Summary

Public Involvement and Agency Coordination

During the public involvement and agency coordination for the NHHIP, TxDOT has ensured adherence to all regulatory guidelines and policies in compliance with federal and state statutes and sound public involvement practice. TxDOT has solicited and encouraged involvement of all stakeholders during the planning process and incorporated input received in the various planning activities. Throughout the proposed project, TxDOT has provided accurate and timely information, proactively sought early and continuing public input and involvement, and has been responsive to inquiries and suggestions. Input from all stakeholders has been reviewed and considered. TxDOT has addressed proactive efforts to ensure meaningful opportunities for public participation including activities to increase low-income and minority participation. This section summarizes the activities and methods utilized to communicate with project stakeholders. Additional information is included in the Final EIS.

1. EARLY COORDINATION FOR NORTH HOUSTON TRANSPORTATION STUDIES

In 2001, the Metropolitan Transit Authority of Harris County (METRO), TxDOT, and the Houston-Galveston Area Council (H-GAC) began a study to evaluate alternatives for transit and highway improvements for a corridor from Downtown Houston to State Highway (SH) 242, principally in the area between Interstate Highway (I-) 45 and Hardy Toll Road in Harris County, Texas. The North-Hardy Planning Studies were conducted in partnership with the elected officials representing the North-Hardy Corridor's constituency; the various public agencies responsible for transportation system planning and operation; a diverse group of stakeholders that lived or worked in the Corridor; and numerous individual, interested citizens. During the studies, the sponsoring agencies conducted public meetings and other community stakeholder meetings. The North Hardy Corridor Alternatives Analysis Report was completed in 2003, and recommended that the transit alternatives be examined prior to detailed evaluation of highway alternatives. The assessment of transit alternatives was completed in February 2004 and the assessment of highway alternatives was completed in November 2005. The North-Hardy Planning Studies were conducted with extensive community outreach and consensus-building including 15 formal stakeholder meetings, 12 public meetings, and 104 small group or one-on-one meetings.

2. COORDINATION SINCE 2011

When TxDOT began the subsequent project development process to evaluate alternatives for highway improvements in the corridor in more detail, the development of the initial mailing list of stakeholders for the NHHIP started with those on the mailing list from the North-Hardy Planning Studies, which included over 2,800 individuals and interested citizens. For the NHHIP mailing list, elected officials, government agencies, local organizations, civic groups, businesses, landowners and interested citizens were added and updated. The notifications

Summary

Public Involvement and Agency Coordination

for the first scoping meeting for the NHHIP were mailed to 4,805 mailing addresses, and over time the list has been updated to include attendees at meetings, commenters and others, and at the time of Final EIS publication, the list has approximately 5,700 mailing addresses. TxDOT has also maintains a project email list, and TxDOT sends project information and news to approximately 6,751 email addresses.

Meeting with stakeholders is an important activity during the project development process, and is particularly important for public involvement efforts across such a large and diverse community study area. Stakeholders can identify potential issues and concerns related to the project design and operation. Between July 2013 and August 2019, TxDOT attended over 300 stakeholder meetings, presenting project information and seeking input on the project need and purpose; environmental, engineering, and other constraints; other issues of concern; alternatives evaluation criteria; schematic design alternatives; results of the impact analyses conducted the study process; impact minimization and mitigation strategies; and other topics.

TxDOT and the Study Team held meetings with individual stakeholders, and had meetings with a collaboration of several stakeholder representatives. Information received during stakeholder meetings was taken into consideration as project alternatives were developed and refined and was incorporated into the Preferred Alternative to the extent possible. TxDOT shared project information including presentations, display boards, and handouts at most meetings.

These stakeholders include:

- Management Districts¹ and Chambers of Commerce
- Super Neighborhoods, Neighborhood Associations, and Civic Clubs
- Government Agencies
- Tax Increment Reinvestment Zone (TIRZ) and Redevelopment Authorities
- Local, State, and National Officials
- Organizations and Associations
- Corporations
- Businesses and Property Owners
- Other Stakeholders

Table A-2 provides a summary of the stakeholder meetings conducted from November 2011 through August 2019, excluding the agency and public meetings and hearing discussed in Section 4.

