1.0 Disclaimer

Information in this report regarding the Grand Parkway System has been compiled and provided to the Grand Parkway Transportation Corporation (GPTC) by the Texas Department of Transportation (TxDOT) from TxDOT's records and other sources, which are believed by TxDOT to be reliable. GPTC and TxDOT do not make any representation or warranty concerning the usefulness of such information to a decision to invest in, hold, or sell bonds, notes, or other obligations payable, in whole or in part, from the sources pledged to the payment of GPTC's outstanding debt obligations.

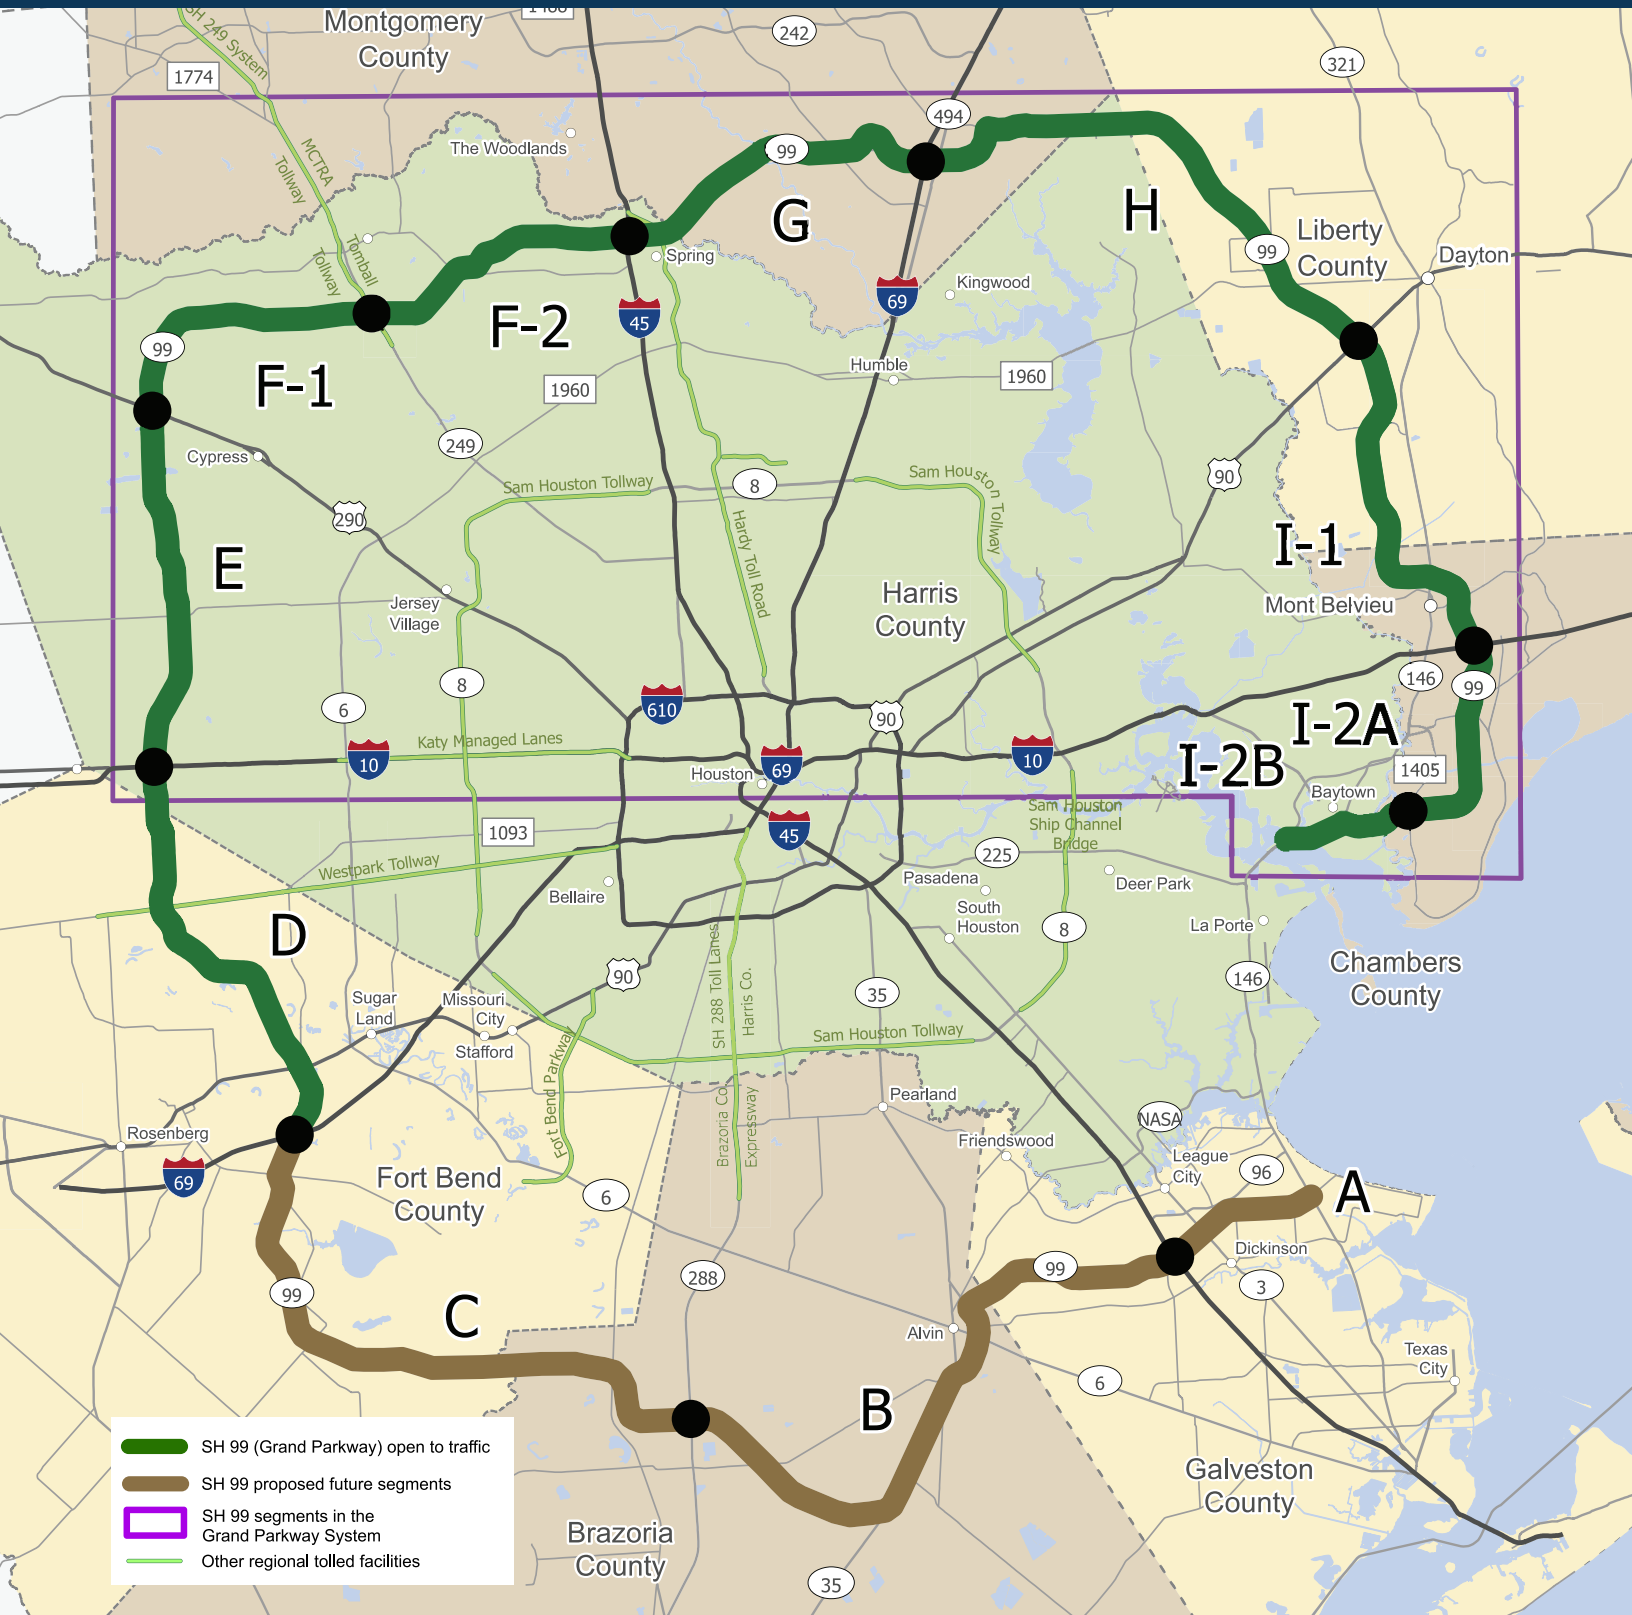

The documents referenced in this report should not be considered to speak as of any date other than the respective dated date thereof or such other dates indicated in each such document and are not incorporated into or made a part of this report.

