- Attachment A – Cooperating and Participating Agency Invitation Letters
- Attachment B – Notice of Intent
- Attachment C – Public Involvement Plan

1.0 PURPOSE OF THE COORDINATION PLAN

In accordance with 23 United States (U.S.) Code § 139(g), the Texas Department of Transportation (TxDOT), as lead agency, has prepared this coordination plan for the proposed Downtown 10 Project in El Paso, Texas. This plan is intended to establish a schedule and process for coordinating public agency participation and comment during the environmental review process. The coordination plan has been developed early in the environmental and planning process. It will be adjusted and updated as input is received from cooperating and participating agencies, and as any complexities of potential environmental issues are revealed. For more information on agency roles and responsibilities, see **Section 3.1** through **3.3** below.

2.0 PROJECT DESCRIPTION

2.1 *Project Location*

The proposed project may reconstruct and widen the existing mainlanes, provide continuous frontage roads, construct retaining walls, bridges, and ramps, and reconfigure cross streets along Interstate Highway 10 (I-10) between Executive Center Boulevard and State Loop 478 (Copia Street) in El Paso County, Texas.

2.2 *Purpose and Need*

The Downtown 10 project is needed because of:

- Traffic congestion and mobility issues
- Concerns surrounding incident management
- Failure to meet current design standards

The purpose of the proposed project is to improve mobility and long-term congestion management, reduce potential conflict points, improve incident management, and bring the facility up to current design standards within the project limits (Executive Center Boulevard and State Loop 478 [Copia Street]).

2.3 *Project History*

The Downtown 10 project was advanced from the Reimagine I-10 Corridor Study (study). The study, which began in 2017, evaluated several conceptual and design alternatives to address transportation needs along a 55-mile stretch of I-10 through El Paso County from the New Mexico state line to Farm-to-Market (FM) 3380. The study identified and prioritized several

General Outcome/Feedback from Outreach:

During this round of outreach, the team received input from the study work group that there may be public opposition to the project, that there needs to be an emphasis on incident management, and that mobility, congestion, and connectivity are top priorities for I-10. In response to public outreach efforts, 294 comments were received during this round. Comments at this stage included concerns about lighting, traffic congestion and choke-points, ramp and exit/entrance locations, truck bypasses, incident management, multi-modal transportation options, adaptive lanes, and signage.

OUTREACH ROUND II

Work Group Meetings:

- TxDOT El Paso District Office February 13, 2018
- UTEP Physical Plant Complex #113, Building A February 14, 2018

Public Meetings:

- El Paso Community College Northwest Campus March 6, 2018
- Mesita Elementary School Gymnasium March 7, 2018
- El Paso Multipurpose Recreation Center March 13, 2018
- Fabens High School March 14, 2018

Additional Outreach:

- Published notice on TxDOT Website
- Sent emails to 142 work group members
- Mailed postcards to 1,043 adjacent property owners
- Distributed flyers to high schools and 10 libraries/community centers throughout study area
- Aired movie trailer advertising the study and public meetings for four weeks at three local cinemas
- Included flyers in El Paso Marathon runner's packets
- Manned informational booth at the El Paso Poppy Festival on March 31, 2018
- Utilized Twitter and Facebook to provide study information and advertise event dates
- Sent email broadcast via GovDelivery to 208 recipients (98.6 percent open rate)

- Posted meeting information on www.txdot.gov
- Updated TxDOT meeting pages with meeting materials
- Regularly updated Reimagine I-10 study page on www.txdot.gov
- Posted MetroQuest survey on Reimagine I-10 study page

General Outcome/Feedback from Outreach:

During this round of outreach, the workgroup asked and provided input about priority areas, deck park options, adaptive lanes, funding, and the use of technology. In response to public outreach efforts, 129 comments were received from the public during this round. These comments included concerns about exit/entrance ramp locations, lighting, the potential removal of the Porfirio Diaz exit, access and impacts to the Sunset Heights neighborhood, questions about deck park concept, multi-modal transportation including rapid transit, and comments about bicycle and pedestrian facilities.

OUTREACH ROUND III

Work Group Meetings:

- TxDOT EL Paso District January 9, 2019
- UTEP Physical Plant Complex #113, Building A January 10, 2019

Public Meetings:

- El Paso Community Foundation January 22, 2019
- Ysleta ISD Central Office January 24, 2019

Additional Outreach:

- Advertised meetings online in El Paso Times and El Diario de El Paso
- Sent email to 499 work group members and interested parties
- Mailed postcard to 1,039 adjacent property owners
- Manned informational booths at
 - o the El Paso Holiday Market on November 18, 2018
 - o the El Paso WinterFest on December 15, 2018
- Utilized Twitter and Facebook to provide study information and advertise event dates
- Posted meeting information on www.txdot.gov

- Updated TxDOT meeting pages with meeting materials
- Regularly updated Reimagine I-10 study page on www.txdot.gov
- Posted MetroQuest survey on Reimagine I-10 study page

General Outcome/Feedback from Outreach:

During this round of outreach, the work group provided comments and suggestions primarily focused around the proposed adaptive lanes, the conceptual improvements in and around the downtown area, incident management, and truck traffic/port of entry considerations. In response to the public outreach efforts this round, approximately 113 comments were received. These comments included concerns about downtown bridge removals, access to and from the Sunset Heights neighborhood, support for and against the deck park concept, bicycle and pedestrian access and accommodations, ROW and displacements, traffic noise, and funding.

OUTREACH ROUND IV

Work Group Meeting:

- TxDOT El Paso District October 30, 2019

General Outcome/Feedback from Outreach:

At the final work group meeting, the study team presented the results and recommendations of the corridor study. This included recommended projects within each segment, as well a tentative timeline for top priority projects. The work group provided comments on the corridor study findings and potential projects.

After the conclusion of the last round of public outreach in January 2019, approximately 50 comments were received. These comments included concerns about downtown bridge removals, potential impacts to properties in downtown El Paso, proposed frontage roads, routing truck traffic around El Paso through alternate routes, funding priorities, and mass transit and bicycle/pedestrian considerations. TxDOT reviewed and considered these comments as projects were identified and moved forward into more detailed design and environmental investigations. Segment 2 of the study was identified as the highest priority project and is the project presented in this coordination plan.

ADDITIONAL OUTREACH EFFORTS AND ONE-ON-ONE MEETINGS

In addition to the work group and public outreach meetings, TxDOT and the study team conducted several one-on-one meetings with local agencies and stakeholders to provide

updates on the study and receive input. Provided below is a list of the meetings that included a discussion of the Downtown 10 project area.

02/13/2017: Meeting with HDR and TTI to discuss available datasets, statistics and previous and on-going border research for El Paso.

10/18/2017: Meeting with UPRR, HDR, and TxDOT to coordinate options for I-10 and adjacent rail lines east of the downtown area.

11/07/2017: Meeting with City of El Paso, HDR, and TxDOT to discuss goals and objectives of the study, existing problem areas, current/future traffic growth, and current/future projects.

11/07/2017: Meeting with SunMetro, HDR, and TxDOT to discuss goals and objectives of the study and identify future transit projects within the corridor.

11/09/2017: Meeting with El Paso County, HDR, and TxDOT to discuss goals and objectives of the study, existing problem areas, current/future traffic growth, and current/future projects.

11/09/2017: Meeting with El Paso MPO, HDR, and TxDOT to discuss goals and objectives of the study, existing problem areas, current/future traffic growth, and current/future projects.

02/14/2018: Meeting with UPRR, HDR, and TxDOT to review and discuss options for I-10 and adjacent rail lines east of the downtown area.

04/19/2018: Presentation to Greater Chamber of Commerce by HDR and TxDOT to provide update on Reimagine I-10 Study.

04/20/2018: Presentation to El Paso MPO by HDR and TxDOT to provide update on Reimagine I-10 Study.

04/30/2018: Meeting with City of El Paso, HDR, and TxDOT to discuss downtown alternatives.

06/13/2018: Meeting with Sunset Heights HOA, HDR, and TxDOT to provide an update on the study and discuss options in the downtown area.

06/14/2018: Presentation to El Paso Hispanic Chamber of Commerce by TxDOT to provide update on Reimagine I-10 Study.

06/15/2018: Presentation to Central Business Association by HDR and TxDOT to provide update on Reimagine I-10 Study.

08/02/2018: Presentation to International Bridges Steering Committee by TxDOT to provide update on Reimagine I-10 Study.

09/06/2018: Follow-up Presentation to International Bridges Steering Committee by HDR and TxDOT to provide update on Reimagine I-10 Study.

09/25/2018: Meeting with UPRR, HDR, and TxDOT to review and discuss alternatives for I-10 and adjacent rail lines at Cotton St.

12/04/2018: Meeting with SunMetro, HDR and TxDOT to discuss recommended alternative and identify areas of potential concern.

12/05/2018: Meeting with City of El Paso, HDR and TxDOT to discuss recommended alternative and identify areas of potential concern.

01/09/2019: Meeting with TxDOT, HDR, and representatives from St. Clements School regarding potential impacts to school property.

01/16/2019: Meeting with St Clements School, HDR, and TxDOT to discuss to discuss recommended alternative and identify areas of potential concern.

01/25/2019: Presentation to El Paso MPO by HDR and TXDOT to provide update on Reimagine I-10 Study.

03/14/19: Presentation to Central Business Association by TxDOT to provide update on Reimagine I-10 Study.

7/10/19: Presentation and question/answer session with the Sunset Heights Neighborhood Association.

10/02/2019: Presentation and question/answer session to St. Clements board at the school by Jennifer Wright, TxDOT.

10/06/2019: Presentation and question/answer session at Rim Road Neighborhood Association meeting by Jennifer Wright, TxDOT

10/08/2019: Presentation and question/answer session at El Paso County Historical Commission by Jennifer Wright, TxDOT.