The table notes whether the meetings took place in environmental justice (EJ) geographies or concerned an EJ-specific facility or topic, and Appendix A includes a map (Exhibit A-1) that

¹ The management districts listed are special districts created by the Texas legislature, and are empowered to promote, develop, encourage and maintain employment, commerce, transportation, housing, tourism, recreation, arts, entertainment, economic development, safety, and the public welfare in specific geographic areas.

Summary

Public Involvement and Agency Coordination

shows the location of the meetings in relation to super neighborhoods and the management districts.

Table 1. Stakeholder Meeting Summary (July 2013 through August 2019)

Stakeholder	Number of Meetings
Management Districts and Chambers of Commerce	
Houston Downtown Management District	30

Note: * The communities assessed along the project corridor are referred to as “super neighborhoods”, which are geographically designated areas that are divided by major physical features and share common characteristics.

3. LIMITED ENGLISH PROFICIENCY AND ACCESSIBILITY

As a recipient of federal assistance, TxDOT complies with various nondiscrimination laws and regulations, including Title VI of the Civil Rights Act of 1964 and Executive Order 13166: Improving Access to Services for Persons with Limited English Proficiency (LEP), to promote inclusive public involvement. TxDOT has conducted public involvement and the project development process in consideration of soliciting participation from and providing benefits to all project stakeholders, regardless of race, religion, color, national origin, sex, age, or disability. Primary methods for identifying LEP and Title VI populations have included:

- Review of U.S. Census data
- Review of data on languages spoken by residents
- Review of City of Houston neighborhood profiles
- Review of H-GAC mapping of minority areas
- Review of data on area schools
- Field reconnaissance to view communities and community resources such as medical service providers
- Input at public and other stakeholder meetings

Techniques for reaching out to limited English proficient (LEP) and Title VI populations have included:

- Provided notices and meeting materials in Spanish
- Provided Spanish-speakers at all meetings
- Provided simultaneous Spanish translation during public hearing
- Offered to provide additional language assistance, if requested

Summary

Public Involvement and Agency Coordination

- Sent meeting notifications and newsletter to neighborhood civic clubs, places of worship, community centers, service providers, schools, businesses, chambers of commerce, and others, including in areas where minority populations were identified
- Conducted meetings in locations with adequate public parking, accessible entries, and compliant with the Americans with Disabilities Act

To help identify and engage stakeholders, TxDOT provides accommodations for LEP individuals during project development, along with opportunities to request further language assistance and other accessibility accommodations. Throughout the project area, Spanish is the main language spoken by those who reported speaking English “less than very well” according to Census data. As a matter of best practice, TxDOT translates many materials where the Spanish LEP population is known to be substantial, such as the Houston District. NHHIP project documents are routinely bilingual (e.g. presentations, comment forms, exhibit boards and informational pamphlets related to right-of-way acquisition and relocation assistance). Many of these documents are also made available on the project website to both provide adequate notice, and to ensure continual access to updated project information for LEP populations. The mitigation survey completed in 2019 was also available in Spanish and included four respondents from this language group.

For the formal TxDOT public meetings and hearing discussed below, notices were published in English and Spanish in local newspapers including the Houston Chronicle, Defender, and La Voz (a Spanish language newspaper). Bilingual public meeting notices were mailed to adjacent landowners, community organizations, elected officials, government officials, civic groups, and published on the project website to ensure sufficient opportunities for community input in the NEPA process and provide information on how citizens could request language interpreters. The project team included bilingual staff during both public meetings and the hearing to assist those that may be uncomfortable communicating in English. Although no advance requests for language assistance were received, some meeting attendees preferred speaking Spanish and were assisted by project team members fluent in Spanish. Simultaneous Spanish translation was provided during the hearing as well. TxDOT displayed 3D visualizations of the Preferred Alternative to make complex engineering information more understandable in general, and clearly convey major changes resulting from the project.

In May 2017, the Houston Housing Authority (HHA) organized informational meetings for the culturally and linguistically-diverse residents of Clayton Homes and Kelly Village. The first meeting, held on May 17, 2017 at Kelly Village, was attended by approximately 30 residents and staff from TxDOT and HHA. HHA provided simultaneous translation in Swahili, providing LEP residents with information on the overall project, units that would be impacted (including portions of the park), relocation services, and housing resources. The meeting also included time for residents to ask questions directly after the presentation in order to address any specific concerns.

