

RTC POSITION REGARDING LOCAL GOVERNMENT AND TRANSPORTATION PROVIDER INPUT

1. The Regional Transportation Council (RTC) requests input from local governments and transportation providers on all transportation planning, project development and program implementation efforts.
2. The Regional Transportation Council requests input from local governments on all toll pricing policies and institutional arrangements with transportation providers.
3. The Regional Transportation Council will strongly consider the recommendations from local governments regarding specific transportation providers, considering the merits of the competing interests on funding, regional mobility, reliability, safety, air quality and economic development.
4. The Regional Transportation Council will mediate corridor-specific concerns if they are regional in nature.