References to website addresses presented in this report are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such websites and the information or links contained therein are not incorporated into or made a part of this report. Many of the website links referenced in this report are also available at the end of this report in the section titled "Relevant Links" herein.

The information contained in this report is provided as of the respective dates and for the periods specified herein, and the filing of this report does not, under any circumstances, imply that there has been no change in the affairs of the Grand Parkway System, GPTC, or TxDOT since the specified date or dates as of which such information is provided. The historical information set forth in this report may not be indicative of future results or performance.

Capitalized terms used in this report and not otherwise defined have the meaning given to such terms in the Official Statement dated February 11, 2020 (the 2020 Official Statement) relating to GPTC's Series 2020A, Series 2020B and Series 2020C Refunding Bonds described therein (collectively, the 2020 Refunding Bonds).

3.0 Executive Summary

System Revenue, Expenses and Transactions for Q3 FY 2023 (In Thousands)

	Actuals	Budget	Variance	Q3 Variance %	Fiscal YTD Variance %
Toll Revenue	\$85,915	\$66,008	\$19,907	30% Above Budget	26% Above Budget
Senior Operating Expenses	\$2,597	\$2,898	\$301	10% Under Budget	24% Under Budget
Junior Operating Expenses	\$15,554	\$16,085	\$531	3% Under Budget	8% Under Budget
Transactions	68,905	See footnotes 1 and 5 in Section 4.0			

Actual Quarterly Transactions (In Millions)
Last Four Fiscal Years Plus Current Q3

Actual Quarterly Toll Revenue (In Millions)
Last Four Fiscal Years Plus Current Q3

Outstanding Obligations

As of Q3 FY 2023, GPTC debt obligations, not including accreted interest, total \$4.51 billion.

Debt Service Coverage Ratios (DSCR)

	FY 2022	System DSCR
1st Tier Debt Service		6.20x
Total Debt Service		2.11x

Toll Rates

Toll Rates are approximately 23 cents per mile.

Summary of Account Balances & Activity

As of the first quarter of Fiscal Year 2023, all accounts equaled or exceeded their required balances as set by the Master Trust Agreement. As of the first day of Fiscal Year 2023, the debt service, operations and maintenance, and major maintenance accounts **were all pre-funded** at 100 percent of their Fiscal Year 2023 budgeted amounts.

Investments

Total investments in accounts maintained under GPTC trust agreements are currently approximately \$1,042.7 million. All investments are compliant with the Public Funds Investment Act, Chapter 2256, Texas Government Code (PFIA), and the

Transportation Infrastructure Finance and Innovation Act (TIFIA) Loan. TIFIA authorized investments are more restrictive than the PFIA.

Traffic & Revenue Forecast vs. Actuals

For the 2018 T&R Forecast (as defined on page 6), from September 1, 2017, through May 31, 2023, transactions exceed such forecast by 13.1 percent, and toll revenues exceed such forecast by 8.0 percent (includes period that tolls were suspended due to Hurricane Harvey). For the 2020 T&R Forecast (as defined on page 6), from September 1, 2020, through May 31, 2023, transactions exceed such forecast by 29.7 percent, and toll revenues exceed such forecast by 22.0 percent.

Note: Totals may not sum due to rounding

1 System Revenue, Expenses, and Transactions

Toll and Fee Revenue Recognition: Revenues for electronic toll collection (ETC) transactions are generally recognized when they are earned, which is at the time the transaction is reconciled through a back office system for a valid ETC transaction (requiring a properly installed transponder and a sufficiently funded account). ETC transactions are generally reconciled in the same month they occur, however, recognition of toll revenues for ETC transactions occurring in a given month may be deferred to a future month due to processing delays and other factors. Non-ETC toll revenues are recognized and reported when cash payment is received. For example, a non-ETC transaction may be reported in one month, but revenue for that transaction may not be received until a later month. Additionally, revenue does not reflect fiscal year-end adjustments in the GPTC Annual Financial Report, which may or may not be greater than 10 percent.

Total transactions reported in the table above include all toll transactions (ETC and non-ETC) that occurred on the System during the reporting period, regardless of whether the revenues relating to such transactions were recognized during such period.

