

# PEPS Fireside Chat Q&A

## PS-CAMS Updates - May 2025

**Q1: To input the information in the PS-CAMS by the consultant is that part of their contract? Because only a handful have those projected amounts.**

**A1:** This is not part of the contract. This is a PS-CAMS tool that is designed to help TxDOT project managers and consultant project managers better manage contract and work authorizations budgets.