11/20/2019: Meeting with City of El Paso Representative Aleksandra Annello and TXDOT to discuss recommended alternatives and identify areas of potential concern.

In summary, TxDOT conducted extensive public outreach for the Reimagine I-10 Corridor Study, spanning approximately three years. This included:

- Holding 47 in-person meetings, including work groups, public meetings, and one-on-one meetings with interested entities and stakeholders

- Attending or participating in six community events, and running a movie trailer in local theaters
- Mailing approximately 3,600 letters or postcards to adjacent property owners, interested parties, and work group members
- Sending approximately 850 email invitations to workgroup members and interested parties
- Publishing seven English and Spanish notices in local papers and online news platforms
- All Public Meetings included Spanish translation of materials and other special need options.
- Posting continual updates to TxDOT's website and social media feeds
- Providing regular media updates, including on-camera interviews with local news broadcasters about the study status and upcoming meetings

These efforts resulted in 586 officially recorded public comments, in addition to numerous emails from officials and members of the public that were received outside of official comment periods but included as part of the Corridor Study record. Comments were documented, carefully considered, and used to inform proposed Corridor Study concepts.

OUTCOME OF REIMAGINE I-10 STUDY

The study's recommended alternative for Segment 2, between Executive Center Boulevard and Copia Street, was approximately 5.7 miles in length identified the need for potential new right-of-way.

PROPOSED DOWNTOWN 10 PROJECT

Development of the Downtown 10 project began in 2019. Since that time, TxDOT has conducted initial project development and extensive public involvement (see **Section 4.2** below). The objective of the proposed project is to provide long-term transportation solutions to improve mobility and long-term congestion management, reduce, and improve incident management, and bring the facility up to current design standards. Proposed improvements may include widening and reconstruction of the mainlanes and reconstruction of cross streets. In addition, improvements may include the construction of retaining walls, bridges, and ramps, as well as the development of continuous frontage roads. Multimodal connections for pedestrians, cyclists, and transit users are also proposed. Initially, the project was classified as an Environmental Assessment (EA). During project development and based on

the National Environmental Policy Act (NEPA) process, TxDOT determined that the Downtown 10 Project will now be classified and prepared as an Environmental Impact Statement (EIS).

2.4 Projected Cost of Project

As a regional priority project, TxDOT's 2023 Unified Transportation Program (UTP) has estimated that the project would cost \$750.5 million. The UTP has allocated \$302.16 million total funding. The UTP is TxDOT's 10-year plan that guides the development of transportation work across the state. The preferred alternative(s) have not been chosen; therefore, a detailed construction cost has not been itemized, which could affect the total estimated cost of the project. TxDOT is seeking potential partnerships and/or grants to assist in funding the project. Tolling is not currently a funding option and tolled lanes are currently not in consideration.

3.0 AGENCY ROLES AND RESPONSIBILITIES

3.1 Lead Agency

TxDOT will serve as the lead agency for the proposed project. The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding (MOU) dated December 9, 2019, and executed by the Federal Highway Administration (FHWA) and TxDOT. TxDOT will develop the environmental documents in accordance with 23 CFR 771 and 40 CFR 1500-1508.

The lead agency will:

- Identify and involve cooperating and participating agencies in the environmental review process;
- Develop a coordination plan;
- Solicit input from the public and agencies on the project's purpose and need;
- Finalize the purpose and need statement;
- Provide opportunities for the public and agencies to provide input on refined alternatives;
- Ensure environmental commitments are completed; and
- Manage the environmental review process and assist in addressing/resolving any potential issues.

3.2 COOPERATING AGENCIES

Cooperating agencies are federal agencies that have either jurisdiction by law regarding aspect(s) of the proposed project or special expertise pertaining to the proposed project. TxDOT, as the lead agency, invited potential cooperating agencies to participate. Cooperating agencies assist in the preparation, coordination, and review of the EIS. If a federal agency chooses to decline the invitation to become a cooperating agency, the agency’s response letter (electronic or hard copy) must state that the agency has no jurisdiction or authority with respect to the project, has no expertise or information relevant to the project, or does not intend to submit comments on the project. If the federal agency’s response does not state the agency’s position in these terms, the agency should be treated as a participating agency. An agency invited to be a cooperating agency can also voluntarily elect to be a participating agency instead by stating their intent in the response. See **Appendix A** for copies of the cooperating agency invitation letters.

3.3 Participating Agencies

Federal, state, tribal, regional, and local government agencies that may have an interest in the project were invited to serve as participating agencies. **Appendix A** contains copies of the invitation letters to participating agencies.

The roles and responsibilities of participating agencies include, but are not limited to:

- Participating in the scoping process;
- Participating in the NEPA process with regard to development of the purpose and need statement, range of alternatives and methodologies, and level of detail for analyzing alternatives; and
- Identifying and providing early input on issues of concern regarding the project’s potential impacts to the human or natural environment.

Accepting a role as a participating agency does not imply that an agency supports the project or has jurisdiction or special expertise with respect to the evaluation of the project. **Table 1** summarizes the roles and responsibilities of cooperating and participating agencies identified to date.

Table 1. Cooperating and Participating Agencies

| Agency | Roles | | Agency Response (as of DATE) | Responsibility |
|--------------------------------------|-----------------------|-------------------------|------------------------------|--|
| | Cooperating (Invited) | Participating (Invited) | | (Agencies to provide input about their roles and responsibilities) |
| U.S. Environmental Protection Agency | X | | | |

4.0 PROJECT COORDINATION

4.1 Agency Coordination

TxDOT will facilitate the agency coordination process by scheduling agency scoping meetings to ensure meaningful participation during the project development process. **Table 2** identifies key agency coordination points throughout the project development and NEPA process. This list does not preclude additional coordination opportunities with these agencies during the EIS process.

Table 2. Agency Coordination

| Agency Coordination Point | Timeframe |
|--|-----------------------|
| Publication of Notice of Intent (NOI)* in the Federal Register | TBD |
| Publication of NOI in the El Paso Times (English) and El Diario (Spanish) local newspapers | November 8, 2022 |
| Agency Scoping Meeting #1: Cooperating and participating agencies are presented, and comments are solicited on the draft coordination plan and schedule, draft purpose and need, and draft range of alternatives | November 30, 2022 |
| Agency Update Meeting | Before Public Hearing |
| Notice of Availability and Draft EIS Circulation | Winter 2024 |
| Combined Final EIS/Record of Decision | Summer 2024 |

*A copy of the published NOI will be included as **Appendix B**

4.2 Public Involvement and Stakeholder Outreach

Given the local and regional importance of the proposed Downtown 10 project, the public involvement activities that have been carried out to date and the public involvement planned for the proposed project include a comprehensive public involvement program designed to proactively engage and encourage participation of all interested stakeholders. A Public Involvement Plan (PIP) is included in this coordination plan as **Appendix C**. The PIP will be periodically updated to reflect ongoing public involvement and input. Additionally, issues specific to this project may require adjustments to the PIP to address communication needs identified during public outreach efforts.

During initial project development, while the project was being developed as an EA, public outreach was a continuous process. Key public involvement and stakeholder outreach efforts that have been undertaken before the Scoping Meeting to date, are outlined in **Table 3**, below:

Table 3. Downtown 10 Public Outreach to Date

| Meeting Type | Meeting Date |

| One-on-One the Church of St. Clement | 6/27/2022 |
| One-on-One State Representative Lina Ortega | 7/25/2022 |
| One-on-One City of El Paso Planning & Inspection Department | 7/25/2022 |

Table 3. Downtown 10 Public Outreach to Date

| Meeting Type | Meeting Date |
|--|--------------|
| One-on-One City of El Paso Leadership | 7/25/2022 |
| One-on-One Camino Real Regional Mobility Authority | 7/27/2022 |
| One-on-One El Paso County Judge Samaniego | 7/27/2022 |
| One-on-One City of El Paso Mayor Leeser | 7/28/2022 |
| One-on-One Senator Cesar Blanco (Staff) | 7/29/2022 |
| One-on-One Congresswoman Escobar | 8/3/2022 |

Key public involvement and stakeholder outreach efforts that will be undertaken through the project development and NEPA process include:

- A public scoping meeting;
- Public outreach including steering committee meetings, workgroup workshops, and one-on-one meetings with affected property owners; and
- A public hearing.

5.0 PROJECT MILESTONES

Major milestones and general timeframes are identified in **Table 4**. It is the intent of the lead agency to develop a schedule reflective of these milestones.

Table 4. Major NEPA Project Milestones

| Milestone | Date/Timeframe |
|---|---------------------------|
| Publication of NOI in Federal Register | November 3, 2022 |
| Publication of NOI in <i>El Paso Times</i> (English) and <i>El Diario</i> (Spanish) | November 8, 2022 |
| Provide agency coordination plan and schedule to agencies | November 4, 2022 |
| Provide draft purpose and need to agencies | November 4, 2022 |
| Provide range of alternatives and analysis methodology to agencies | November 4, 2022 |
| Agency and Public Scoping Meeting | November 30, 2022 |
| Refine purpose and need; refine range of alternatives and develop methodologies and level of detail for analyzing alternatives. | Winter 2023 |
| Draft EIS preparation and identification of preferred alternative and potential environmental impacts | Winter 2023 - Winter 2024 |
| Notice of Availability and Draft EIS circulation | Winter 2024 |
| Public hearing presenting Draft EIS and preferred alternative | Winter 2024 |
| Final EIS preparation | Winter - Summer 2024 |
| Combined Final EIS and Record of Decision | Summer 2024 |

November 3, 2022

**RE: Invitation to become a Cooperating and/or Participating Agency
Downtown 10 (on I-10) From Executive Center Boulevard to State Loop 478 (Copia Street)
CSJ: 2121-02-166**

Michael S. Regan
Regional Administrator, U.S. Environmental Protection Agency
1201 Elm Street, Suite 500
Dallas, TX 75270

Dear Agency Representative:

The Texas Department of Transportation (TxDOT) is initiating an Environmental Impact Statement (EIS) for a proposed transportation project along Interstate Highway 10 (I-10) from Executive Center Boulevard to State Loop 478 (Copia Street), referred to as the Downtown 10 project. The proposed project is approximately 5.7 miles in length. The purpose of the Downtown 10 project, as currently defined, is to improve mobility and long-term congestion management, improve incident management, and bring the facility up to current design standards. Additional information regarding the proposed project can be found in the enclosed Notice of Intent (NOI).

