The commission may issue general obligation bonds, notes, and other public securities for the purposes of paying all or part of the cost of highway improvement projects. For FY 2012-2013, the legislature appropriated \$3 billion of Proposition 12 bond proceeds to cover right of way, engineering and progress payments for highway improvement projects. In addition to these funds, approximately \$486 million from Fund 6 were not distributed when the commission adopted the 2012 Unified Transportation Program during their May 26, 2011 meeting. The staff has briefed the commission on the limitations and restrictions placed on the use of these funds and was directed to work with the state's transportation planning partners to develop a recommendation on the guiding principles to use to identify, prioritize and select projects that may be funded with these available funds. The staff will present this recommendation to the commission and seek its direction on developing a plan for the use of these funds.

The rules define the circumstances in which services performed by a consultant raise a conflict of interest and the period of time a restriction or prohibition resulting from a conflict of interest would apply. The proposed rules provide that a restriction or prohibition on a consultant firm would continue until the date the performance of services to the department ends and all work product of the consultant and other information and data provided to the consultant in the performance of services is publicly available.

These amendments encourage the use of negotiated rulemaking, when appropriate, and designate TxDOT's general counsel as the coordinator of TxDOT's negotiated rulemaking process.

112751

(2) **Chapter 9 - Contract and Grant Management (MO)**

Amendments to §9.13, Notice of Letting and Issuance of Bids Forms (Highway Improvement Contracts) (Relating to advertisement for bids)

The commission considered the proposals and selected those, up to a cumulative total of \$176 million, that provided the best value to the state, and directed the department staff to attempt to negotiate the financial terms of a potential pass-through toll agreement with the selected public entity proposers.