Summary

Public Involvement and Agency Coordination

The second meeting was held on May 18, 2017 at Clayton Homes and approximately 60 residents attended along with staff from TxDOT and HHA. HHA provided simultaneous translations in Swahili, Spanish and Haitian Creole, which provided residents with information on the overall project, and that all units would be impacted. A question and answer session was also included in this meeting to address specific concerns raised, such as the relocation of the Head Start Program (no longer located at Clayton Homes). Both of these on-site meetings were held to help ensure awareness of the proposed project, in addition to demonstrating that accommodations are available for LEP participation as the project develops.

Site visits were conducted in order to verify and supplement LEP data described in the Community Profile section. Primarily within Segment 1, several businesses and places of worship have Spanish-language names or signs. In Segment 3, a few businesses with Asian-language names are located on the east side of Downtown, including a bakery and restaurants that would be displaced. During community outreach, attempts were made to talk with these businesses to discuss the project and get input on potential impacts from these organizations and business owners (see Table A-1). Notices of public meetings and the public hearing were sent to the Asian, Hispanic, Italy-America, Bilateral Arab-U.S. and other Chambers of Commerce.

Select businesses and churches with names in languages other than English include Centro Cristiano Church, which has been continuously in contact with project staff. After directly discussing their interests and concerns, this facility applied for advance acquisition of their property. The Study Team also met with the owners of Yen Huong Bakery, which makes specialty deserts and pastries for the Vietnamese and Chinese community. This culturally-specific business is owned by an Asian property owner who speaks limited English. TxDOT met with the owner and English-speaking brother to discuss the option of applying for advance acquisition of the property, among other topics. Detailed outreach to these businesses and places of worship are discussed in Section 6 and Table A-1.

TxDOT will continue to comply with EO 13166 by offering to meet the needs of persons requiring special communication or accommodations in all public involvement activities and notices. Public involvement is conducted in a manner such that all interested parties are given an opportunity to provide further input on the proposed project.

4. SCOPING MEETINGS AND PUBLIC MEETINGS

Public participation and involvement is an integral part of the transportation planning and project development process. Public input and comments are a valuable part of TxDOT's project development process because these comments lead to building better transportation projects for communities, improved project planning and development and a more transparent decision-making process. TxDOT reviews and considers all comments from the

Summary

Public Involvement and Agency Coordination

public in the decision-making process and when feasible, uses the public's input in the final decisions, and communicates to the public when and how decisions reflect public input.

The National Environmental Policy Act (NEPA) requires the lead federal agency to conduct an early and open process for determining the scope of topics to be addressed and for identifying the significant issues related to a proposed project. For example, input during the scoping meetings and other outreach opportunities provided to agencies and the public assisted the team in identifying additional areas of concern and determining what is important to consider for the proposed project. In accordance with Federal and state requirements, TxDOT and FHWA conducted scoping meetings at the start of the EIS process, in 2011 and 2012. Pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT, the environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT.

4.1. *Scoping Meeting 1*

TxDOT held agency and public scoping meetings in November 2011 to discuss the project goals, the extent of impact analyses, agency coordination and public involvement. The meeting handout states the purpose of having the scoping meeting at the early stage of the project:

- Initiate your early involvement
- Provide project history and background
- Explain the environmental review process
- Present the project timeline
- Invite review and comment on two draft documents: Need and Purpose Statement; Agency Coordination and Public Involvement Plan
- Gather information about the project area
- Discuss project with you and answer questions
- Request comments on the project
- Encourage your continued involvement

The public scoping meeting was held at two different locations in the project area, at Jefferson Davis High School (November 15, 2011) and at Aldine Senior High School (November 17, 2011). Three agencies attended the agency meetings, and a total of 312 people attended the public meeting. After the meeting, TxDOT reviewed public and agency comments to determine the issues of interest, and alternatives evaluation criteria were developed along with Preliminary Alternatives.

