Concrete Evaporation Retardants

The following evaporation retardants are qualified in accordance with DMS-4650, "Hydraulic Cement Concrete Curing Materials and Evaporation Retardants."

The Department reserves the right to conduct random sampling of qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, terminal, shipping container, and concrete plant. Materials and Tests Division (MTD) reserves the right to test samples to verify compliance with DMS-4650.

For more information, contact the MTD's Rigid Pavements and Concrete Materials Section at (512) 506-5858.
