

(Pavement Markings) Preformed Thermoplastic

Material Producer List

Materials and Tests Division

Preformed Thermoplastic

The following manufacturers of glass traffic beads have complied with the requirements of DMS-8240, "Preformed Thermoplastic Pavement Markings."

The materials listed below are qualified for use when DMS-8240 is referenced. These materials require no further testing before use unless deemed necessary by the Project Engineer or the Materials and Tests Division (MTD). Tex-732-B, "Sampling Prefabricated Pavement Marking Materials," describes the sampling method.

The Department reserves the right to conduct random sampling of qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plants, project sites, and warehouses. MTD reserves the right to test samples to verify compliance with DMS-8240.

For qualification on the MPL contact DMS_Prequel@txdot.gov following the product evaluation procedure of DMS-8240. For additional information, contact MTD's Coatings, Calibration and Traffic Materials Section at (737)-291-8064.

A Federal Domestic Materials Program (FDMP) (formerly referred to as Buy America/BABA) Status of "Compliant v4" indicates the manufacturer has certified that the model, product, or material listed complies with applicable contract requirements, as reflected through TxDOT's Gold Star Program and classified in accordance with the FDMP Material Classification Sheet. This status applies to projects federally obligated on or after October 1, 2025, and before October 1, 2026, commonly referred to as the Phase 1 implementation period.

A FDMP Status of "Compliant v5" indicates the manufacturer has certified that the model, product, or material listed complies with applicable contract requirements, as reflected through TxDOT's Gold Star Program and classified

in accordance with the FDMP Material Classification Sheet. This status applies to projects federally obligated on or after October 1, 2026, commonly referred to as the Phase 2 implementation period.

A FDMP Status of "Project Level Certification Required" indicates the product is not currently part of the Gold Star Program and requires FDMP documentation to be submitted and verified at the project level in accordance with contract requirements until such time as the product is reviewed and approved for Gold Star participation.

Table 1 – Qualified Preformed Thermoplastic Materials

Producer	Contact	Product Name	Color	Surface Treatment Requirements	FDMP Compliance
PPG/Ennis-Flint, Inc.	Kevin Lowe klowe@ppg.com (989)-600-9528	PreMark	White	No-preheat	Compliant v5
PPG/Ennis-Flint, Inc.	Kevin Lowe klowe@ppg.com (989)-600-9528	PreMark	Yellow	No-preheat	Compliant v5
PPG/Ennis-Flint, Inc.	Kevin Lowe klowe@ppg.com (989)-600-9528	PreMarkXF	White	No-preheat	Compliant v5
PPG/Ennis-Flint, Inc.	Kevin Lowe klowe@ppg.com (989)-600-9528	PreMarkXF	Yellow	No-preheat	Compliant v5
PPG/Ennis-Flint, Inc.	Kevin Lowe klowe@ppg.com (989)-600-9528	HotTape	White	Surface preheat required	Compliant v5