Summary

Public Involvement and Agency Coordination

4.2. Scoping Meeting 2

In October 2012, TxDOT held a second round of agency and public scoping meetings to present and solicit input on the Alternatives Evaluation Screening Process and the six Preliminary Alternatives selected per study segment. The meeting handout states the purpose of the scoping meeting:

- Present and gather your input on the Alternatives Evaluation Screening Process, the Universe of Alternatives and the Six Preliminary Alternatives
- Present two updated documents: Need and Purpose Statement and Agency Coordination and Public Involvement Plan
- Discuss the project with you and answer questions
- Present the project timeline, history and background
- Encourage your continued involvement

The public scoping meeting was held at Jefferson Davis High School (October 9, 2012) and at Aldine Ninth Grade School (October 11, 2012). Seven agencies attended the agency meetings, and a total of 235 people attended the public meeting. TxDOT reviewed public and agency comments, and based on the feedback and further engineering and environmental studies, the Study Team evaluated each Preliminary Alternative to identify three Reasonable Alternatives per segment.

4.3. Public Meeting 3

The third round of agency and public meetings was held in November 2013 to present and gather public comments on the Reasonable Alternatives. The meeting handout states the purpose of the public meeting:

- Present Secondary Screening Process evaluation for the Six Preliminary Alternatives
- Present and gather your input on the Three Reasonable Alternatives
- Discuss the project with you and answer any questions
- Present the project timeline, history and background
- Gather your input on the project, process and alternatives
- Encourage your continued involvement

The public meeting was held at Aldine Senior High School (November 14, 2013) and at Jefferson Davis High School (November 19, 2013). Nine agencies attended the agency meetings, and a total of 322 people attended the public meeting.

TxDOT reviewed public and agency comments and. based on the feedback and further engineering and environmental studies, the Study Team evaluated each Reasonable Alternative to identify one Proposed Recommended Alternative per segment.

Summary

Public Involvement and Agency Coordination

4.4. Public Meeting 4

The fourth agency and public meetings were held in April 2015 to present more detailed evaluations of the Reasonable Alternatives and identify the Proposed Recommended Alternative. The meeting handout states the purpose of the public meeting:

- Present Evaluation and Analysis Process for the Reasonable Alternatives
- Present and gather your input on the Proposed Recommended Alternative
- Discuss the project with you and answer any questions
- Present the project timeline, history and background
- Gather your input on the project, process and alternatives
- Encourage your continued involvement

Due to increased public interest, the public meeting was held at three locations (versus 2 locations for prior meetings): Aldine Ninth Grade School (April 23, 2015), Houston Community College Central Campus (April 28, 2015), and Jefferson Davis High School (April 30, 2015). Nine agencies attended the agency meetings, and a total of 540 people attended the public meeting.

TxDOT reviewed public and agency comments and based on the feedback and further engineering and environmental studies, the Study Team evaluated each Reasonable Alternative, including the Proposed Recommended Alternative, in more detail.

4.5. Public Hearing

The Draft EIS was released in April 2017. The public hearing was held in May 2017 to present the proposed improvements along the I-45 corridor and to receive public comments on the Reasonable Alternatives (including the Proposed Recommended Alternative) presented in the Draft EIS. Proposed design changes to the Proposed Recommended Alternative documented in the Draft EIS were also presented at the public hearing. The public hearing was held at St. Pius X High School (May 9, 2017) and the Houston Community College Central Campus (May 11, 2017). A total of 514 people attended the public hearing at the two locations.

Due to construction at Northside High School (formerly Jefferson Davis High School), and a lack of another suitable facility in the area, a third venue and date for the hearing was not initially identified by TxDOT. For a public hearing that TxDOT expected would be attended by hundreds of people, TxDOT prefers, at minimum, auditorium seating or other chairs for the comfort of attendees; large areas for exhibits, tables (registration, environmental, right-of-way, find-your-home station); access and accommodations that meet Americans with Disabilities Act requirements; and suitable parking. At the request of elected officials, TxDOT did identify an alternate venue and conducted an additional meeting on May 15, 2017 at St. Arnold Brewing Company. This meeting was held in the same format as a public hearing, and the same information from the public hearing was presented to provide an additional opportunity

Summary

Public Involvement and Agency Coordination

for public comment in the vicinity of the Near Northside and Greater Fifth Ward neighborhoods. A total of 232 people attended the meeting. Although held in a non-traditional venue, where attendees sat at picnic tables in the tasting room in the building, TxDOT was able to successfully accommodate attendees, present project information, receive comments, and have good discussions with attendees.

