Healthy Neighborhoods Program

PROJECT DESCRIPTION

The Healthy Neighborhoods Program is located in East Austin in Austin, Texas. The Neighborhood Community Collective (Organization) will implement a comprehensive community wellness program focused on health education and access to nutritious food for residents of all ages.

Stakeholders, including the local public health department, area schools, neighborhood associations, and nonprofit partners, are actively collaborating on program design, outreach strategies, and service delivery planning. The project is anticipated to begin by September 2025.

PROJECT DETAILS

- **Project Title:** Healthy Neighborhoods Program
- **Project Cost:** \$50,000
- **Location:** East Austin, Austin, Texas
- **Beneficiaries:** Residents of East Austin, including low-income families, youth, and seniors.
- **Start Date:** October 2025
- **End Date or Completion:** September 2026
- Funding is being sought from the **ABC grant program to support the community engagement and outreach phase**, including workshops, surveys, and neighborhood events.
- **Expected Outcomes:** Improved access to health and wellness resources, increased community participation in local initiatives, and enhanced neighborhood cohesion.

ORGANIZATION

- > Neighborhood Community Collective
- > 123 Eastview St, Austin TX 78702
- > 501(c)(3)

ABOUT US

> **Neighborhood Community Collective** is a grassroots organization dedicated to empowering residents and strengthening neighborhoods in East Austin. We work collaboratively to build community capacity and support local initiatives that improve quality of life.

PROJECT PURPOSE AND NEED

The purpose of the **Healthy Neighborhoods Program (Program)** is to improve community well-being by promoting health education and increasing access to nutritious foods for residents of all ages. The project aims to empower individuals and families with the knowledge, resources, and support systems needed to lead healthier lives.

There is a significant need for the Program due to:

- **Lack of accessible health education:** Many residents lack reliable information about nutrition, preventive care, and chronic disease management.
- **Food insecurity and limited access to fresh, nutritious food:** Neighborhoods face barriers to healthy eating due to food deserts and affordability challenges.

By addressing these needs, the Healthy Neighborhoods Program will foster healthier lifestyles, reduce health disparities, and build a more resilient and informed community.

ORGANIZATION SYNOPSIS

Neighborhood Community Collective is a grassroots organization dedicated to empowering residents and strengthening neighborhoods in East Austin. Established in 2012, the organization has served the community for over a decade, focusing on wellness.

Our mission is to promote health and community resilience through education, access, and advocacy. Our initiatives are designed to improve health outcomes and ensure that every resident has access to nutritious food and reliable health information. Over the years, our work has led to increased community engagement, improved access to resources, and stronger neighborhood networks.

FINANCIALS

The Healthy Neighborhoods Program requires funding to cover health education workshops and materials. The Neighborhood Community Collective is seeking \$20,000 from the ABC grant program. The remaining \$30,000 will be covered by the Organization.

SCHEDULE

The Program has a timeline to ensure timely completion.

Key milestones include:

- Start Date: October 2025
- Project Completion: September 2026

QUICK FACTS

- > We run 6 core programs focused on health education.
- > Our programs benefit 2,500 residents annually across all age groups.
- > We partner with 15+ local organizations to deliver community-based services.

ORGANIZATION HISTORY

- > Founded/initiated in 2012.
- > Trained more than 100 community health ambassadors to lead peer education workshops.
- > Recognized by the City Health Department for excellence in community wellness.
