Epoxy Applicators for Reinforcing Steel

The Department reserves the right to conduct random sampling and testing, and visual inspections of materials from approved applicators. Department representatives may sample and inspect material at the applicator or the project site. Materials and Tests Division (MTD) reserves the right to test samples to verify compliance with Item 440.

For more information, contact MTD's Structural Materials Section at (512) 993-7117.

NOTE: For uncoated reinforcing steel, refer to the MPL for Reinforcing Steel Mills.

Reference

Refer to the Department's Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges for information on **Item 440, "Reinforcement for Concrete."**

Producers

The following applicators have been pre-approved to furnish epoxy-coated reinforcing steel in accordance with DMS-7330, "Qualification Procedure for Reinforcing Steel Epoxy Coating Applicators," which is referenced in Item 440.

Epoxy applicators noted as Buy America Status compliant on the MPL have provided TxDOT Form 2812, "Buy America Certification," indicating compliance with Buy America requirements referenced in Standard Specification Item 6. Project level certification, therefore, is not required.

Project level certification requires completed TxDOT Form 2806 to comply with Buy America requirements.
