

Summary -- Rule P-02132

The Texas Department of Transportation proposes the reorganization and amendment of rules relating to the Gulf Intracoastal Waterway projects. The rulemaking repeals §2.132, Gulf Intracoastal Waterway Projects. The substance of that section is revised and moved to new Subchapter J of Chapter 2, which consists of new §§2.351-2.364. The purpose of this rulemaking is to update and clarify the rules relating to the requirements for state participation in dredge disposal plans and projects for the beneficial use of dredged materials related to the Gulf Intracoastal Waterway.