Your agency may have an interest in the proposed project due to the potential effects on the natural and/or human environment and input from your agency may also be required. Therefore, TxDOT respectfully requests your agency's participation as a Cooperating Agency in preparing the Draft EIS and Final EIS in accordance with 40 Code of Federal Regulations §1501.6 of the Council on Environmental Quality's Regulations for Implementing the Procedural Provision of the National Environmental Policy Act (NEPA). As a Cooperating Agency, your special expertise permits you, as requested by the Lead Agency, TxDOT, to develop information and prepare environmental analyses for the EIS.

Your agency may choose to participate in the proposed project as a Participating Agency. Pursuant to Title 23 U.S. Code, Chapter 1, Section 139, Participating Agencies are similar to Cooperating Agencies, but have lesser authority, responsibility, and involvement in the environmental review process.

As a Cooperating Agency, responsibilities include identifying, as early as practicable, any issues of concern regarding the project's potential environmental or socioeconomic impacts that could substantially delay or prevent an agency from granting a permit or other approval that is needed for the project. Therefore, we suggest that your agency's role in the development of the project include the following:

- Providing meaningful and early input on the coordination plan, the purpose and need, the range of alternatives, and the methodologies and level of detail for analyzing alternatives.
- Participating in coordination meetings and joint field reviews, as appropriate.
- Providing timely review and comment on environmental documents to reflect the views and concerns of your agency on the adequacy of the document, alternatives considered, and the anticipated impacts and mitigation.

Michael S. Regan
Regional Administrator, U.S. Environmental Protection Agency

An in-person agency scoping meeting is planned for November 30, 2022, from 10 a.m. to 12:00 p.m. MT at the El Paso Convention Center (Juarez Room) One Civic Center Plaza, El Paso, Texas, 79901, and a virtual call-in option will be emailed to you before the meeting. A public scoping meeting will also be held November 30, 2022, from 4 p.m. to 7 p.m. MT at the same location. A virtual option for the public scoping meeting will go live at 4 p.m. MT on November 30, 2022. Details are in the attached NOI.

Please respond to TxDOT in writing, by mail or e-mail, with an acceptance or declination of the invitation within 30 days of the date of this letter. Please specify if your agency would like to be a Cooperating Agency or Participating Agency. If your agency declines, the response should state your reason for declining either invitation. If you choose to decline, please specifically state in your response that your agency:

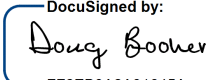

- (a) Has no jurisdiction or authority with respect to the proposed project;
- (b) Has no expertise or information relevant to the proposed project; or
- (c) Does not intend to submit comments on the proposed project.

If you have any questions or would like to discuss the project in more detail or our agencies' respective roles and responsibilities during preparation of this EIS, please contact:

Hugo Hernández
TxDOT Project Manager – El Paso District
13301 Gateway Boulevard West
El Paso, TX 79928-5410
(915) 790-4243
Downtown10@txdot.gov

Thank you for your cooperation and interest in this proposed project.

Sincerely,

Hugo Hernández, TxDOT El Paso Project Manager

Enclosure

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding (MOU) dated December 9, 2019, and executed by the Federal Highway Administration (FHWA) and TxDOT. The MOU assigns to TxDOT FHWA responsibilities under the National Environmental Policy Act (NEPA) and other environmental laws. Therefore, TxDOT is initiating this EIS in TxDOT's role as the lead federal agency under the MOU between TxDOT and the FHWA.

November 3, 2022

**RE: Invitation to become a Participating Agency
Downtown 10 (on I-10) From Executive Center Boulevard to State Loop 478 (Copia Street)
CSJ: 2121-02-166**

Lorinda Gardner
Regional Director, Texas Commission on Environmental Quality
401 E. Franklin Avenue, Suite 560
El Paso, TX 79901

Dear Agency Representative:

The Texas Department of Transportation (TxDOT) is initiating an Environmental Impact Statement (EIS) for a proposed transportation project along Interstate Highway 10 (I-10) from Executive Center Boulevard to State Loop 478 (Copia Street), referred to as the Downtown 10 project. The proposed project is approximately 5.7 miles in length. The purpose of the Downtown 10 project, as currently defined, is to improve mobility and long-term congestion management, improve incident management, and bring the facility up to current design standards. Additional information regarding the proposed project can be found in the enclosed Notice of Intent (NOI).

With this letter, we extend your agency an invitation to become a Participating Agency with TxDOT in the development of the EIS for the Downtown 10 Project. This designation does not imply that your agency either supports the proposal or has any special expertise with respect to the evaluation of the proposed project.

Pursuant to Title 23 U.S. Code, Chapter 1, Section 139, Participating Agencies are responsible to identify, as early as practicable, any issues of concern regarding the project's potential environmental or socioeconomic impacts that could substantially delay or prevent an agency from granting a permit or other approval that is needed for the project. We suggest that your agency's role in the development of the project include the following:

- Providing meaningful and early input on the coordination plan, the purpose and need, the range of alternatives, and the methodologies and level of detail for analyzing alternatives.
- Using this process to address any environmental issues of concern to your agency.

An in-person agency scoping meeting is planned for November 30, 2022, from 10 a.m. to 12:00 p.m. MT at the El Paso Convention Center (Juarez Room) One Civic Center Plaza, El Paso, Texas, 79901, and a virtual call-in option will be emailed to you before the meeting. A public scoping meeting will also be held November 30, 2022, from 4 p.m. to 7 p.m. MT at the same location. A virtual option for the public scoping meeting will go live at 4 p.m. MT on November 30, 2022. Details are in the attached NOI.

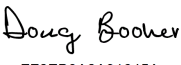

Lorinda Gardner
Regional Director, Texas Commission on Environmental Quality

Please respond to TxDOT in writing, by mail or e-mail, with an acceptance or declination of the invitation within 30 days of the date of this letter. If you have any questions or would like to discuss the project in more detail or our agencies' respective roles and responsibilities during the preparation of this EIS, please contact:

Hugo Hernández
TxDOT Project Manager – El Paso District
13301 Gateway Boulevard West
El Paso, TX 79928-5410
(915) 790-4243
Downtown10@txdot.gov

Thank you for your cooperation and interest in this proposed project.

Sincerely,

DocuSigned by:

FF2EB9A2A91645A...

Doug Booher.
Director of Environmental Affairs

CC: Tomás Treviño, TxDOT El Paso District Engineer
Raul Ortega, TxDOT El Paso Transportation, Planning, and Development Director
Hugo Hernández, TxDOT El Paso Project Manager

Enclosure

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding (MOU) dated December 9, 2019, and executed by the Federal Highway Administration (FHWA) and TxDOT. The MOU assigns to TxDOT FHWA responsibilities under the National Environmental Policy Act (NEPA) and other environmental laws. Therefore, TxDOT is initiating this EIS in TxDOT's role as the lead federal agency under the MOU between TxDOT and the FHWA.

Attachment B

Notice of Intent

Training

Under Sections 12.1 and 12.2 of the MOU, the DOT&PF committed to implementing training necessary to carry out the environmental responsibilities assumed under the NEPA Assignment Program. The DOT&PF also committed to assessing its need for training, developing a training plan, and updating the training plan on an annual basis.

Observation #4: Training Needs Assessment

Considering ongoing staff turnover, as discussed in Observation #2, FHWA encourages DOT&PF to conduct a detailed statewide training needs assessment of all environmental staff. This will help DOT&PF allocate resources more efficiently to identify skill and knowledge gaps. The FHWA also encourages DOT&PF to explore cross training opportunities with other agencies (e.g.: SHPO, BLM, USFS) and engage them in development of their annual training plan.

Performance Measures

The FHWA and DOT&PF mutually established a set of performance measures to evaluate DOT&PF's performance in assuming NEPA Assignment Program responsibilities. The DOT&PF continues to collect, maintain, and develop data towards monitoring its performance as required by Section 10.1.3 of the MOU. The audit team noted the following observation related to Performance Measures.

Successful Practice #3: Relationships With Agencies

The audit team found that DOT&PF has very good and positive relationships with BLM, USFS, and SHPO. The FHWA has interviewed resource agencies in previous audits and found that overall, they had good working relationships with DOT&PF. The audit team decided to interview staff from BLM and the USFS during Audit #4 since Federal Land Management Agencies had not been interviewed in past audits and they were included in DOT&PF's May 2020 agency poll. The team also chose to interview SHPO since they had not been interviewed since Audit #1. The individuals interviewed from these three agencies indicated that overall, their working relationships with DOT&PF were very good and positive. This information correlates well with the overwhelmingly positive responses DOT&PF received to their agency poll.

Legal Sufficiency

Since 2017, the same attorney from the Alaska Attorney General's Office, Transportation Section, has been assigned to the NEPA Assignment Program. The assigned attorney has significant experience with Federal-aid highway projects and the Federal environmental process. The attorney works directly with DOT&PF staff on project environmental documents. Based on the interviews, the attorney becomes involved early in project development, normally reviewing a NEPA document before receiving a formal request for a legal sufficiency review. During the audit period, the attorney did not review an environmental impact statement or a Section 4(f) evaluation requiring a legal sufficiency review. Although a legal sufficiency review is not required for EAs, the attorney reviewed two EAs during the audit period. The review process for an EA is like the review process for an EIS.

