

OBLIGATION LIMIT REPORT

Description

This report communicates the actual contract amounts impacting the 2011 obligation limit through September 2011. It also provides an update on year-to-date motor fuel tax receipts with a comparison to receipts from the previous year.

Background

This report was created to inform the commission, throughout the year, of the obligations that have been incurred and are scheduled against the obligation limit of \$1.725 billion for 2011. This obligation limit applies to the costs of new state highway improvement projects that are let to contract, change orders on projects that have previously let to contract, toll equity commitments, additional commitments on pass-through funded projects, and costs of overruns on existing projects. The limit includes amounts derived from both state and federal revenues deposited to the State Highway Fund, but excludes sources such as bond proceeds, economic stimulus funds, SH121 toll project revenue, SH130 concession funds and local bonds as these inherently have their own constraints and are tracked separately. Also excluded is any funding from the Texas Mobility Fund as this source has previously been committed in full for the immediate future.

This report also provides information on motor fuel tax receipts, any variance from estimates and any potential impact on letting volume.

Criteria

None.

Problem/Condition

None.

Other Comments

The September 2011 actual contracts let totaled \$156.31 million. For the month, impact to the State Highway Fund Obligation Limit was \$92.83 million which brings the year to date total, including change orders, to \$92.83 million. Estimated amounts for remaining projects scheduled to let in FY 2011 is \$1,389.99 million.

Through September, motor fuel tax receipts are up 1.62% when compared to the same fiscal year-to-date totals from last year.

Alternate Solutions/Actions

None.
