	A Abdullah	1/31/2023	MyCaptx Website - Comment Form	Megional Connectivity	San Antonio is the largest city in the nation without a passenger rail. It's time to change that A line between the cities would bring economic benefits to SA by allowing people who work in Austin to live in our more afferdable city and would bring in more weekend and holiday tourists.	Studies have found that 82% of the traffic on 1-35 is local. The purpose of the Capital Express Central project is to improve the critical local, regional, national and international thoroughfure of 1-35 between US 200 East and US 200 West, "State Highway 71, loc."
						Enhancing safety within the corridor. Addressing demand by princitizing the movement of people, goods and services through and across the corridor.
						- Improving operational efficiency.
						Enhancing allege with the controls. Advantage glasses between a control of people, globs and services through and across the control. Advantage glasses between the control of people globs, and services through and across the control. Advantage are not repeated the control of people globs, peo
						arc pass, period trave or miss for all basis, including emerging response ventices and training. Connecting Auditor to other major orbits by rail is not included within the scope of this project. Regional rail has been considered in previous studies to improve 1-35, such as the Planning and Environmental Linkages Study in 2014. Regional rail was not recommended in this
						study because it would not create a dependable and consistent roate for transit, emergency responders and other motoritis. NOOT has also had seward cross-agenty meeting including team members from the City of Austin and Englethres's Project Connect team to ensure the Capital Express Central project aligns with other transportation project goals for the City of Austin. The proposed Project
						TaCOT has also hald several cross-agency meetings including team members from the City of Austin and Captivino's Project Connect near to ensure the Captivil Express Central project aligns with other transportation project goals for the City of Austin. The proposed Project Connect new light rail Blow Line will cross the 1-35 Captivil Express Central Project at Reverside Drive and cross Lept Brd Lake via a new river crossing parallel to 1-35 into downtown.
2	Aaron	1/31/2023	MyCapEx Website - Comment Form	Regional Connectivity	As a San Antonio resident, and frequent traveler to Austin, I believe high speed rail between these cities would greatly improve the lives of many and encourage economic growth and prospertly for the region.	See comment #1
			Comment Form			
		+			I am writint in googalion to current claims to expand 1.55 through Austin. Expanding 1.55 will worsen consection, just like Houston's Kety Freeze repaintion.	The ISS Cacital Excress Central project processes adding two HDV managed larges in each direction, as well as stranged; intersection brosss larges, No additional maintaines are being processed and ISS would not be errorated.
					I am writing in opposition to current plans to expand I 35 through Azatin. Expanding I 35 will worsen congestion, just like Houston's Kisty Frienday expansion. Please consider remouting non-local traffic on existing Righways such as \$41.30 or burying I 35 through the urban cone of Azatin.	In 15 Capital from Central prompt propose deling to the View reasonable to the contract and an arrange interaction to proper terms for accommand to the contract and an arrange interaction to proper terms for accommand to the contract and an arrange interaction to the contract and arrange interaction to the proper terms for accommand to the contract and in 15 desired by the 15 desired by the 15 desired by
				Reroute to 130		same number of lanes would be required to manage current and future demand. In addition, incentives to use \$91.130 would have little effect on trucks needing to make deliveries along the I-35 corridor.
						The corridor is also part of the Central Telesas Tumpbe (Str. Consortion Telesas Tumpbe (Str. Consortion Telesas Tumpbe (Str. Consortion Telesas Tumpbe (Str. Consortion Telesas Tumpbe Str. Consortion Telesas Tumpbe St
						toks on SH 130. The current \$4.9 billion skillsted for the i-35 Capital Express Central project would not be eligible for paying this outstanding doel. TxDDT would need a waiver to reduce or remove the tolls. While this does happen, it is usually for a temporary scenarior, such as construction.
					Not only will this help heal the downtown divide that has long been a source of inequity based on racial injudices, but it will also give Austinities and all Texans a capitol city with a downtown that is walkable	1-55 was built along East Avenue in Austin, which was seen as a racial divide in the city's early history, and later evolved as a regional highway conridor from 1930-1950.
					and safe. Do not double down on the historic mistake of putting a congested highway in the middle of a busy downtown. This is a mistake we have a chance to fix now rather than worsen for future generations with an expansion.	TADOT understands the significance of 155 to the local community and the chance to address focal concerns as we develop and implement the Capital Express Central project. This project offers the chance to not recovered community and the chance to address focal concerns as we develop and implement the Capital Express Central project. This project offers the chance to remove the visual separation within Austria and provide opportunities and separation exists and extended interest in SS through the deportunity of separation of resultant for the separation of the
3	Aaron Barker	404,000	VOH			Additionally, proposed improvements include foreiring the lanes to remove the visual and psychological barrier in Austin.