Department of Law Management stated during the interviews that while one attorney is currently assigned to the program, should workload increase significantly another attorney could be assigned to NEPA work or litigation, likely through the utilization of outside counsel per 23 U.S.C. 327(a)(2)(G).

The audit team finds that DOT&PF meets the legal sufficiency determination and staffing requirements set forth in the DOT&PF Environmental Procedures Manual.

Status of Observations From Audit #3 Report (April 2020)

This section describes the actions DOT&PF has taken in response to observations made during the third audit.

Observation #1: Self-Assessment Procedures

The DOT&PF's 2018 NEPA Assignment Program Self-Assessment Procedures require that SEO develop the preliminary and final Self-Assessment report through coordination with, and input from, the Regional Environmental Managers (REMs). During Audit #3 interviews, the audit team found that DOT&PF did not develop the January 2020 Self-Assessment report in accordance with their procedures, nor distribute the final report to the regions. For Audit #4, DOT&PF indicated in their responses to the PAIR that the draft December 2020 Self-assessment was sent to the REMs for review and comment according to their procedures. Comments were received and addressed in the final Self-Assessment report, which was then shared with the regions.

Observation #2: Assessing Resource Agency Communication

Section 10.2.1 C. of the MOU requires DOT&PF to "Assess change in communication among DOT&PF, Federal and State agencies, and the public resulting from assumption of responsibilities under this MOU". The MOU allows DOT&PF to determine the method it will use to assess this change. The DOT&PF selected to use an annual resource agency poll. The DOT&PF identified this measure in its *DOT&PF NEPA Assignment Program Performance Measures* document located on its website. At the time of Audit #3, DOT&PF had not yet used a resource agency poll, and FHWA recommended that DOT&PF consider changing the method for reporting this measure.

In May 2020 (prior to Audit #4), DOT&PF conducted an agency survey to assess changes in communication among DOT&PF, State, and Federal resource agencies. As described in DOT&PF's Self-Assessment Report, the survey consisted of six questions distributed via an online platform to a representative cross section of State and Federal resource Agency staff. Twenty-four responses were received from 11 different resource agencies. The DOT&PF asked the question: "Has the level of communication improved, declined, or remained the same since the MOU became effective?" Eleven of the responses indicated that there had been an improvement in communication and the remaining responses indicated there had been no change.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: El Paso County, Texas

AGENCY: Texas Department of Transportation (TxDOT), Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Federal notice of intent to prepare an Environmental Impact Statement (EIS).

SUMMARY: FHWA, on behalf of TxDOT, is issuing this notice to advise the public that an EIS will be prepared for a proposed transportation project to study the effects of the project on Interstate Highway 10 (I-10), known as the Downtown 10 project. The limits of the proposed project are from Executive

Center Boulevard (Blvd.) to State Loop (SL) 478 (Copia Street) in El Paso County, Texas. The proposed project is approximately 5.7 miles in length.

FOR FURTHER INFORMATION CONTACT:

Hugo Hernandez, TxDOT Project Manager, 13301 Gateway Boulevard West, El Paso, TX, 79928–5410, (915) 790–4243, Downtown10@txdot.gov.

SUPPLEMENTARY INFORMATION: The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019 and executed by FHWA and TxDOT.

Purpose and Need

The Downtown 10 project is needed because of:

- Traffic congestion and mobility issues
- Concerns surrounding incident management
- Failure to meet current design standards

By providing a long-term transportation solution for the City of El Paso, El Paso County, and the region, the purpose of the proposed project is to:

- Improve mobility and long-term congestion management
- Improve incident management
- Bring the facility up to current design standards

Proposed Action

The proposed project would improve I–10 from Executive Center Blvd. and SL 478 (Copia Street), a distance of approximately 5.7 miles. Traveling through downtown El Paso, the proposed improvements may include widening and reconstruction of the mainlanes, continuous frontage roads, retaining walls, bridges, ramps, and cross streets to overcome deterioration of pavement and bridges to include bicycle and pedestrian facilities.

Alternatives

The EIS will evaluate a range of build alternatives and a no-build alternative.

Provided below is background information on alternative analyses conducted to date. From 2017 through 2019, the TxDOT Reimagine I–10 Corridor Study (study) included extensive public outreach and high-level engineering/environmental evaluations of future needs for the I–10 corridor. The study resulted in a recommended study alternative for the entire 55-mile-long corridor. As a result, the Downtown 10 project (Segment 2 of

the study) was initiated, and the first Public Meeting was held virtually from June 25 through July 15, 2020. The Public Meeting showed the recommended study alternative and requested additional public and stakeholder input in order to create more detailed conceptual alternatives. After Public Meeting #1, TxDOT utilized detailed engineering and environmental constraint criteria and the public/stakeholder feedback to identify 18 build alternatives, which were narrowed to nine conceptual build alternatives. The constraint criteria included mobility, design, multimodal, and environmental considerations.

The conceptual alternatives were then screened to three viable build alternatives (Alternatives D, G, and H). This process was presented in Public Meeting #2 (held virtually from February 24 through March 16, 2021) for additional public feedback and further study. The no-build alternative has and will be carried through the process as a baseline condition. Possible build alternatives include the following:

Alternative D

Alternative D proposes reconstruction and widening of the existing I–10 facility. From Executive Center Boulevard to University Drive, Alternative D shifts the I–10 alignment to the north/east. From University Drive to Campbell Street, Alternative D follows the existing alignment. From Campbell Street to Ange Street, Alternative D shifts the I–10 alignment to the north. From Ange Street to Piedras Street, Alternative D shifts the I–10 alignment to the south. From Piedras Street to SL 478 (Copia Street), Alternative D follows the existing alignment. Alternative D proposes new eastbound and westbound non-tolled managed lanes called adaptive lanes, an additional eastbound and westbound general purpose lane, a bicycle and pedestrian bridge at Prospect Street, the addition of an eastbound one-way collector roadway between Kansas Street and Piedras Street, a shared use path from Executive Center Boulevard to University Drive and from Santa Fe Street to SL 478 (Copia Street), and bicycle and pedestrian accommodations along cross street bridges. Additional capacity, operational, and bicycle and pedestrian accommodations would be considered for this alternative.

Alternative G

Alternative G proposes reconstruction and widening of the existing I–10 facility. From Executive Center Boulevard to Yandell Drive, Alternative G shifts the I–10 alignment to the north/

east. From Yandell Drive to Santa Fe Street Alternative G follows the existing alignment. From Santa Fe Street to Ange Street, Alternative G shifts the I–10 alignment to the north. From Ange Street to Piedras Street, Alternative G shifts the I–10 alignment to the south. From Piedras Street to SL 478 (Copia Street), Alternative G follows the existing alignment. Alternative G proposes new eastbound and westbound non-tolled managed lanes called adaptive lanes, an additional eastbound and westbound general purpose lane, the addition of one-way collector roadways (eastbound and westbound) between Executive Center Boulevard and Santa Fe Street, the addition of an eastbound one-way collector roadway between Kansas Street and Piedras Street, a shared use path from Executive Center Boulevard to SL 478 (Copia Street), bi-directional cycle tracks from Santa Fe Street to Stanton Street, and bicycle and pedestrian accommodations along cross street bridges. Additional capacity, operational, and bicycle and pedestrian accommodations would be considered for this alternative.

Alternative H

Alternative H proposes reconstruction and widening of the existing I–10 facility. From Executive Center Boulevard to Yandell Drive, Alternative H shifts the I–10 alignment to the north/east. From Yandell Drive to Santa Fe Street, Alternative H follows the existing alignment. From Santa Fe Street to Ange Street, Alternative H shifts the I–10 alignment to the north. From Ange Street to Piedras Street Alternative H shifts the I–10 alignment to the south. From Piedras Street to SL 478 (Copia Street), Alternative H follows the existing alignment. Alternative H proposes new eastbound and westbound non-tolled managed lanes called adaptive lanes, an additional eastbound and westbound general purpose lane, the addition of one-way collector roadways (eastbound and westbound) between Executive Center Boulevard and Santa Fe Street, the addition of an eastbound one-way collector roadway between Kansas Street and Piedras Street, eastbound and westbound collector-distributor connectors between Campbell Street and SL 478 (Copia Street), a shared use path from Executive Center Boulevard to SL 478 (Copia Street), bi-directional cycle tracks from Santa Fe Street to Stanton Street, and bicycle and pedestrian accommodations along cross street bridges. Additional capacity, operational, and bicycle and pedestrian accommodations would be considered for this alternative.

Potential Project Impacts

Section 106 and Section 4(f) Historic Properties. The proposed build alternatives will be evaluated for potential adverse impacts to historic properties (*i.e.*, properties that are eligible for or listed in the National Register of Historic Places) within the study area.

Environmental Justice (EJ). The proposed build alternatives will be evaluated for potential adverse impacts to EJ communities due to anticipated relocations as well as other impacts such as access, noise, and visual aesthetics. Additional analysis and public involvement will be conducted during the National Environmental Policy Act process to assess if the project would result in any disproportionately high and adverse effects on low-income and minority communities.

Air Quality. The project is located in the El Paso Moderate Nonattainment area for Particulate Matter (PM) 10, Attainment/Maintenance Area for Carbon Monoxide (CO), and the 2015 Marginal Nonattainment area for Ozone (O3). As such, the proposed build alternatives will be evaluated for potential adverse impacts to air quality and will be subject to a project level conformity determination.