Also at the request of elected officials and other stakeholders, TxDOT extended the original Draft EIS comment period to allow additional time for review of the Draft EIS and preparation and submission of comments. The original 45-day comment period was extended 30 days, shifting the deadline from June 27, 2017 to July 27, 2017.

Based on public and agency comments received during and after the comment period, the Study Team revised the Proposed Recommended Alternative that was presented at the public hearing, and design changes were incorporated into the Preferred Alternative included in the Final EIS. Section 2 of the Final EIS describes and illustrates the design changes.

5. CONCURRENT OUTREACH FOR REGIONAL TRANSPORTATION PLANS

As part of the planning process for developing the 2040 Regional Transportation Plan (RTP), Houston-Galveston Area Council (H-GAC) conducted public outreach beginning in early 2013. The 2040 RTP is a guide for maintaining and improving the current transportation system and identifies priority transportation investments in the eight central counties of the 13-county H-GAC region. The proposed NHHIP was included in the Draft 2040 RTP and presented along with other proposed transportation investments in the region. H-GAC conducted a comprehensive public outreach process designed to achieve broad-based input. Public outreach sessions targeted the following groups:

- Elected and Appointed Officials
- Business, chamber of commerce, and transportation organizations
- Under-served or EJ populations, including low-income households, members of minority groups, zero-automobile households, elderly persons, persons with limited educational attainment, and persons with limited English proficiency.

A summary of public outreach by H-GAC is in Appendix J of the 2040 RTP. EJ-specific public outreach is also discussed in Appendix B of the 2040 RTP. Both of these appendices and updates to the RTP are available on H-GAC's website. When developing the 2040 RTP, H-GAC considered input received via the outreach efforts. The NHHIP is included in the 2040 RTP, which was approved and adopted in 2016.

As part of the planning process for developing the current 2045 RTP, H-GAC hosted more than 20 public meetings and open house events. At least one meeting was held in each of the eight counties that make up the metropolitan planning area. Public outreach began in early 2018.

Summary

Public Involvement and Agency Coordination

A variety of strategies were used to encourage participation by the traditionally underserved population, including EJ community advocates, non-profit organizations, elected officials, faith-based organizations, neighborhood associations, housing advocates, community development organizations, special interest groups, private transportation providers, and individuals with demonstrated interest in the EJ communities. A summary of public outreach by H-GAC is in Section 7 of the 2045 RTP, which is available on H-GAC's website. The NHHIP is one of the highway investments included in the 2045 RTP, which was approved and adopted in 2019.

6. INCLUSIVE COMMUNITY OUTREACH

As roadway alignment alternatives became more developed, the estimated right-of-way impacts to specific properties and individuals became clearer. In order to identify and address environmental justice concerns, TxDOT began to carry out more direct outreach in early 2017 to present the details of the updated design of the Preferred Alternative as a first step towards engagement.

The Study Team began additional outreach to representatives of community facilities, organizations, and some businesses that serve or assist low-income, disabled, senior, children, minority, and LEP populations. This phase of public outreach was initially targeted toward those located within or near the proposed right-of-way of the Reasonable Alternatives for the proposed project. Following the May 2017 public hearing, outreach focus shifted towards those located within or near the proposed right-of-way of the Preferred Alternative. Many of these individuals and organizations have been continuously involved throughout the evaluation of the Preferred Alternative. Some individuals and organizations have been involved as early as the North Hardy Planning Studies discussed in Section 1 of this appendix, building upon email lists and other contact information in order to maintain involvement throughout a multi-year effort. Other entities were established only after publication of the Draft EIS, reinforcing the need for the project team to consistently reassess project design, impacts to affected communities, and stakeholders.

Communication methods included mailed letters, phone calls, emails, surveys, and questionnaires, many of which were followed by in-person site visits or meetings to achieve full and fair participation. The Study Team found that meeting people where they are - attending a meeting at their local community center or other gathering place - to be a simple and effective strategy that accommodates scheduling issues and other barriers often faced by EJ communities. When TxDOT representatives were invited to meetings of specific organizations, it could also encourage input from those who may not feel comfortable participating in the more formalized public hearings and meetings that TxDOT holds, which also allows the audience to set the agenda and focus on the more specific areas of interest regarding the proposed project.

Summary

Public Involvement and Agency Coordination

Community organizations, facilities, and businesses contacted during the additional community outreach are listed in Table .