Operations & Maintenance Expense Recognition: Expenses are generally reported in the month paid and also include costs being assessed by TxDOT for its Back Office System. Expenses exclude amortization and do not reflect fiscal year-end adjustments in the GPTC Annual Financial Report, which may or may not be greater than 10 percent.

Revenue, Expense, and Transaction Trends: Transaction, revenue, and expense trends may not exactly correlate on a monthly basis due to the following factors: (i) toll transactions (when a vehicle passes through a tolling point) are reported in the period in which they occur; (ii) toll revenues for valid ETC transactions are generally recognized at the time the transaction is reconciled through a back office system for a

valid ETC transaction (requiring a properly installed transponder and sufficiently funded account); however, recognition of toll revenues for ETC transactions occurring in a given month may be deferred to a future month due to processing delays and other factors; (iii) toll revenues for non-ETC transactions are recognized and reported when cash payment is received, and payments may be received later than the month in which the transaction occurred due to the time necessary for billing and processing such transactions (see "Toll and Fee Revenue Recognition"); (iv) expenses may include costs related to transactions occurring in prior months; and (v) the issues impacting the reporting of revenues and expenses from prior months are different and thus are not correlated. In addition to the foregoing, the method by which quarterly budget amounts are calculated are independent from and are not adjusted to account for these factors.

2 Investment and Miscellaneous Income

Investment Income reflects the receipts net of purchased accrued interest.

3 Senior Operating Expenses

The operation and maintenance expenses of Segments H and I have been designated as Senior Operating Expenses.

4 Transactions Reported

Auto Transactions reflect two-axle vehicles only, and Truck Transactions reflect three or more axle vehicles. Total transactions reported include all transactions (ETC and non-ETC) that occurred on the System for the reporting period, regardless of whether tolling was suspended during any portion of the reporting period (such as for significant weather events or traffic incidents).

⁵ **Fiscal Year 2023 Annual Budget**

Budgeted amounts shown are derived from the Fiscal Year 2023 Annual Budget approved by the GPTC board in August 2022, specifically:

- (i) Budget for Toll Revenue is based on the 2020 T&R Forecast (as defined on page 6). Quarterly and year-to-date (YTD) budget amounts are derived from monthly revenue forecasts provided by the Traffic Consultant in connection with the 2020 T&R Forecast. GPTC Revenue forecasts do not include amounts for fee revenue;
- (ii) Budget for Senior and Junior Operating Expenses is based on GPTC estimated transactions, which are based on prior year trends and anticipated changes, when available, not the transactions in the 2020 T&R Forecast or the projected expenses in the 2018 Engineer's Report that is incorporated by reference into the 2020 Official Statement. Quarterly and YTD budget of Operating Expenses shown in the chart above are derived by applying the same ratios used for deriving quarterly and YTD budgeted Toll Revenue to the budgeted Annual Operating Expenses; and
- (iii) Positive variances indicate actual revenues exceed budget and actual expenses are lower than budget. Negative variances indicate actual revenues are lower than budget and actual expenses exceed budget.

5.0 Comparison of Actual Results to Long Term Forecasts

From September 1, 2017, through May 31, 2023, transactions exceeded the 2018 T&R Forecast (as defined on page 6) by **13.1 percent**, and toll revenues exceeded such forecast by **8.0 percent** (includes period that tolls were suspended due to Hurricane Harvey).

From September 1, 2020, through May 31, 2023, transactions exceeded the 2020 T&R Forecast (as defined on page 6) by **29.7 percent**, and toll revenues exceeded such forecast by **22.0 percent**.

¹ Comparison of actuals to cumulative total 2018 T&R Forecast is based upon cumulative actuals since September 1, 2017.

² Comparison of actuals to cumulative total 2020 T&R Forecast is based upon cumulative actuals since September 1, 2020.

Notes

Toll revenue actuals and traffic and revenue forecasts do not include investment or fee income.

2018 T&R Forecast Source: The 2018 T&R Forecast data in the foregoing tables was obtained from CDM Smith Inc. (CDMS) in connection with the issuance of its “Grand Parkway System Segments D through I Traffic and Revenue Bringdown Letter” dated March 19, 2018 (the 2018 T&R Forecast), a copy of which is attached as Appendix G to the 2020 Official Statement. On January 24, 2020, CDMS delivered a reliance letter in connection with the issuance of the 2020 Refunding Bonds and concluded, as of the date of such letter, that the traffic and revenue projections and the conclusions summarized in the 2018 T&R Forecast still remain valid.