					Your can save a suffice, and an writing as a longitime resident of Austin who grew up in and has parents living in Georgetown. Going between Georgetown and Austin involves driving down 1-35, and it is clear from the daily congestion that solutions are resealed on this important contrict. However, expensions in set the way to solve this problem. Topopose Too'lls corruptains for 55 and or open expension of this own.	
				Do not widen/no build	Toppose TxOOTs current plans for 3.5 and Toppose expansion of this road. Tow Austin, and I believe the most beautiful, enjoyable, and functional parts of the city are the places that cater towards humans, not care. One example of this are the areas surrounding the Ladybird Lake Hike and Bike Trial, which I used to	
					commutat to my job at the Texas Rowing Center in 2018. Many people are moving to our only because of the quality of life here. This movement can't be changed, and we have to find ways to expand our city to work for all residents, old and new Please listen to our voices, reject the 155 expansion, and create a readway that prioritizes resident beauth, happiness, and common sense functionality.	
			1	Latent/Induced Demand	TAOD'S process in this project is flaved: It ignores induced Demand, construction impacts, particulate matter pollution from tire wear, the failure of almost all highway expansions, the success of freeway removals, and its traffic modeling is flaved.	See Comment #18
			1	Air Quality/Noise	Furthermore, highway expansions don't work. They worsen congestion (sa I see when I drive on the Kally Freeway to visit family in Houston), air noise and water poliution, safety, and transportation options beyond driving.	See Comment #34
					beyand driving.

			We		To the Staff of the Texas Department of Transportation:	See Comment #5
					We previously provided TXDOT with our comments to the proposed explansion alternatives during TXDOT's brief notice and comment period in 2021. In that letter, we expressed concerns that the favored build alternatives would nadically reduce our quality of life white expanding the many east-west divides in our city.	
					Having carefully considered the literatives presented in the current DEIS, we urge TxDOT to choose the No Build Alternative because the benefits of Modified Build Alternative 3 would not justify the costs and impact on our community. As noted by many well-informed members of our community.	
					The project itself would worsen traffic and congestion for many years, especially at a time when Austin will be building Project Connect. It would be difficult for our community to support a proposal to expand a highway that has a deep history of dividing the city without providing significant and meaningful improvements in connections across it. Caccinst the histman downtown	
					does offer a monumental opportunity to reconnect our urbain fabric and to symbolically units the geographic division that began with the 1928 mester plan. However, the downtown effort alone does not adequately address the wide-spread east-west barriers that 135 represents today. In fact, the planned explansion erects new barriers outside the downtown core. For example, 51st Street is currently the only crossing in our area between Airport Bird. and U.S. 200, a distance of 1.5	
					miles. Although adequate when 135 was originally planned, it is no longer sufficient due to the development of Mueller community and anticipated growth along the Airport and Cumeron Road corridors. These neighborhoods and communities—North Loop, Ridgetop, Styview, Highland, Mueller, Windsor Park, St. John's, and so many others—are precisely where lower and middle income residents have comprehended in search of affordable housing	
					This has did not been been been been been been been bee	
				Do not widen/no build	For better or worse, this highway is part of our neighborhood and traveling on, across or along 5.55 is a dialy reality for residents in our community. As some of the stakeholders most personally and directly impacted by this project, we are willing to work with TXDOT on a more aspirational vision for this readway. We view this highway expansion as much more than a simple readway - and hope that you do as well.

					No TLOCH TLOCK; Law way strongly opposed to the 155 expansion project. This is an antiquisted project that is werely for our city, if widening highways worked, Houston and Lou Angulas would be known for their great traffic rather than fiamously hornible stroff. "Intellific or "congression" is a function of density-expecially density of desirable electristics. Countrow Austin is "congested" because there are a lit of pieces people want to gp, next to seath other. This problem is not advabable until we finally scale.	See Comment #5
					"fraffs:" or "congestor" is a function of density-especially density of desirable destinations. Downtown Austin is "congested" because there are a lot of places people want to go, next to each other. This problem is not solvable until we finally raze the city (and all the places we want to go) until it's just a parking lot.	
					Why not manage demand through tolling? Why are we working against the public trained investment being made in the City of Austin? Why are we compromising the health and safety of Austin nesidents for the sake of exurban commutant? I do NOT support the destruction of my city, I would like to see the unsightly upper dock removed and NO expension. No additional lareas.	
358	August Stanley	3/7/2023	Email	Do not widen/no build	It is challenging enough to access my daily needs from the Cherrywood neighborhood. I have to cross i-35 at 38th 1/2 St to get to my local HEB, to my gem, and to work. My choices are walking, where I have to actually get OFF the sidewalk because there are giant transformer poles blocking my path, or bising on the street without any protection. I cannot afford a car and I don't think I should have to our chains a vehicle that is tens of thousands of Antibus without any another warms and in

