MINUTE ORDER

Page 1 of 3

ALL Districts

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act (ARRA). The ARRA created an economic stimulus package that provides \$64.1 billion nationwide for infrastructure projects, including \$27.5 billion for highway and bridge construction, and \$1.5 billion for surface transportation grants to be administered by the Secretary of Transportation.

Texas' share of the funding for highway and bridge construction is expected to be approximately \$2.25 billion, based on the existing apportionment formula. Of that amount, 3 percent of the funds are set aside for transportation enhancement activities.

In anticipation of the enactment of the ARRA, the Texas Department of Transportation (department) collaborated with the Texas Division of the Federal Highway Administration (FHWA), MPOs, tolling authorities and transit providers to develop a unified approach to identifying and prioritizing projects that potentially qualify for funding. Department staff and local officials agreed upon a list of criteria to be used for evaluating projects. FHWA also issued a guidance document on funding, project selection, eligible activities, and other specific requirements to assist states in implementing the ARRA. The priority and preference selection criteria described in the ARRA and the FHWA guidelines were subsequently used in the evaluation process to develop the lists of projects recommended for funding under the ARRA.

Time is a critical element with regard to the selection and prosecution of projects. The ARRA requires that 50 percent of the discretionary funds allocated to the state for highway and bridge projects must be obligated within 120 days of receiving the apportionment from FHWA or the funds will be redistributed to other states. In addition, states must have 100 percent of the funds obligated within one year or the remaining funds will be redistributed. The department received the Notice of Apportionment from FHWA on March 2, 2009. States initially submitted data on projects to be funded completely or partially with ARRA funds to FHWA on March 17, 2009. States must continue to update the data on projects to be funded with ARRA funds in a timely manner.

In Minute Order 111734, dated March 5, 2009, the Texas Transportation Commission (commission) approved the funding, under the provisions of the ARRA, of approximately \$1.2 billion in mobility projects and approximately \$500 million in preventive maintenance and rehabilitation projects. In Minute Order 111735, dated March 26, 2009, the commission approved the funding of approximately \$73 million in transportation enhancement projects. In Minute Order 111777, dated April 30, 2009, the commission made revisions to the previously approved lists of mobility and preventive maintenance and rehabilitation projects.

The department has continued to monitor the progress of these projects to ensure that they comply with the criteria identified in the minute orders, the ARRA, and the project selection requirements established by FHWA.

As a result of those efforts, a revised list of mobility projects has been developed and is set forth in Exhibit A. The following revision has been made:

- One Pharr District project has a technical correction to the project limits. The ARRA funding for this project did not change.

No other projects listed in Exhibit A have been changed.

TEXAS TRANSPORTATION COMMISSION

VARIOUS Counties

MINUTE ORDER

Page 2 of 3

ALL Districts

A list of mobility projects previously deleted from Minute Order 111734 is shown in Exhibit D. No additional mobility projects were removed from the list shown in Minute Order 111777.

The department has also developed a revised list of preventive maintenance and rehabilitation projects, which is set forth in Exhibit B. The following revisions have been made:

- Two linked projects in the Abilene District have been removed from the list. These projects have previous federal obligations on record and the ARRA does not allow for project deobligation. The SH 36 project in the Abilene District (CSJ 0181-03-024, etc., Callahan County) has been added to the list to replace the projects that have been removed.
- Three linked projects in the Corpus Christi District have been removed from the list. These projects have previous federal obligations on record. The US 77 project in the Corpus Christi District (CSJ 0372-01-093, San Patricio County) has been added to the list to replace the projects that have been removed.
- Two linked projects in the Dallas District have been removed from the list. These projects have previous federal obligations on record. The BI 45-G project in the Dallas District (CSJ 0092-08-015, Ellis County) has been added to the list to replace the projects that have been removed.

No other projects listed in Exhibit B have been changed or removed.

A list of preventive maintenance and rehabilitation projects deleted from Minute Orders 111734 and 111777 is shown in Exhibit E.

The department has also developed a revised list of transportation enhancement projects, which is set forth in Exhibit C. These revisions consist of technical corrections to account for the use of previously obligated federal funds that covered a portion of the project cost. Eligible reimbursements to the project sponsors will not change. In addition, the following substantive revisions have been made:

- Four projects have been removed from the list. These projects have previous federal obligations on record. These projects will be funded with conventional category funding.
- Five sponsor projects from previous transportation enhancement program calls have been added to the list. These five projects are in the Houston District at Allen's Landing (CSJ 0912-71-705, Harris County), Dallas District at Tenison Trail (CSJ 0918-45-643, Dallas County), San Antonio District at Salado Creek Trail (CSJ 0915-12-402, Bexar County), Laredo District at San Felipe Trail (CSJ 0922-11-027, Val Verde County), and Childress District at Knox County Pedestrian and Bike Trail (CSJ 0925-17-006, Knox County).
- Five department landscape projects have been added to the list. FHWA has determined that these projects are eligible for funding under the transportation enhancement program. One project is in the Houston District on US 59 (CSJ 0912-

TEXAS TRANSPORTATION COMMISSION

MINUTE ORDER

Page 3 of 3

ALL Districts

34-148, Fort Bend County). Four projects are in the San Antonio District on SH 16 (CSJ 0291-10-097, Bexar County), I-10 (CSJ 0521-04-261, Bexar County), I-10 (CSJ 0915-46-036, Guadalupe County), and on SH 16 (CSJ 0613-02-055, Atascosa County).

- One linked project was added to a previously approved project. The added project is in the El Paso District at Placita Park (CSJ 2552-04-036, El Paso County).

A list of transportation enhancement projects deleted from Minute Order 111735 is shown in Exhibit F.

All projects are subject to federal and state laws, including the provisions of the ARRA. No matching funds are required for mobility or preventive maintenance and rehabilitation projects. The normal local matching funds will be required for transportation enhancement projects.

IT IS THEREFORE ORDERED by the commission that the transportation projects set forth in Exhibits A, B, and C are hereby approved for funding under the provisions of the ARRA.

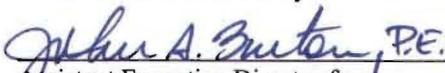

IT IS FURTHER ORDERED that the executive director or the director's designee is authorized to proceed with project development and contract awards for the projects described in Exhibits A, B, and C and to enter into any necessary agreements associated with these projects and activities.

IT IS FURTHER ORDERED that Exhibits A and B in Minute Order 111777 are rescinded and replaced with Exhibits A and B to this minute order.

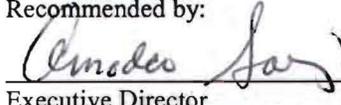

IT IS FURTHER ORDERED that Exhibit A in Minute Order 111735 is rescinded and replaced with Exhibit C to this minute order.

IT IS FURTHER ORDERED that the department shall track the progress of the transportation projects set forth in Exhibits A, B and C separately from other ongoing projects and place information regarding the status of these projects on the department's web site.