The EIS will evaluate the potential impacts and benefits to the resources/communities identified above as well as the following other subject areas: Limited English Proficiency communities, land use, right-of-way, social and community resources, traffic noise, wildlife and threatened and endangered species, water resources, hazardous materials sites, and visual resources.

It is anticipated that the following would be required: Texas Antiquities Code permit and concurrence, Section 106 historic/archeological resources concurrence, Section 4(f) evaluation approval, U.S. Army Corp of Engineers Nationwide Permit(s), and conformity determination under the Clean Air Act.

Tentative Schedule

Agency Scoping Meeting: November 30, 2022

Public Scoping Meeting: November 30, 2022

In addition to the public scoping meeting, a public hearing will be held after the Draft EIS is prepared. Public notice will be given of the time and place of the hearing. After the public hearing and end of Draft EIS comment period, issuance of the Final EIS/Record of Decision is anticipated. If a build

alternative is selected, all permits and authorization decisions would occur before construction. TxDOT will issue a single Final EIS and Record of Decision document pursuant to 23 U.S.C. 139(n)(2), unless TxDOT determines statutory criteria or practicability considerations preclude issuance of a combined document.

In accordance with 23 U.S.C. 139, cooperating agencies, participating agencies, and the public will be given an opportunity for continued input on project development. An in-person public scoping meeting is planned for Wednesday, November 30, 2022, from 4 p.m. to 7 p.m. MT at the El Paso Convention Center (Juarez Room) One Civic Center Plaza, El Paso, Texas, 79901. A virtual option will go live at 4 p.m. MT on November 30, 2022. Additional information on both options will be provided at <https://www.txdot.gov/> by searching for “El Paso Downtown 10—Virtual Public Scoping Meeting with In-Person Option”.

The public scoping meeting will provide an opportunity for the public to review and comment on the draft coordination plan and schedule, the project’s purpose and need, the range of alternatives, and methodologies and level of detail for analyzing alternatives. It will also allow the public an opportunity to provide input on any expected environmental impacts, anticipated permits or other authorizations, and any significant issues that should be analyzed in depth in the EIS. In addition to the public scoping meeting, a public hearing will be held after the draft EIS is prepared. Public notice will be given of the time and place of the hearing.

The public meeting will be conducted in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the public meeting, please contact Lauren Macias-Cervantes, Public Information Officer, El Paso District, at Lauren.MaciasCervantes@txdot.gov or please call (915) 790-4341 no later than 4 p.m. MT, Monday, November 21, 2022. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

The public is requested to identify in writing potential alternatives, information, and analyses relevant to this proposed project. Such information may be provided in writing by mail to the TxDOT El Paso District Office, Attn: Downtown 10/Hugo Hernandez, 13301 Gateway Boulevard West, El Paso, Texas 79928-5410. Electronic comments may also be submitted by email to Downtown10@txdot.gov or through the virtual site. Additionally, members of the public may also call (915) 209-0027 and leave recorded comments. Comments must be received by January 11, 2023.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction.)

Michael T. Leary,

Director, Planning and Program Development, Federal Highway Administration.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[FHWA Docket No. FHWA-2021-0020]

Surface Transportation Project Delivery Program; Arizona Department of Transportation Draft FHWA Audit Report

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice; request for comment.

SUMMARY: The Moving Ahead for Progress in the 21st Century Act established the Surface Transportation Project Delivery Program that allows a State to assume FHWA’s environmental responsibilities for environmental review, consultation, and compliance under the National Environmental Policy Act (NEPA) for Federal highway projects. When a State assumes these Federal responsibilities, the State becomes solely responsible and liable for carrying out the responsibilities it has assumed, in lieu of FHWA. This program mandates annual audits during each of the first 4 years of State participation to ensure compliance with program requirements. This is the second audit of the Arizona Department of Transportation’s (ADOT) performance of its responsibilities under the Surface Transportation Project Delivery Program (NEPA Assignment Program). This notice announces and solicits comments on the second audit report for ADOT.

DATES: Comments must be received on or before December 5, 2022.

Attachment A – Downtown 10 Master Contact List

Attachment B – Public Involvement Conducted to Date

1.0 PROJECT DESCRIPTION

The proposed Downtown 10 project would improve I-10 from Executive Center Boulevard to State Loop 478 (Copia Street), a distance of approximately 5.7 miles. Proposed improvements may include widening and reconstruction of the mainlanes and reconstruction of cross streets. In addition, improvements may include the construction of retaining walls, bridges, and ramps, as well as the development of continuous frontage roads. Multimodal connections for pedestrians, cyclists, and transit users are also proposed.

2.0 BACKGROUND

From 2017 through 2019, the TxDOT Reimagine I-10 Corridor Study (Reimagine I-10 Study) included extensive public outreach and high-level engineering/environmental evaluations of future needs for the I-10 corridor from the New Mexico state line to Farm-to-Market (FM) 3380. The Reimagine Study resulted in a recommended study alternative for the entire 55-mile-long corridor. As a result, the Downtown 10 project (Segment 2 of the study) was initiated.

2.1 Project Goal

The goals and objectives of the proposed project include:

- **Mobility and Circulation:** To facilitate movement through and within the project corridor
- **Environmental:** To develop a design that minimizes environmental impacts to the human and natural environment, to the extent possible
- **Multimodal:** To offer innovative transportation alternatives
- **Design:** To comply with accepted design standards and to reduce conflict points while providing a desirable ride quality
- **Value:** To ensure that improvements are sustainable and balanced with respect to cost and benefits
- **Technology:** To leverage advancing technologies to address corridor needs

2.2 Current Issues to Address

Purpose and Need

The Downtown 10 project is needed due to the following within the project limits:

- Traffic congestion and mobility issues
- Concerns surrounding incident management
- Failure to meet current design standards

The need for the proposed project was identified and refined through the Reimagine I-10 Study, including input from stakeholder workgroups and the public. Input from these entities, combined with background research, helped to define a preliminary assessment of the need for the proposed project. These preliminary project needs have continued to be refined through the National Environmental Policy Act (NEPA) process to date and will continue to be refined as new information is available.

The purpose of the proposed project is to improve mobility and long-term congestion management, reduce potential conflict points, improve incident management, and bring the facility up to current design standards within the project limits (Executive Center Boulevard and State Loop 478 [Copia Street]).

Section 106

A key issue to address within and adjacent to the project area, particularly the downtown portion, is transportation needs (mentioned above) within the constraints of historic resources. In order to accomplish this, TxDOT and the Consultant Team will follow the Section 106 process.

Under the implementing regulation for Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended (36 CFR 800), hereinafter referred to as Section 106, TxDOT (as delegated by the Federal Highway Administration) will consult with the Texas State Historic Preservation Officer (SHPO), federally recognized Native American Tribes, representatives of the local governments, and the interested public concerning project effects to properties listed in or eligible for inclusion in the National Register of Historic Places (NRHP) within Downtown 10's Area of Potential Effects (APE). Public involvement conducted for Downtown 10 has and will build upon the previous public involvement efforts carried out for the Reimagine I-10 Study, from which the current Downtown 10 arose. The interested public are those "individuals and organizations with a demonstrated interest in the undertaking...due to the nature of their legal or economic relation to the undertaking or affected properties, or their concern with the undertaking's effects on historic properties." The regulations require TxDOT

to “seek and consider the views of the public in a manner that reflects the nature and complexity of the undertaking and its effects on historic properties.” Additionally, TxDOT must “provide the public with information about an undertaking and its effects on historic properties and seek public comment and input. Members of the public may also provide views on their own initiative for [TxDOT officials] to consider in decision-making” (36 CFR 800.2).

Under Section 106, the agency funding or permitting a project is responsible for identifying potential consulting parties. As a result, there are guidelines for identifying potential consulting parties. The Texas SHPO must be a consulting party for the Section 106 process. In addition, members of the public must also be considered and typically include those who are directly affected by the project and/or have previously been involved with historic preservation. Based on these guidelines, members of the public who will be considered during the identification of potential consulting parties include:

- City and County governments
- Individuals or groups who have a demonstrated interest in historic preservation in the community
- Neighborhood groups or associations whose area or boundary of jurisdictional interest includes any portion of the APE for the project
- Potentially affected property owners of resources within the project APE that have previously been listed in or determined eligible for inclusion in the NRHP
- Potentially affected property owners of historic-age resources (at least 45 years old) within the project APE
- Cemetery associations located within 150 feet of the proposed right-of-way (ROW)

Anticipated potential Section 106 consulting parties in the current planning stages of the project are identified in the following sections.

3.0 PURPOSE OF PUBLIC INVOLVEMENT PLAN

The Consultant Team [including HDR and Blanton & Associates, Inc. (B&A)] will assist TxDOT in developing strategies and communication tools that create public awareness and achieve meaningful public input regarding corridor needs and concerns. The Consultant Team will then implement these tools and strategies throughout the course of the project. The public involvement process will be tailored to suit the issues, impacts, and communication style in the corridor. The public involvement process will be consistent with federal and statewide planning regulations. It will be a "collaborative process" that is initiated early and will be proactive and continuous throughout the project. At the direction of TxDOT, the Consultant Team has developed this public involvement plan (PIP) that outlines specific dates for each

task to be implemented, establishes approval and communication protocols, and serves as a guidebook for public involvement activities.

The primary purpose of this PIP is to ensure public awareness of the project and to encourage public input into the project development process. Building good relationships with affected stakeholders will result in an increased transparency, level of trust, and confidence in TxDOT's planning process and with the project outcome.

This PIP includes the following elements:

- Public Involvement Goals and Objectives
- Public Involvement Strategies
- Public Involvement Activities
- Roles and Responsibilities
- Project Public Involvement and Section 106 Timelines
- Evaluation Methods for the Public Involvement Effort
- Media Request Protocol
- Approval Process for Communications Products
- TxDOT Text Treatment
- Documentation of Public Involvement Activities
- Public Involvement Team (TxDOT and the Consultant Team)

The PIP is a living document that will be updated to include additional objectives, stakeholders, strategies, or methods as project development progresses.

