The Texas Transportation Commission (commission) desires to award funds to support the continued development of coordinated regional planning in public transportation.

Transportation Code, Chapter 455 assigns a broad spectrum of public transportation roles and missions to the Texas Department of Transportation (department).

Transportation Code, Chapter 456 authorizes the commission to administer funds appropriated for public transportation.

Under various sections of the United States Code, the Federal Transit Administration (FTA) provides the department with funds to be used for planning and coordination projects.

On December 17, 2009, the commission awarded funding for FYs 2010 and 2011 in support of regional planning through Minute Order Number 112065.

IT IS THEREFORE ORDERED that this minute order supersedes the FY 2011 awards in Minute Order Number 112065.

IT IS FURTHER ORDERED by the commission that the executive director or the director's designee is authorized to distribute funds as described in Exhibit A, to lead agencies responsible for regionally coordinated transportation planning, submit the necessary state application to the FTA, and enter into the necessary contracts in accordance with the priorities established in this minute order.
