Transportation Code, §201.206, authorizes the Texas Department of Transportation (department) to accept a donation in any form, including realty, personalty, money, materials, and services, for the purpose of carrying out its functions and duties. Government Code, Chapter 575, requires the governing board of a state agency to acknowledge the acceptance of a donation valued at \$500 or more by majority vote at an open meeting, not later than the 90th day after the date the donation is accepted. It also prohibits a state agency from accepting a donation from a person who is a party to a contested case before the agency until the 30th day after the date the decision in the case becomes final.

The Texas Transportation Commission (commission) has adopted 43 TAC §§1.500-1.506, which relate to the department's acceptance of donations. Section 1.503 authorizes the executive director to approve acceptance of donations to the department and requires that donations valued at \$500 or more must be acknowledged by order of the commission not later than the 90th day after the date the donation is accepted by the department. It further prohibits acceptance of a gift or donation when the donor is subject to department regulation or oversight or when the donor is interested in or likely to become interested in any contract, purchase, payment, or claim with or against the department, except as provided by that section. It also provides that the executive director may approve the acceptance of a donation, notwithstanding the foregoing proscriptions in the rules, if the executive director determines that acceptance would provide a significant public benefit and would not influence or reasonably appear to influence the department in the performance of its duties.

Transportation Code, §223.049 authorizes the department to contract with an owner of land adjacent to a highway that is part of the state highway system to construct an improvement on the highway right of way that is directly related to improving access to or from the owner's land. Exhibit A lists donations resulting from a contract executed by the department under Transportation Code, §223.049 and other donations accepted under Transportation Code, §201.206.

The department also acquires by donation land used for highway improvement projects. Exhibit B lists property donated to the department for that purpose. The department has determined that acceptance of these donations is in the best interest and welfare of the traveling public and will provide a significant public benefit.

The commission established the Sponsorship Acknowledgement Program under 43 TAC Chapter 12, Subchapter K. The program, which is authorized by the Federal Highway Administration in FHWA Order 5610.1A, allows the department to place signs acknowledging donations made to the department to fund transportation related services. Exhibit C lists donations made to the department under the Sponsorship Acknowledgement Program.