3.1 Public Involvement Goals and Objectives

The following is a list of public involvement objectives that will be implemented as part of the project:

- Provide early and ongoing public involvement to engage all appropriate stakeholders and the general community
- Encourage a collaborative process with stakeholders and the general community
- Establish and maintain effective two-way communication between the community and TxDOT during the project development process

- Consider and incorporate public input during the decision-making process — TxDOT and the Consultant Team will consider public input in the decision-making process and will keep the public informed about study developments and conceptual design modifications
- Obtain public input on environmental resources, in compliance with regulations including Section 106 of the NHPA
- Ensure that public participation opportunities are held at convenient and accessible locations and times (in compliance with the Americans with Disabilities Act of 1990)
- Include measures for seeking input from and considering the needs of those traditionally underserved by existing transportation systems as defined in Title VI of the Civil Rights Act of 1964 (Title VI), such as low-income, minority, and non-English speaking households who may face challenges accessing employment and other services
- Provide for the periodic review of the public engagement process to ensure the effectiveness of TxDOT’s public engagement efforts and revise the process as appropriate
- Provide a contact to listen, acknowledge, and respond promptly to public questions and issues
- Distribute consistent and reliable information about the project
- Manage expectations and promote long-term benefits
- Build upon TxDOT’s reputation as a transparent, credible agency and a good partner to the community

3.2 Public Involvement Strategies

The public involvement strategies for this project will include one-on-one meetings, steering committee meetings, workshops, workgroup meetings, Section 106 meetings, public meetings, agency and public scoping meetings, and a formal public hearing (required during the NEPA process). Through these meetings, TxDOT will partner with the community to further develop alternatives for Downtown 10. Examples of groups to attend the various meeting types are described in more detail below. Participants will be drawn from the Downtown 10 contact list, which has been developed and refined throughout the extensive public outreach process conducted as part of the Reimagine I-10 Study. The Downtown 10 list will continue to be updated, expanded, and targeted as each proposed outreach effort is undertaken.

One-on-One Meetings

One-on-One Meetings will be held, as needed, throughout the course of the project. These meetings will be held with individual stakeholders, members of the public, or single organizations such as a neighborhood association expressing a desire to sit down with the Consultant Team and TxDOT.

Steering Committee Meetings

A Steering Committee list will be created from the Downtown 10 contact list (**Attachment A**). The Steering Committee will include elected officials and representatives from agencies who provide direction in identification of project area transportation needs, as well as the development of potential solutions.

The objectives of this committee are to:

- Have a small, focused group of advisors
- Stay involved throughout the proposed project
- Be knowledgeable of project progress
- Provide input on materials at each stage of the proposed project
- Help get the word out for public outreach efforts

Note that the first Steering Committee Meeting was intended to introduce Downtown 10 to local elected officials and representatives. In addition, a separate Elected Officials Kick-off Meeting was held to introduce Downtown 10 to the remaining state and federal elected officials and representatives who were added to the Steering Committee Meeting group for all future Steering Committee Meetings.

Workshops

Various groups will be identified and drawn from the Downtown 10 contact list (**Attachment A**) and organized by a common issue, as needed. Workshops will be held throughout the project. Workshop attendees could be organized by public officials, agencies, environmental groups, neighborhood groups or associations, affected and/or concerned property owners, special interest groups, etc. The objectives of the Workshops are to provide an outlet for those with similar interests or concerns and for TxDOT to work through these concerns as a group.

Workgroup

A Workgroup list will be created from the Downtown 10 contact list (**Attachment A**). The Workgroup will include agency representatives, stakeholder members, and public officials

who may provide insight into the project area. This is the largest group of invitees outside of the public meeting/hearing. This list will be updated as the project moves forward through input from TxDOT, the Consultant Team, public officials, and local organizations. The objective of this meeting is to get comments on materials before going to the general public.

Section 106 Consulting Party

As described in **Section 2.2**, under the implementing regulation for Section 106 of the NHPA of 1966, as amended (36 CFR 800), hereinafter referred to as Section 106, TxDOT (as delegated by the Federal Highway Administration) will consult with the Texas SHPO, federally recognized Native American Tribes, representatives of the local governments, and the interested public concerning project effects to properties listed in or eligible for inclusion in the NRHP within Downtown 10's APE.

Potential consulting parties include the following:

Local Government Officials

- City of El Paso Certified Local Government/Historic Preservation Office
- El Paso County Historical Commission

Neighborhood Associations whose area or boundary of jurisdictional interest includes any portion of the APE for the project

- El Paso Central Business Association
- Upper Valley Neighborhood Association
- Houston Park Neighborhood Association
- Central El Paso Community Organization
- Golden Hills Neighborhood Association
- Five Points Development Association
- Familias Unidas del Chamizal
- Lincoln Park Conservation Commission

Potentially affected property owners of resources within the project APE that have previously been listed in or determined eligible for inclusion in the NRHP

- El Paso County Water Improvement District (EPCWID) No. 1 and Franklin Canal
- Old Fort Bliss Historic District (current owners of contributing resources)
- “El Paso del Rio del Norte” Centennial Marker (Texas Historical Commission [THC])

- “Captain James W. Magoffin, Major Simeon Hart” Centennial Marker (THC)
- Sunset Heights Historic District (Sunset Heights Neighborhood Improvement Association, listed above, and owners of contributing resources within the APE)
- Old San Francisco Historic District (El Paso Central Business Association, listed above, and owners of contributing resources within the APE)
- Old Bnai Zion Synagogue (current owner)
- El Paso Union Depot (current owner)
- 823 N. Oregon Street (current owner)
- Concordia Cemetery (Concordia Heritage Association)

Potentially affected property owners of historic-age resources (at least 45 years old) within the project APE

- Cemetery associations located within 150 feet of the proposed ROW
- Concordia Cemetery (Concordia Heritage Association)

In accordance with Section 106, the verified consulting parties will be given opportunities throughout the public involvement process to provide input on Downtown 10. At the outset of the project’s public involvement process, TxDOT ENV HIST will initiate Section 106 public involvement strategies and invite potential consulting parties to participate as official consulting parties in the Section 106 process. Additionally, TxDOT will hold meetings with the Consulting Parties to keep them informed of Section 106 processes as needed.

Upon completion of the Section 106 survey and reporting, TxDOT will send a letter to consulting parties requesting their concurrence with the NRHP eligibility and effects determinations and, if required, mitigation plan. Lastly, as part of the Section 106 consultation with the SHPO, TxDOT will document the public involvement activities and consulting party coordination regarding preferred alternative recommendations, eligibility determinations, project effects determinations, and mitigation discussions.

Section 106 Consulting Party Invitation Letters – Per TxDOT procedures, TxDOT ENV HIST will send letters to potential Section 106 consulting parties inviting them to become official consulting parties for the Downtown 10 project. These letters will introduce the project, explain a consulting party’s role in the project, and request a response within 30 days. If applicable, TxDOT ENV HIST will then send follow-up letters to the parties who accepted the invitation, acknowledging their official Section 106 consulting party status.

As of the date of this November 2022 revision, TxDOT has invited numerous organizations and individuals. The following entities/individuals have accepted and been granted consulting party status to date include:

- *El Paso County Historical Society*
- *El Paso County Historical Commission*
- *City of El Paso Historic Preservation Officer*
- *National Park Service National Trails Office*
- *Sunset Heights Neighborhood Improvement Association*
- *Three private individuals*

3.3 Public Involvement Activities

Provided below is a list of public involvement activities that will be utilized in obtaining input from stakeholders and the public:

- Establish methods for the workgroup, the public, and other interested parties to contact the Consultant Team, such as providing contact information (e.g. contact names, numbers, and emails) at each meeting, and providing contact information and a keyword for searching the TxDOT website. All contacts with the Consultant Team will be recorded and included in project documentation.
- Utilize an email address that is specific to Downtown 10 (Downtown10@txdot.gov).
- Prepare database/ mailing list including names and contact information for entities such as Steering Committee members, Workgroup members, Section 106 Consulting Parties, public officials, local governments, emergency responders, civic leaders, and those who have indicated an interest in the project, such as members of the public. The database will be updated as needed.
- Provide electronic files to TxDOT containing the names of elected officials from which a mail merge and mailing labels can be created.
- Prepare a project webpage that will include:
 - Downtown 10 description and overview
 - Downtown 10 area maps
 - Frequently asked questions
 - Public involvement materials, such as virtual open house links, copies of newsletters, notices, invitation letters, and meeting summaries
 - Calendar of dates for key public outreach activities
 - Downtown 10 contact information

- Prepare and distribute newsletters to inform the community about the project. The newsletters will be updated as needed to keep the public up to date and well informed about the status of the project. The newsletters will be prepared in (English and Spanish) at various milestones throughout the project. In addition, the newsletters will be posted on the project website and hard copies will be available at the various meetings, as appropriate.
- Prepare easy to understand conceptual drawings and graphic documents for public distribution and online posting. Where applicable, the Consultant Team will prepare interactive maps to provide additional information to the public.
- Arrange for meetings/hearing locations, coordinate logistics, prepare notices (for department distribution), and attend and summarize meetings/hearing. Various materials (fact sheet, handouts, comment cards, brochure, etc.) will be prepared in both English and Spanish.
- Create “Meetings in a Box” (including templates for sign-in sheets, agendas, comment forms, and a PowerPoint presentation and accompanying script) to be updated for each quarter or public meeting, and to be used for all meeting requests to give a unified and consistent message.
- Conduct up to fifteen One-on-One Meetings with individuals and single groups like a single neighborhood association or agency. These meetings will utilize Meetings in a Box and will be designed to build rapport, learn individual perspectives, and bring out viable solutions or ideas.
- Conduct up to five Workshops with individual and community stakeholder groups and schedule on an as-needed basis. Based on input from the groups, these meetings may be held on weekends or in the evening in order to accommodate work schedules and ensure that those who are interested may attend.
- Conduct up to five Workgroup Meetings to provide updates on project developments to key community members and representatives and provide a forum for receiving input on the project and information about the project area. The Workgroup will serve as a conduit for distributing project information and updates to the community at large. The Consultant Team will assist in the planning of, preparation of, and conducting the meetings to afford opportunities to meet and engage stakeholder groups.
- Conduct up to three public meetings to provide an opportunity for the public to learn about the project, ask questions, receive answers, and give input.
- At the public meetings, a Historic Resources Station will be set up to meet Section 106 requirements and will include information on Section 106 and the NRHP. Displays will solicit input from the public regarding historic and cultural resources and identify any

known historic and cultural (non-archeological) resources. During the public meetings, TxDOT will identify if any members of the public have a proven, vested interest in the project and therefore be invited as official consulting parties.