Community outreach focused on facilities such as:

- Schools
- Places of worship
- Service providers - Including those that serve minority, low-income, homeless, veterans or other traditionally underserved populations
- Medical care facilities for low-income or LEP populations, and those providing services unique to the project area
- Businesses that specifically serve minority or LEP populations
- Low-income housing
- Cemeteries
- Housing for seniors and disabled populations
- Community centers
- Multifamily housing communities

Culinary Institute LeNotre	Y	N	N	N	N	Y	1	1	Concerned about finding a property or facility to relocate to that is on freeway frontage. Want to maintain the level of exposure/advertisement as the current property has, proximate to I-45. Concerned about the timing of the relocation process and how it could interrupt or impact class schedules. Would like to remain open during relocation process, and until a new facility is ready.	<p>TxDOT is proceeding with advance acquisition of this property. During the relocation process, the school will be able to remain in the existing facility for an amount of time and cost negotiated with TxDOT. TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested). The property owner will be justly compensated for their property and be reimbursed for moving costs and certain related expenses. The property owner can also be eligible for reimbursement of reasonable searching expenses for replacement property, up to \$2,500. The property owner may also be eligible to receive a payment for reestablishment expenses incurred in searching for a replacement property (not to exceed \$25,000).</p>

Summary Public Involvement and Agency Coordination

Name	Letter February 2017	Letter September 2017	Phone Interview	Advance Acquisition Letter	Site Visit	Questionnaire or Other Response	Number of In-person Meetings	Segment	Property Owner or Tenant Concerns and/or Needs	TxDOT Action to Address Concerns and/or Needs
Faith Tabernacle Church	Y	Y	NR	Y	Y	Y	0	1	<p>Want to renovate the current facility but does not want to invest in updates if their building will be displaced.</p> <p>Would like to relocate on I-45 frontage due to access convenience for members.</p> <p>Would need assistance relocating a large storage unit with outreach ministry supplies.</p> <p>Need assistance finding place to relocate.</p>	TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested).
Iglesia Evangelica Vida	Y	Y	NC	Y	Y	N	0	1	<p>Several attempts were made to contact the place of worship, via letters and two site visits. No response was received.</p>	<p>TxDOT's outreach to this church (a tenant in an office building) included two letters and two site visits. Bilingual (English/Spanish) notices were left at the facility during each site visit. TxDOT has not received a written reply or phone call, and no one answered the door of the facility.</p> <p>TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested).</p>
North Houston Birth Center/ICV North Houston LLC	N	N	NR	Y	Y	Y	0	1	<p>This facility is the only birthing center (not associated/located in a hospital) in the Houston area that accepts Medicaid.</p> <p>The birthing center wants to relocate near its current location, due to the central location and ease of access. Businesses that perform medical procedures would be required to amend medical licensing to perform medical procedures in a new location.</p>	TxDOT is proceeding with advance acquisition of the property at 7007 North Freeway (where birth center is located). Tenants will be assigned a relocation assistance counselor who will provide relocation information and assistance including tenant entitlements under TxDOT relocation assistance program. Businesses that perform medical procedures would be required to amend medical licensing to perform medical procedures in a new location and TxDOT will pay for relicensing fees.
Texas Health and Human Services/Kagan Properties Venture I LTD	N	Y	N	Y	Y	Y	0	1	<p>No concerns at this time.</p> <p>Impacts would be minimal because assistance from HHS is available online and over the phone. Those without phones or computers would have to use a public computer to coordinate or find another HHS location in Houston.</p>	TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested).
Universal Church	N	N	Y	N	N	Y	0	1	This church owns vacant land nearby and wants to build on the land, but has delayed due to the NHHIP project.	TxDOT is proceeding with advance acquisition of the vacant property.
Unity Spirit Missionary Worship Center	N	N	Y	N	Y	Y	1	1	Not sure of timing of proposed NHHIP. Property would be impacted by storm water detention area, the relocation of which is preliminary. Owner prefers the property be acquired by TxDOT, rather than be avoided.	TxDOT was able to avoid this church by modifying the drainage design. The Pastor was notified of the design change.

