

Concrete Curing Compounds (Liquid Membrane-Forming)

Material Producer List

Materials and Tests Division

Concrete Curing Compounds (Liquid Membrane-Forming)

The following manufacturers for concrete curing compounds have complied with DMS 4650, “Hydraulic Cement Concrete Curing Materials and Evaporation Retardants.” This Specification describes the procedure for pre-qualification.

These manufacturers are pre-qualified to supply the following products for use on Department projects and requisitions when DMS-4650 is referenced. No further sampling and testing is required, unless it is

- indicated "By Batch" in the column “Expires” of the Table below, or
- deemed necessary by the engineer or Materials and Tests Division (MTD).

Tex-718-I, “Sampling Liquid Membrane-Forming Compounds for Curing Concrete,” describes the sampling method.

The Department reserves the right to conduct random sampling of prequalified or certified materials for testing, and to perform random audits of documentation. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. The Coating, Calibration, and Traffic Materials (CCTM) Section of the Materials and Tests Division reserves the right to test samples to verify compliance with DMS-4650.

Variation from specified Percent Solids is allowed up to ± 2%.

For more information, contact the CCTM Section of Materials and Tests Division at (512) 221-4998.

Producer	Contact	Product Type	Product Name/Code	Percent Solids	Expires
Crafco	Chad Strohl 6165 W. Detroit St. Chandler, AZ 85226 602-276-0406	Type II, CI-A	White Water Wax 309 – 87701C	17.24%	6/30/2025
Dayton Superior Corp.	Sarah Clark 1125 Byers Rd Miamisburg, OH 45342 937-866-0711 x44376	Type 1-D	Resin Cure with Dye - J11WD	15.44%	6/30/2025