				Do not widen/no build	Also, the frontage roads to the freeway are an incredibly bad waste of specu. The freeway separation could simply turn frontage road space into freeway space without anexing adjacent land. The city should be using coordinated signal tirring to make our city stress more efficient. This modul eliminate most of the need to use the freeway in the first place.	
					Beyond that, 135 is very poorly positioned, cutting a deep scar through the city. The pedestrian accomplations of the plan are all piece. **Record TADO*** to respect the whiten of Austritin residents! a leavest the foot open of the plan are of a piece. **Record TADO*** to respect the whiten of Austritin residents! a leavest the foot open of the state up of the plan are all piece. **Record TADO*** to respect the whiten of Austritin residents! a leavest the foot open of the plan are all piece. **Record TADO*** to respect the whiten of Austritin residents! a leavest the predesting and the predesting are all piece. **Record TADO*** to record the whiten are all piece the predesting are all piece. **Record TADO*** to record the piece that the predesting are all piece. **Record TADO*** to record the piece that the piece	
				Business/Residential Displacement	It is poorly designed for people. It will certainly move more cars, but it is bad for everyone near the freeway, its bad for the neighborhoods that would be further split apart by the freeway expansion, and won't reduce freeway congestion for any significant length of time. The construction alone will cause far more congestion than the expansion will reduce, its a net negative plan.	See Comment #21
				Community Alternatives	Support Retting(35% priens, including the plan to turn the freeway into a boulevand. Glant freeways should go around cities, not through them. Better yet, freeways shouldn't be giant behamonths in the first name.	See Comment #4
					years.	
441	Billy Utt		MyCapEx Website -		Two littles in content TOOTh covered present for the 155 Sealer. Historical desired models proud inaccurate, as evidenced in this service (migra, //sink.com/pubrical/scare/sc	See Comment #5
			Comment Form		35-expansion-20-Lanea hards) and the state has not considered that their math may be wrong. At any sate, there have been sightingstat studies showing that widening highways creations even more traiffic,	
					Assuming the state is deaded on carving 1.55 and widening it through Austin, capping it should be a first priority in design. Currently the caps do not extend fair enough, leaving a 20-something lane gulf between two parts of fine city that would result brandf for no caccest bringle over 1.55, increasing exponent occurring for branders on 1.55.	
				Do not widen/no build	Quite simply, this project is ill-advised. There need to be more feasibility studies on routing traffic to 130, environmental impact studies on pollution (opecifically particulates), and considering capping 135 from 71 to 290.	
				Caps/Deck Plazas	The caps would also help mitigate air and noise pollution, which is an astimistic who resides withing a mile of \$35, would be greatly appreciated. There have also been studies that show constant exposure to highway rose increases the likelihood of dementia	See Commant #42
				Reroute to 130	so the problem is saff-fulfiling, Internative trucking routes should be diverted to DH130, created operationly for non-local traffic. Simply limiting the number of soles allowed on 135 between 71 and 45 would improve adoption of 130 land generate revenue) white easing the traffic burden.	See contrast #3
					improve adoption or 150 (and generalis revenue) write eating the draftic curden.	
442	Bitia Buenrostro	2/28/2023	MyCapEx Website -	Do not widen/no build	Exceptor the Chy Council's list of dismands for the 135 Capital Express Project. Adding laines is not the solution. A growing body of research demonstrates that urban highway expansions induce more driving and worsen congestion (as in Houston's Kiny Freway) which negatively impacts residents' health and well-being. The goal of these changes should be the overall welfness of the people.	See Comment #5
			Comment Form		and worsen congestion (as in Houston's Katy Freeway) which negatively impacts residents' health and well-being, The goal of these changes should be the overall wellness of the people.

					Expanding the highway is the wrong move for our city. It is wall known that expanding highways leads to more congestion. Bigger highways are more dangerous, lead to more pollution, are noisier, and are a terrible blight on our city. Furthermore, the placement of IHSS echoes racist policies designed to segregate Austin. Expanding it would further separate east and west. The east side will unfainly bear the burden of this expansion.	
					Those been a hormoconer in this neighborhood for over bentry years and before then a retire. Even 3 blocks away, I have been jarred wake by the sound of nightfrine car crastes on the highway. I have heard multiple cashes from inside my home. The sounds of speeding can are not look below permeate what should be in eightfrine quick. If it is arrived in prospective great if it am widthing exist if it is middling or nining bloss with my family because the number of	
					cars and speed of traffic is overwhelming. We love to walk and explore our area and the highway is already a huge berrier. Expanding the highway will make it such that we have to get in a car to drive to places we enjoy that should be accessible on foot.	
					Indice. The property of the pr

