VARIOUS Counties

MINUTE ORDER

Page 1 of 1

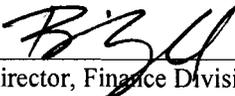

VARIOUS Districts

The Texas Department of Transportation (department) annually receives notification from the Federal Highway Administration (FHWA) and the Federal Railroad Administration (FRA) concerning projects that will receive federal discretionary or General Provision earmark funding.

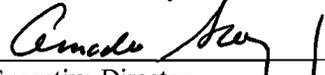

Generally, various state departments of transportation submit candidate projects to FHWA for consideration of receiving federal funds. Another method through which states receive earmarked funds is when projects are submitted by members of the U. S. Congress representing that part of the state. For Fiscal Year 2009, the department was notified 26 projects will receive federal funding as identified in Exhibit A.

IT IS THEREFORE ORDERED by the Texas Transportation Commission that the executive director is hereby authorized to proceed in the most feasible and economical manner with project development and program monitoring of the identified projects in the FY 2009 Federal Demonstration and Discretionary Programs.