- Prepare and publish virtual public meetings on TxDOT and project website for members of the public who are not able to attend in person. The virtual public meeting will contain all exhibits, presentations, and handouts that were provided in person.
- Conduct an Agency Scoping Meeting and a Public Scoping Meeting.
- Conduct a public hearing to provide an opportunity for the public to review environmental findings/documents, inform the public about the factors considered in the environmental process, and provide an opportunity for comment.
- Virtual Meetings – as an option in lieu of in-person meetings, prepare a virtual meeting option that meets TxDOT/FHWA requirements. These virtual meetings will allow invitees to view the meeting contents from a phone, laptop, or computer. A link to the virtual meeting will be posted on the project website and TxDOT website. The virtual meeting will provide a narrative that describes each of the meeting materials and handouts that would have been shown at the in-person meetings. A separate link will provide a Spanish version of the presentation. There will also be an option to send comments from the project website directly to TxDOT, or a comment card can be printed for mailing.
- Online Engagement – Prepare online surveys (such as MetroQuest or Survey Monkey) and online polling tools (such as Mentimeter, or Poll Everywhere). The polling tools provide real time responses, which will be an effective way to communicate with the public at large and will provide an opportunity for residents to discuss differing viewpoints. The Consultant Team will facilitate the discussion; which could be particularly effective when concerns of users with distinct outlooks and needs are presented that the general public may not be fully aware of.
- Notification for the various meetings may take place via the following:
 - Media releases – will be drafted and disseminated by the District Public Involvement Officer (PIO) and District Public Affairs Officer (PAO) prior to meetings, and as needed.
 - Email blasts – Emails will be sent to available Workgroup email addresses notifying/reminding them of meetings 7 to 10 days prior to the meeting. The PIO will also send email blasts, as appropriate.
 - Social media – Meeting reminders will be provided via TxDOT Twitter or Facebook accounts 7 to 10 days prior to the meetings.

- Web postings – Public meetings/hearing notices will be posted on txdot.gov under “Hearings and Meetings Schedule” web page and the project web page approximately two weeks prior, and public meetings/hearing information will be posted to the project web site as soon as possible after the public meetings/hearing is held.
- Newspaper advertisements – Ads will be developed and placed in publications such as The El Paso Times, Spotlight E.P. News, and El Diario at least two weeks prior to the meetings/hearing.
- Public Relations – Consultant Team members will respond to inquiries on a case-by-case basis. Only the TxDOT Project Manager, District Engineer, PIO, or APO will respond to elected officials.
- The Consultant Team will provide Spanish translation services, including translation of newsletters and presentation materials.
- Visualizations – Where possible, the Consultant Team will provide visualizations to assist in the public involvement effort and agency coordination. These visualizations may include the following components:
 - Static Renderings: Individual design visualizations. These visualizations may include 360-degree static renderings and more detailed modeling of focused design features including potential improvements.
 - Videos: Aerial flyover visualization may include a combination of aerial mapping, annotated graphics, and design features to convey corridor alternatives, constraints, and key features.
 - Virtual Reality: The Consultant Team may incorporate the aerial flyover and individual visualizations into an interactive virtual reality (e.g. Google Cardboard) to further enhance the information provided to the general public.

3.4 Public Involvement Roles & Responsibilities

Implementing this PIP will be a combined effort with the TxDOT El Paso District, TxDOT Transportation Planning and Programming Division/Public Involvement (TPP/PI) Section, and the Consultant Team (HDR and B&A).

| TASK | LEAD | SUPPORT |
|--|----------------------|--|
| GENERAL | | |
| Develop PIP | B&A, HDR | TxDOT ELP, TxDOT ENV, TxDOT TPP/PI Section |
| Compile and maintain Workgroup/public mailing list | B&A, HDR | TxDOT ELP, TxDOT PIO and PAO |
| Create project website, update and post information to website | TxDOT TPP/PI Section | TxDOT ELP, HDR, B&A, TxDOT TPP/PI Section |

| TASK | LEAD | SUPPORT |
|--|--|--|
| MEETING LOGISTICS | | |
| Schedule meetings and secure meeting locations | B&A, HDR | TxDOT ELP |
| Secure court reporter and translator, as needed | B&A, HDR | TxDOT ELP |
| Create and distribute meeting notices, elected officials letters, and notifications | B&A, HDR | TxDOT ELP |
| Prepare meeting materials, including presentations, handouts, comment forms, sign-in sheets, maps | B&A, HDR | TxDOT ELP |
| Staff meetings | TxDOT ELP, TxDOT PIO and PAO, TxDOT TPP/PI Section, HDR, B&A | |
| Provide meeting notes and meeting summaries | B&A, HDR, TxDOT ELP | TxDOT ELP, TxDOT PIO and PAO, TxDOT TPP/PI Section |
| SECTION 106 CONSULTING PARTY MEETINGS | | |
| Send letter correspondence to potential Section 106 consulting parties inviting them to serve as consulting parties | TxDOT ENV HIST | TxDOT ELP, HDR, B&A |
| Consulting party responses to invitation letter | TxDOT ENV HIST to receive | TxDOT ELP, HDR, B&A |
| Send acknowledgement letters to consulting parties | TxDOT ENV HIST | TxDOT ELP, HDR, B&A |
| Schedule Section 106 Consulting Party meetings and secure meeting locations | TxDOT ENV HIST, B&A, HDR | TxDOT ELP |
| Prepare meeting materials, including presentations, handouts, comment forms, sign-in sheets, maps | TxDOT ENV HIST, B&A, HDR | TxDOT ELP |
| Provide meeting notes and meeting summaries | TxDOT ENV HIST, B&A, HDR | TxDOT ELP |
| Send letter with draft Historic Resources Survey Report to Section 106 consulting parties and receive comments | TxDOT ENV HIST and ARCH | TxDOT ELP, HDR, B&A |
| Identify and discuss potential mitigation options for affected historic properties | TxDOT ENV HIST | TxDOT ELP, HDR, B&A |
| Prepare and submit draft Section 106 Mitigation Plan | HDR, B&A | TxDOT ENV HIST, TxDOT ELP |
| Send letter with draft Section 106 Mitigation Plan to Section 106 consulting parties and receive comments | TxDOT ENV HIST | TxDOT ELP, HDR, B&A |
| Prepare and submit final Section 106 Mitigation Plan | HDR, B&A | TxDOT ENV HIST, TxDOT ELP |
| Send letters requesting consulting parties' concurrence regarding preferred alternative recommendation, effects determination, and mitigation plan | TxDOT ENV HIST | TxDOT ELP, HDR, B&A |
| NOTIFICATION METHODS | | |
| Provide media alerts | TxDOT ELP | HDR, B&A |
| Letters to adjacent property owners and elected officials | HDR, B&A | TxDOT ELP |
| Provide changeable message signs | TxDOT ELP | |
| Send out email blasts | HDR, B&A, TxDOT ELP, TxDOT PIO and PAO | |
| Post meeting information to project and TxDOT websites | TxDOT ELP, TxDOT PIO and PAO, TxDOT TPP/PI Section | |

| TASK | LEAD | SUPPORT |
|--|--|----------------|
| Post information to Facebook/Twitter | TxDOT ELP, TxDOT PIO | HDR, B&A |
| District outreach to City/County Communications Personnel | TxDOT ELP, TxDOT PAO | |
| Translations of appropriate materials into Spanish | B&A, HDR | TxDOT ELP |
| Provide media alerts | TxDOT ELP, TxDOT PIO and PAO | HDR, B&A |
| <i>MEDIA RELATIONS</i> | | |
| All media outreach | TxDOT ELP, TxDOT PIO and PAO | HDR, B&A |
| <i>ONLINE COMMUNICATION</i> | | |
| Create website and project email address | TxDOT ELP, TxDOT TPP/PI Section | HDR |
| <i>PRINTED MATERIALS</i> | | |
| Create and disseminate newsletter | TxDOT ELP, TxDOT PIO and PAO, TxDOT TPP/PI Section, HDR, B&A | |
| Create and disseminate maps, and other materials for public meetings | TxDOT ELP, HDR, B&A | |