Summary **Public Involvement and Agency Coordination**

Name	Letter February 2017	Letter September 2017	Phone Interview	Advance Acquisition Letter	Site Visit	Questionnaire or Other Response	Number of In-person Meetings	Segment	Property Owner or Tenant Concerns and/or Needs	TxDOT Action to Address Concerns and/or Needs
Greater Mount Olive Missionary Baptist Church	Y	Y	N	Y	N	Y	4	1	<p>Concerned about losing original members if the church has to relocate outside the neighborhood. This place of worship is the oldest in Independence Heights. They want to remain in the same neighborhood but are concerned there are limited real estate options.</p> <p>Requested a memorial plaque remain in the current church location.</p>	<p>TxDOT is proceeding with advance acquisition of this property; advance acquisition would provide additional time for renovation or relocation of the place of worship. At the request of the place of worship, a memorial plaque will be placed at their current location.</p> <p>TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested).</p> <p>The property owner will be justly compensated for their property and be reimbursed for moving costs and certain related expenses. The property owner can also be eligible for reimbursement of reasonable searching expenses for replacement property, up to \$2,500. The property owner may also be eligible to receive a payment for reestablishment expenses incurred in searching for a replacement property (not to exceed \$25,000).</p>
Clayton Homes (Houston Housing Authority Property)	N	N	N	N	Y	Y	4	3	<p>Primary concern is getting the appraised value of property (from TxDOT) so they can either start refurbishing or building a new facility for residents.</p> <p>HHA wants to provide as much notice as possible to give residents to prepare for move.</p> <p>They would like to move during the summer to minimize impacts during the school year. New housing would be in the same general area, so that students could stay at the same schools they currently attend.</p>	<p>TxDOT is in coordination with the HHA on acquisition of the property and relocation on the residents of Clayton Homes so as to provide for the relocation of over 70 percent of replacement housing to be within one mile of the existing location</p> <p>TxDOT is in coordination with the HHA on acquisition of the property and relocation on the residents of Kelly Village with the intent of constructing new housing in the vicinity of the existing Kelly Village.</p> <p>Relocation assistance and payment for reasonable moving and related expenses would be included for residents who are required to relocate. TxDOT will coordinate with the HHA to follow all HUD and FHWA requirements for the relocation of displaced tenants.</p>
Fatima House	N	N	N	Y	N	Y	0	3	<p>Property is owned by the Archdiocese of Galveston-Houston. Fatima House did not return phone messages.</p> <p>Limited information was provided by the Archdiocese of Galveston-Houston contact, after several attempts to reach them by phone, email, and by letter. The Archdiocese indicated the Fatima House conducts ministry to and provides some services to the homeless populations of Houston. In order to continue these services for homeless, the Fatima House would need to be relocated in an area with a homeless population.</p>	<p>TxDOT has offered the opportunity to request advance acquisition of property. TxDOT will assign a relocation assistance counselor to Fatima House and will provide current listings of other available properties (if requested).</p> <p>The property owner will be justly compensated for their property and be reimbursed for moving costs and certain related expenses. The property owner can also be eligible for reimbursement of reasonable searching expenses for replacement property, up to \$2,500. The property owner may also be eligible to receive a payment for reestablishment expenses incurred in searching for a replacement property (not to exceed \$25,000).</p>