The 2020 Official Statement is accessible on the Electronic Municipal Market Access (EMMA) system maintained by the Municipal Securities Rulemaking Board (MSRB) and can be found in Section 12.0 Relevant Links.

2020 T&R Forecast Source: The 2020 T&R Forecast data in the foregoing tables was obtained from CDMS in connection with the issuance of its “Grand Parkway Transportation Corporation’s Grand Parkway System (SH 99) Segments D through I Comprehensive Traffic and Toll Revenue Study” dated July 30, 2020 (the 2020 T&R Forecast), a copy of which is accessible on the MSRB’s EMMA system and can be found in Section 12.0 Relevant Links. The 2020 T&R Forecast was prepared by CDMS to provide updated projections of system traffic and toll revenues. The 2020 T&R Forecast incorporates updates for, among other things, observed traffic trends along the open segments of the system and certain traffic and toll revenue assumptions, including the COVID-19 pandemic. **The 2020 T&R Forecast supersedes the 2018 T&R Forecast.**

6.0 Auto Toll Rates by Calendar Year (In Nominal Dollars)

Roadway	Tolled Distance (Miles) ¹	Full Length Toll Rates ¹		Per Mile Toll Rates ¹	
		CY 2022	CY 2023	CY 2022	CY 2023
Segment D/E ²	15.67	\$3.55	\$3.63	\$0.23	\$0.23
Segment F1	12.01	\$2.72	\$2.78	\$0.23	\$0.23
Segment F2	12.04	\$2.73	\$2.79	\$0.23	\$0.23
Segment G ³	13.75	\$3.33	\$3.40	\$0.24	\$0.25
Segment H	22.88	\$5.19	\$5.30	\$0.23	\$0.23
Segment I1	14.67	\$3.32	\$3.40	\$0.23	\$0.23
Segment I2A	9.08	\$2.06	\$2.10	\$0.23	\$0.23
Segment I2B	5.35	\$1.22	\$1.24	\$0.23	\$0.23

¹ Toll Rates are based on tolled segment lengths and reflect the following:

The chart reflects the through-trip rates and rates per mile, not individual gantry entrance and exit routes. Accordingly, the toll rates for tolled segment lengths include mainline plaza rates for each segment and exclude entrance and exit ramp charges.

The rates shown are for ETC transactions for two-axle vehicles.

The Texas Transportation Commission (Commission) has established initial toll rates and a toll rate escalation policy for the Grand Parkway System consistent with the terms of the Market Valuation Waiver Agreement among TxDOT and the seven Counties named therein. Subject to the provisions of the Toll Rate Agreement between the Commission and GPTC, the Commission’s toll rate escalation policy provides for automatic annual toll increases of the greater of two percent or the net change in the regional Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W), as calculated prior to each October 1. The policy provides for TxDOT to calculate and report the annual toll rate escalation percentage for the Grand Parkway System to GPTC and the Commission each year on or before the October Commission meeting. The resulting toll rates will become

effective automatically on January 1 of the next calendar year (CY) unless the Commission affirmatively votes prior to January 1 to modify the toll rate escalation percentage. Notwithstanding the foregoing, the Commission has agreed in the Toll Rate Agreement that it will, among other things, adopt and maintain in effect a toll rate schedule for, and establish charges for other uses of, the Grand Parkway System designed, collectively, to produce Revenues of the System in each Fiscal Year in an amount sufficient to satisfy the Rate Covenant in the Toll Rate Agreement. The annual toll rates shown in the table above for CY 2022 reflect a toll rate escalation percentage of 6.0 percent, as determined in accordance with the toll rate escalation policy, which was applied to increase the toll rates that became effective as of January 1, 2022. The annual toll rates shown in the table above for CY 2023 reflect a modified toll rate escalation percentage of 2.2 percent, as determined by action of the Commission, which was applied to increase the toll rates that became effective as of January 1, 2023.

² Segment length excludes a 1.3 mile toll-free section of Segment D.

³ Reflects minimum toll rate allocation at a gantry location.