We will be a service of the control							
The second secon						3. TXDOT should present a design that prioritizes pecketrian and bias connections through the Airport Bird intersection. In particular, the dusfit impact statement says that bias and pecketrian access will "allow for planned future brials as shown on the City of Austin (COA) Bias Plan*. Accordingly the document should address the City of Austin's plans for the Airport Bird shared use bias and pecketrian pathways. Why, then, is there are mention or	
The state of the s							
The state of the s						4. The effort expended for improved designs south of 38 1/2 has not been matched by efforts north of there. In particular, the environmental impact statement should address the changes in wealth and demographic makeup in the areas in which claims of addressing historical inequity are made. In particular, the St. John's neighborhood remains cut in half, with zero at grade crossings in the current proposal. It is disrigenous at best to	
The state of the s						Improve connectivity for the University and gentrifying central neighborhoods, while doing nothing to improve connectivity further north, where wealth and demographics have not changed as quickly. Any claims to address historical inequities caused by the ISS must address where the affected communities have been displaced to, and address the continuing impacts of the ISS in those neighborhoods.	
Part							
						5. TIXOT should explore a palestriam and bike connection that utilizes the Northwest Greenway in Moulier for a gently stoping pathway to an overhead connection. This should be done without creating open space undermath any ramp (e.g., by using earth filled ramping), in order to avoid creating covered areas for occupation by those seeking shelter due to lack of affordable housing. This provides an opportunity for padestrian/bike east west	
Mary	1483	James Howison			Delwood	connectivity, Ideally that risimp could gently slope back down on the eastern side of the freeway, creating usable connections to 45th street and Airport Blvd.

					but DCCTTDCC! I are an Autor modern who prefer to by your larnord the city by transit, begind, and on find, I oppose the proposed expension of CS. The correct proposed is an environce investment in a car focused future, I believe instead we should be investing or commonly independent to be update transit, softe a respectation, end on enter restruction.	See Comment #23
				Public Transit,	Investing in climate-friendly infrastructure like public transit, active transportation, and nature restoration. Seese Altas	
				Public Transit, Multimodel Transportation		
1620	Jesse Attas	405,000				
				Community alternatives	White Loppose the project entirely, if TuDOT insists on building it I hope you can do more to make it meet Austin's needs. This includes providing more east-next crossings for non-automobies, covering the traffic laines, reducing speed limits on forrage made, adding more green space, and containing the numerous forms of pollution that the highway will generate (rosies, air, water, light, etc.)	See Comment #4
1621	Jesse Attas		MyCapEx Website - Comment Form	Do not	I oppose the long term seizure of pankland next to Laky Bird Lake in order to perform construction. This will negatively impact me as a user of the Buther Trail and boater on Laky Bird Lake. It will also worsen access to the shoreline by both people and animals. This project is incredibly disruptive to residents of Austin and should not proceed as is.	See Comment #5
	Attas		Comment Form	o build	access to the shortenine by own people and sentents. This project is increating distriptive to readeline or adults and sentents for adults and sentents.	
					Engages the plan to put both floretage reads or the same side of the highway and to switch which side the frontage is on as the project reads downtown, will also make it move difficult to get on and off of the highway ne	See Comment #34
					the highway near downtown, which is likely the most common place for Austinities to enter and exit the highway.	
				Bike/ped safety	This will add unnecessary confusion for local traffic, especially cyclists and pedestrians.	See Comment #30
				Business/residential displacement	Exposes the seizure of land from established Austin businesses in service of this project. While I am not opposed to entinent domain in general when the purpose serves the public good, I do not believe the proposed use will be worthwhile. Maintaining longituding businesses like Whip-in, Stans Cale, and the Austin Chorricle is more important than adding more lanes of concrete for automobiles.	See Comment #21
				Do not wider/no build	Expose the plan to add more laines and more width to 135. Study after study have shown that adding more laines does not improve traffic or travel times over the long term. Instead it encourages more people to drive and makes traffic worse.	See Comment #5
					people to drive and makes traffic worse.	
				Biks/ped safety	I personally would love to see more space devoted to safe cycling infrastructure and rapid transit. I would drive my car less if these options were available to me.	See Comment #30
					Instead we should invest in solutions that encourage people to live closer to work and recreation and to take alternative modes of transportation to get to and from downtown.	See comment 633
				Public Transit / Multimodal Transportation	Industry we arroad invest, in accountry that encounting people to live cover to work and recreasion and to take accomision includes or transportation to get to and from covercions.	Sau Contract # 13
1622	Jesse Attas		MyCapEx Website - Comment Form	Do not widen/no build	Esupport the feedback submitted by the Austin City Coursol and Travis County commissioners. This is an opportunity to spend billions of dollars to improve the loves of Central Texas residents but the current proposal comerns the same car focused and traffic intensive strategy that has proven not to work for decades	See Comment 45
