

# BABA DMS Language Scenarios

## Scenario 1

These Departmental Materials Specifications (DMSs) will include the following language.

The Material Producer Lists (MPLs) associated with this DMS include notations that identify products or materials that are pre-certified to comply with Buy America, Gold Star certification. Submit the Department's "Buy America Certification" Form 2812 found on [TxDOT.gov](http://TxDOT.gov) for Gold Star certification. Provide additional form or documentation upon Department request. Submit a new form if material or product Build America, Buy America (BABA) compliance status changes. BABA compliance status change means anytime the product's Buy America status as represented on the MPL changes. The Department maintains authority for establishing BABA material classifications (iron or steel, manufactured product, construction material, or excluded material).

## Scenario 2

These DMSs and MPLs will include the following language

The MPL identifies fabrication plants/manufacturers/mills/producers that have the necessary processes in place to comply with Buy America requirements, Gold Star certification. Fabrication plants/manufacturers/mills/producers must submit the Department's Form 2812 "Buy America Certification" every 2 yr. to maintain BABA Gold Star Program compliance. Submit an updated Form 2812 when changes occur to the materials or other processes affecting BABA compliance status. Provide additional documentation upon Department request. The Department maintains authority for establishing BABA material classifications (iron or steel, manufactured product, construction material, or excluded material).

Yes	7350	Concrete Traffic Barrier Fabrication Plants (Multi-Project)	DMS Article 2., "Material Producer List," and MPL

## Scenario 3

These DMSs will not have language added. The MPLs associated with these DMSs will be updated with the following language.

The Materials and Tests Division's Structural Materials Section verifies on a per project basis that products furnished to TxDOT projects from fabrication plants approved per DMS-XXXX comply with Buy America requirements.
