 9, 2009 for the letting conducted on November 6, 2009. The notification and supporting documentation were received within five business days as required by Rule §9.16. The notification outlined the error committed on the item of work as shown below.

Consideration Criteria (Rule §9.16) –

- (A) The alleged bid error relates to a material item of work contained in the bid. – The project is for Seal Coat in Eastland County. The contractor states that the firm omitted the thousands (000's) in the bid item for Mobilization. The total engineer's estimate for the project was \$7,836,912.97. The contractor's actual bid was tabulated at \$6,148,367.85. The contractor has stated that his intended bid for Mobilization was \$435,000.00, (instead of \$435.00) which would have increased his total bid to \$6,582,932.85 or 7.1% higher. **Thus the bid error does relate materially to the project overall.**
- (B) The alleged bid error is a significant portion of the total bid as compared to the intended total bid amount. – The amount of the alleged error was a net amount of \$434,565.00, as stated by the contractor. The error represents 6.6% of the intended total bid amount of \$6,582,932.85. **Thus the amount of the claimed error is a significant portion of the total bid as compared to the intended bid amount.**
- (C) The alleged bid error occurred despite the contractor's exercise of ordinary care in preparing its bid. The contractor in his bid error notification states that the bid was completed very rapidly as the deadline approached since material prices were arriving to them right up to the deadline. **In spite of this, no other errors were made on any other prices in the contractor's bid, and it appears that ordinary care was exercised in preparation its bid.**

(D) Delay in the completion of the project will not have a significant impact on the cost to and safety of the public. There are various factors such as the price of oil and the skid resistance of the road which could have some bearing on the bids for the project and on public safety. However, if the project is re-let within the next two months, we do not believe that these factors will be significant. **Should a contract not be executed, delay in procuring the new contractor will not cause costs to increase significantly, nor impact the safety of the public.**

Based on the information provided above, the lowest bid is considered to contain a bid error that satisfies the criteria contained in TAC 43, Subchapter B, Rule 9.16. Therefore, we recommend rejection of all bids and the reletting of this project.