7.0 Outstanding Obligations (In Thousands)

Description of Issue	Outstanding Principal as of 2/28/23	Total Principal Paid Current Period	Outstanding Principal as of 5/31/23
First Tier Revenue Bonds/Note			
Toll Revenue Bonds, Series 2013A	\$ 47,730	\$ -	\$ 47,730
Taxable Refunding Toll Revenue Bonds, Series 2020A	220,415	-	220,415
Refunding Toll Revenue Bonds, Series 2020C	793,385	-	793,385
Toll Revenue Promissory Note (2021 TIFIA Note) ^{1,2}	605,330	-	605,330
Subordinate Tier Toll Revenue Bonds (TELA Supported)			
Convertible Capital Appreciation Bonds, Series 2013B ¹	277,000	-	277,000
Taxable Bonds, Series 2013E	361,810	-	361,810
Refunding Series 2016	83,775	-	83,775
Series 2018A	712,100	-	712,100
Put Bonds, Series 2018B	166,525	-	166,525
Taxable Refunding Bonds, Series 2020B	1,241,560	-	1,241,560
Total	\$ 4,509,630	\$ -	\$ 4,509,630

¹ Does not include accreted interest.

² On November 15, 2022, GPTC requisitioned \$605,330,000 (the “2021 TIFIA Loan”) pursuant to the Transportation Infrastructure Finance and Innovation Act Loan Agreement dated as of August 19, 2021 (the “2021 TIFIA Loan Agreement”), which proceeds, together with other lawfully available funds of GPTC, were used to defease all outstanding Bond Anticipation Notes, Series 2018 (the “2018 BANs”) to their stated maturity date of February

1, 2023. Accordingly, the 2018 BANs are no longer outstanding, and the 2021 TIFIA Loan is now outstanding in the aggregate principal amount of \$605,330,000 (excluding accreted interest) and constitutes a First Tier Obligation. No additional amounts may be disbursed pursuant to the 2021 TIFIA Loan Agreement, and the 2021 TIFIA Loan Agreement is not entitled to the benefit of the TELA. The 2021 TIFIA Loan is evidenced by a First Tier Toll Revenue Promissory Note, referred to herein as the “2021 TIFIA Note.”

Junior Operating Expenses^{1,5}	\$ 36,496	\$ 43,709	\$ 46,778	\$ 50,748	\$ 54,654

Note: Totals may not sum due to rounding

¹ Amounts were obtained from the GPTC audited financial statements for such periods. Revenue and expense amounts shown in the table above are provided on an accrual basis. In addition, interest and investment income shown in the table above includes only the amount that constitutes pledged revenues (or Revenues of the System).

² Currently, no fee revenues are received by GPTC; any fee revenue collected is retained by TxDOT to offset operational costs.

³ The operation and maintenance expenses of the H and I Project and the System facilities that comprise Segment I-2A have been designated as Senior Operating Expenses and became the responsibility of GPTC upon the Substantial Completion of the H and I Project (effective May 16, 2022). There were no Senior Operating Expenses for fiscal years 2018 through 2021.

⁴ All Debt Service is net of capitalized interest. See Section 7.0 of this report for a listing of GPTC outstanding obligations. The foregoing table excludes debt service on the 2018 BANS.

⁵ Subordinate Tier Debt and Junior Operating Expenses are also supported by a Toll Equity Loan Agreement. Additional information regarding the Toll Equity Loan Agreement can be obtained by viewing the 2020 Official Statement.

Notes

Account Balances and Activity show actual balances at market value and actual posted activity. Revenue earned but not yet received (except for interest income on TexPool investments) and expenses incurred but not yet paid are not reported in the above table. Toll revenues and interoperability fees for ETC transactions occurring in a particular month are generally invoiced and paid among the partnering agencies under the Central US Interoperability Agreement by the end of the following month; however, the timing of invoicing and payment among the partnering agencies may extend beyond thirty days from the end of the month in which the related transactions occurred due to various factors. Payment of toll revenues for non-ETC transactions may be received later than the month in which such transactions occurred due to the time necessary for billing and processing such transactions.

Deposits:

- The 2018 BAN proceeds are held outside of the Master Trust Agreement (as defined in the 2020 Official Statement) securing the other outstanding obligations of GPTC.
- Investment income generally reflect cash-basis receipts, offset by purchased accrued interest and adjusted for interest earned on TexPool investments, but not received in trust accounts until after period end.

- Deposits into funds or accounts denoted by an asterisk (*) are excluded from Revenues of the System.

As of the first quarter of Fiscal Year 2023, all accounts equaled or exceeded their required balances as set by the Master Trust Agreement. **As of the first day of Fiscal Year 2023, the debt service, operations and maintenance, and major maintenance accounts were all pre-funded at 100 percent of their Fiscal Year 2023 budgeted amounts.**

The Senior and Junior O&M Fund vendor payments include reimbursement of expenses paid for by the State Highway Fund on behalf of GPTC. The timing of the State Highway Fund reimbursement may not coincide with the Operating Expenses as reported in the table in Section 4.0.
