

Galvanizing Repair Paints

Material Producer List
Materials and Tests Division

Galvanizing Repair Paints

The following manufacturers for flexible delineators and object marker posts have complied with DMS-8103, "Galvanizing Repair Paints."

The materials listed below are pre-qualified for use where DMS-8103 is referenced. These materials require no further testing before use unless deemed necessary by the Project Engineer or Materials and Tests Division (MTD).

The Department reserves the right to conduct random sampling of pre-qualified, certified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. The MTD reserves the right to test samples to verify compliance with DMS-8103.

For qualification on the MPL contact DMS_Prequal@txdot.gov following the pre-qualification procedure of DMS-8103. For additional information, contact the MTD's Coatings, Calibration and Traffic Materials Section at (512)-221-4998.
