E-Verify system - important affirmation requirement

In accordance with SB 312, effective with October 2017-let projects, TxDOT will not award a contract to a contractor that is not registered in the Department of Homeland Security's E-Verify Program. Contractors must remain active in E-Verify throughout the life of the contract. Subcontractors must remain active in E-Verify until their work is completed.

1. If your company is not already registered, [register here](#) .
2. Upon registration, the system automatically creates the E-Verify Memorandum of Understanding for Employers. Note: If you need technical support, contact [E-Verify Customer Support](#) .
3. Access your company's E-Verify Memorandum of Understanding for Employers and save the file as a PDF.
4. As affirmation of your company's compliance with SB 312,  [follow these instructions](#) to submit the E-Verify Memorandum of Understanding for Employers.

Step 8 – Download List

Click 'Accept to download the E-Verify list.'

Contractors confirmed as participating in E-Verify

Once a contractor or subcontractor has complied with these requirements, TxDOT will add the company name to the list of contractors confirmed as participating in E-Verify to identify prime contractors and subcontractors who have provided the requested documentation to confirm participation in the E-Verify System.

Disclaimer: This list is informational only and should be used as a supplement to the [Department of Homeland Security \(DHS\) E-Verify Search Tool](#). 

By clicking the Accept button below to view Contractors Confirmed as Participating in E-Verify, you are acknowledging that you have read and understood the above statement.