3.5 Public Involvement Timeline*

| TASK | TIMEFRAME | NOTES |
|--|-------------------|--|
| Initiate PIP | February 2020 | Updates will occur throughout the project |
| Identify initial stakeholders | February 2020 | Ongoing |
| Develop initial mailing list | February 2020 | Ongoing |
| STEERING COMMITTEE MEETING #1 (In Person) | | |
| Held Steering Committee Meeting #1 | March 4, 2020 | Presented Reimagine I-10 Corridor Study results and gathered information and input on what should be carried through to the project. Explained Steering Committee commitments. Obtained input on transportation needs. Identify potential challenges. |
| ELECTED OFFICIALS' KICK-OFF MEETING (Virtual Meeting) | | |
| Held Elected Officials Meeting | May 6, 2020 | Due to the COVID-19 Pandemic, meetings that were planned in 2020 and 2021 were switched to virtual. Presented Reimagine I-10 Corridor Study results and gathered information and input on what should be carried through to the project. Explained Steering Committee commitments. Obtained input on transportation needs. Identified potential challenges. |
| WORKSHOP AND WORKGROUP MEETING #1 (Virtual Meeting) | | |
| Held Workshop and Workgroup Meeting #1 | May 13-14, 2020 | Presented Reimagine I-10 Corridor Study results (incorporating changes resulting from Steering Committee Meeting #1) and gathered information and input on what should be carried through to the project. Obtained input on transportation needs. |
| PUBLIC MEETING #1 (Virtual Meeting) | | |
| Put the Virtual Public Meeting #1 live on the website | May 25, 2020 | Presented Reimagine I-10 Corridor Study results (incorporating changes resulting from Steering Committee Meeting #1 and Workshop/Workgroup Meeting #1) and gathered information and input on what should be carried through to the project. Obtained input on transportation needs. Identified potential challenges. This virtual room allowed interaction with the meeting materials, as well as an interactive comment map. There were 1,210 unique site visits (attendees) to the virtual Public Meeting, with 139 commenters. |
| WORKGROUP MEETING #2 (Virtual Meeting) | | |
| Held Workgroup Meeting #2 | February 10, 2021 | Showed Public Meeting #1 results and presented refined alternative(s) to Workgroup. |

| TASK | TIMEFRAME | NOTES |
|--|--------------------------------------|---|
| STEERING COMMITTEE MEETING #2 (Virtual Meeting) | | |
| Hold Steering Committee Meeting #2 | December 18, 2020 | Showed Public Meeting #1 results and presented refined alternative(s) to Steering Committee. |
| PUBLIC MEETING #2 (Virtual Meeting) | | |
| Held Public Meeting #2 | February 24, 2021 | Presented refined alternative(s) to public in an interactive virtual room, with interactive comment map. There were 1,523 unique site visits (attendees) to the virtual public meeting, with 128 commenters. |
| AGENCY SCOPING MEETING | | |
| Send invitations | November 8, 2022 | |
| Hold Agency Scoping Meeting | November 30, 2022 | Will have in-person and virtual options. |
| Prepare Agency Scoping Meeting Summary | One month after meeting | |
| PUBLIC SCOPING MEETING | | |
| Send invitations/publish notices | November 8, 2022 | |
| Send email blasts and/or social media post | Two weeks before meeting | |
| Hold Public Scoping Meeting | November 30, 2022 | Will have in-person and virtual options. |
| Prepare Public Scoping Meeting Summary | One month after meeting | |
| STEERING COMMITTEE MEETING #3 | | |
| Logistics for Steering Committee Meeting #3 | One month before meeting | |
| Send invitations | Two weeks before meeting | |
| Prepare Steering Committee Meeting #3 materials and handouts | One month before meeting | |
| Hold Steering Committee Meeting #3 | TBD | Show Scoping Meeting results and gather information and input on Proposed Recommended Alternative. |
| WORKGROUP MEETING #3 | | |
| Send invitations | Two weeks before meeting | |
| Prepare Workgroup Meeting #3 materials and handouts | One month before meeting | Revise the materials based on results from Steering Committee Meeting #3. |
| Hold Workgroup Meeting #3 | TBD | Show Scoping Meeting results and gather information and input. |
| Prepare Workgroup Meeting #3 Summary | One month after meeting | |
| PUBLIC HEARING | | |
| Send invitations/publish notices | Two weeks before hearing | |
| Send email blasts and/or social media post | Two weeks before hearing | |
| Hold Public Hearing | Winter 2024 | Show DEIS and evaluate and refine Proposed Recommended Alternative. |
| Upload Public Hearing material to study website | Approximately one week after hearing | |

| TASK | TIMEFRAME | NOTES |
|--|--|-------|
| Debrief on outcome of Public Hearing | One week after hearing | |
| Draft Public Hearing Summary Report | One month after comment period ends | |
| Finalize Public Hearing Summary Report | One week after Draft summary is approved | |

**Note that like this public involvement plan, this timeline is subject to updates.*

*** Have additional Workshops as needed.*

3.6 Section 106 Timeline*

| Task | Timeframe | Notes |
|---|--|--|
| SECTION 106 CONSULTING PARTY LIST | | |
| Send letter correspondence to potential Section 106 consulting parties inviting them to serve as consulting parties | When TxDOT initiates the Section 106 process | |
| Consulting party responses to invitation letter | 30 days after letters are sent | |
| Send acknowledgement letters to consulting parties | 10 days after receipt of responses | |
| SECTION 106 CONSULTING PARTY MEETING #1 | | |
| Logistics for first Section 106 Consulting Party meeting | October 2021 | |
| Send invitations | October 2021 | |
| Prepare meeting materials and handouts | November 2021 | |
| Hold Section 106 Consulting Party Meeting #1 | November 2021 | |
| SEND DRAFT HISTORIC RESOURCES SURVEY REPORT TO SECTION 106 CONSULTING PARTIES | | |
| Send letter with draft Historic Resources Survey Report to Section 106 consulting parties | Within 10 days of TxDOT ENV HIST's approval of draft reports | |
| SECTION 106 CONSULTING PARTY MEETING #2 | | |
| Logistics for second Section 106 Consulting Party meeting | TBD | |
| Send invitations | TBD | |
| Prepare meeting materials and handouts | TBD | |
| Hold Section 106 Consulting Party Meeting #2 | Four weeks after submitting draft Historic Resources Survey Report to Section 106 consulting parties | |
| RECEIVE COMMENTS ON DRAFT HISTORIC RESOURCES SURVEY REPORT FROM SECTION 106 CONSULTING PARTIES | | |
| Section 106 Consulting Parties' comments on draft Historic Resources Survey Report | Two weeks after second Section 106 consulting parties meeting | |
| SECTION 106 CONSULTING PARTY MEETING #3 | | |
| Logistics for third Section 106 Consulting Party meeting | TBD | |
| Send invitations | TBD | |
| Prepare meeting materials and handouts | TBD | |
| Hold Section 106 Consulting Party Meeting #3 | Three weeks after TxDOT's receipt and approval of final Historic Resources Survey Report | Identify and discuss potential mitigation options for affected historic properties |
| SECTION 106 MITIGATION PLAN | | |
| Prepare and submit draft Section 106 Mitigation Plan | TBD | |
| Send letter with draft Section 106 Mitigation Plan to Section 106 consulting parties | Two weeks after TxDOT ENV HIST's approval of draft Mitigation Plan | |

| Task | Timeframe | Notes |
|--|--|--|
| SECTION 106 CONSULTING PARTY MEETING #4 | | |
| Logistics for fourth Section 106 Consulting Party meeting | TBD | |
| Send invitations | TBD | |
| Prepare meeting materials and handouts | TBD | |
| Hold Section 106 Consulting Party Meeting #4 | Two weeks after submitting draft Section 106 Mitigation Plan to Section 106 consulting parties | Review Draft Section 106 Mitigation Plan |
| SECTION 106 MITIGATION PLAN | | |
| Section 106 Consulting Parties' comments on draft Section 106 Mitigation Plan | Four weeks after fourth Section 106 Consulting Parties meeting | |
| Prepare and submit final Section 106 Mitigation Plan | Two weeks after fourth Section 106 Consulting Parties meeting | |
| Send letters requesting consulting parties' concurrence regarding preferred alternative recommendation, effects determination, and mitigation plan | Two weeks after TxDOT's approval of Final Section 106 Mitigation Plan | |

**Note that like this public involvement plan, this timeline is subject to updates.*

3.7 Evaluation

To evaluate this public involvement effort, various strategies will be tracked, measured, and evaluated. These strategies include:

- Number of public meetings conducted, as well as number of attendees at each event
- Number of adjacent property owner meetings, workshops, and workgroup meeting presentations conducted, as well as number of attendees at each event
- Number of informational materials (flyers, fact sheets, etc.) distributed
- Evaluation of how comments were used in the decision-making process
- Number of public comments considered throughout project development

Where possible, surveys will be created to gather input from the public on how the proposed project and public involvement is progressing, how TxDOT and the Consultant Team is performing, and if public input is being taken into consideration as part of the project.

3.8 Media Request Protocol

The media will seek information from multiple sources. These potentially include the project team (TxDOT and the Consultant Team), neighborhoods, businesses or other stakeholders within the corridor. Media requests for information internal to the Project Team must be directed to the TxDOT PIO, immediately. TxDOT PIO's are the designated spokesperson for media inquiries unless that protocol is modified by TxDOT.

3.9 Approval Process for Communications Products

Any communication product (ex. fact sheet, newsletter) created by district staff and/or a consultant must go through the following approval process:

- Internal QA/QC review –staff responsible listed here
- Concurrent review by TxDOT El Paso District and TxDOT PIO
- PowerPoint presentations must be reviewed by TxDOT El Paso District and TxDOT PIO

3.10 TxDOT Text Treatment

All materials created must be within current TxDOT guidelines:

<http://crossroads.org/cmd/templates.html>

<http://crossroads.org/cmd/Assets/PublicationsStyleguide.pdf>

3.11 Documentation of Public Involvement Activities

The Consultant Team will gather written comments and feedback after the meetings and hearing and provide an overall summary of all public involvement activities. Additionally, the Consultant Team will document the public involvement activities by collecting copies of all letters, correspondence, email correspondence, and direct communications with members of the interested public.

Attachment B contains a list of all public involvement conducted to date, including one-on-one meetings.
