

TEXAS TRANSPORTATION COMMISSION

MCLENNAN County

MINUTE ORDER

Page 1 of 1

WACO District

Section 49-p, Article III, of the Texas Constitution (constitutional provision) provides that, to provide funding for highway improvement projects, the legislature by general law may authorize the Texas Transportation Commission (commission) or its successor to issue general obligation bonds of the State of Texas in an aggregate amount not to exceed \$5 billion and enter into related credit agreements.

Pursuant to the constitutional provision, the Texas Legislature, in House Bill 1, 81st Legislature, First Called Session, 2009, enacted Transportation Code, §222.004 (Enabling Act), the enabling legislation for general obligation bonds, notes, and other public securities that may be issued by the commission to fund highway improvement projects (Proposition 12 bonds).

House Bill 1 also amended Rider 60 to the appropriations to the Texas Department of Transportation (department) in Senate Bill 1, 81st Legislature, Regular Session, 2009 (General Appropriations Act), to allow the issuance of \$2 billion of these bonds. For FY 2010-2011, the Legislature appropriated bond proceeds in the amount of \$90 million for right of way, \$60 million for engineering, and \$850 million to make progress payments on no more than \$1.85 billion in construction contract obligations for nontolled highway improvement projects, and appropriated \$1 billion of bond proceeds to be used to capitalize the State Infrastructure Bank (SIB) for the purpose of making loans to public entities.

During previous commission meetings, staff discussed this issue with the commission and presented potential scenarios for the use of these funds. As directed by the commission, staff worked with the state's transportation partners to develop a list of guiding principles for use in evaluating and selecting projects to be funded with the portion of Proposition 12 bond proceeds that is not used to capitalize the SIB. Based on those guiding principles, criteria by which projects may be identified, prioritized and ultimately selected for funding were established.

In cooperation with the state's transportation partners, the department developed a list of highway improvement projects and work to be performed in connection with highway improvement activities to be funded with the portion of Proposition 12 bond proceeds that is not used to capitalize the SIB. This list was approved by the commission in Minute Order 112036, dated November 19, 2009.

This minute order approves one additional project in the Waco District on I-35 (CSJ 0015-01-225) to be funded with the proceeds of Proposition 12 bonds, as set forth in Exhibit A. One project in the Waco District on I-35 (CSJ 0015-01-186) has a reduced construction project cost based on a revised estimate, as set forth in Exhibit A. The total amount of Proposition 12 bond proceeds to fund these projects is not changed. No other projects in Exhibit A have been changed or removed.

IT IS THEREFORE ORDERED by the commission that the highway improvement projects and work to be performed in connection with highway improvement activities, as contained in Exhibit A, is approved for funding with the proceeds of Proposition 12 bonds.