Summary
Public Involvement and Agency Coordination

Name	Letter February 2017	Letter September 2017	Phone Interview	Advance Acquisition Letter	Site Visit	Questionnaire or Other Response	Number of In-person Meetings	Segment	Property Owner or Tenant Concerns and/or Needs	TxDOT Action to Address Concerns and/or Needs
Goodwill Missionary Baptist Church	N	Y	N	Y	Y	Y	1	3	Want to remain/relocate in the same general area because the church was originally founded in the Fifth Ward neighborhood. Want a location with sufficient parking because parking is very limited at the current location. The church was previously impacted by the expansion of I-10, which limited parking and size (square footage) of the church.	<p>TxDOT is proceeding with advance acquisition of the property; advance acquisition would provide additional time for relocation and reestablishment. TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested).</p> <p>The property owner will be justly compensated for their property and be reimbursed for moving costs and certain related expenses. The property owner can also be eligible for reimbursement of reasonable searching expenses for replacement property, up to \$2,500. The property owner may also be eligible to receive a payment for reestablishment expenses incurred in searching for a replacement property (not to exceed \$25,000).</p>
Helping Hands Charity Center (Sloan Memorial United Methodist Church)	N	N	Y	N	N	Y	0	3	Historic church was demolished a few years ago and the congregation holds services at another facility. The church is raising money to rebuild the church. Want to build a new church on existing vacant property. They renovated the Helping Hands Center because they wanted to get back to the Fifth Ward area to continue ministry work and conduct meetings.	<p>TxDOT is proceeding with advance acquisition of the property; advance acquisition would provide additional time for relocation and reestablishment. During the relocation process, the place of worship/Helping Hands Center will be able to remain in the existing facility for an amount of time negotiated with TxDOT. TxDOT will assign a relocation assistance counselor who will provide current listings of other available properties (if requested).</p> <p>Sloan Memorial United Methodist is planning to rebuild the church on a portion of the property that would not be acquired by TxDOT. Consequently, the Helping Hands Charity could relocate to the new church building or move its building to a location on the property that would not be impacted by right-of-way acquisition.</p> <p>The property owner will be justly compensated for their property and be reimbursed for moving costs and certain related expenses. The property owner can also be eligible for reimbursement of reasonable searching expenses for replacement property, up to \$2,500. The property owner may also be eligible to receive a payment for reestablishment expenses incurred in searching for a replacement property (not to exceed \$25,000).</p>
Huynh Vietnamese Restaurant	N	Y	N	Y	Y	Y	1	3	Concerned about loss of prime location for the restaurant, loss of established client base and skilled employees (due to relocation), finding a suitable place and the cost to relocate. Desire new location in close proximity to current location. The restaurant owners own the shopping center and are concerned about relocation benefits for their tenants.	<p>TxDOT will provide the business (a tenant occupant) with a relocation notification package.</p> <p>TxDOT will assign a relocation assistance counselor who will provide relocation information and assistance explaining tenant entitlements under the relocation assistance program.</p> <p>The property owner will be justly compensated for their property and be reimbursed for moving costs and related expenses. The property owner can also be eligible for reimbursement of reasonable searching expenses for replacement property, up to \$2,500. The property owner may also be eligible to receive a payment for reestablishment expenses incurred in searching for a replacement property (not to exceed \$25,000).</p>

Woodland Christian Towers	Y	N	Y	N	N	Y	0	1	Concerned about potential loss of access to the property, and loss of access to bus stops for seniors and disabled residents.	<p>TxDOT reviewed locations of nearby bus stops (within one mile of the facilities). Those on the east side of I-45 are located on Tidwell Road, Airline Drive, Berry Road, Nordling Road, and Lyerly Street; these bus stops would not be impacted by the proposed NHHIP. Nearby bus stops on the west side of I-45 along the frontage road are at the Tidwell Road and Parker Road intersections; these bus stops would be displaced by the proposed NHHIP.</p> <p>TxDOT coordinated with METRO during the planning phase to discuss potential impacts to public transit, and will continue to coordinate during design and construction. METRO will reestablish bus stops as close as possible to current stops, if the bus stop is needed. METRO will notify the public of upcoming temporary and permanent changes to the locations of bus stops, and changes to routes. METRO sends notifications of route detours to persons who register to receive them. They also put information on social media (Twitter, Facebook) and distribute flyers on the bus routes.</p> <p>TxDOT will communicate with adjacent property owners through TxDOT's Public Information Office (PIO) during construction activities.</p>
Historic Hollywood Cemetery	N	Y	NR	N	N	N	0	2	Owner did not respond.	No specific action was identified.
Holy Cross Cemetery	N	Y	NR	N	N	N	0	2	Owner did not respond.	No specific action was identified.

*TxDOT met with representatives of the Mexican Consulate. No additional outreach was conducted by the NHHIP Study Team.

Summary

Public Involvement and Agency Coordination

6.1. Engagement Efforts

The headings below provide a snapshot of coordination meetings that were either requested by community groups, open meetings concerning EJ issues, or resulted in considerable project design changes. Given the varying levels of coordination and total number of meetings, this is only an overview of TxDOT public involvement strategies over time. Table 2 summarizes the additional community outreach efforts between February 2017 and August 2019.

February 2017: TxDOT sent coordination letters to community organizations/facilities adjacent to or within the proposed right-of-way. The letter described the proposed project, included a project area map and diagram of the Segment 3 Proposed Recommended Alternative, and indicated whether the letter recipient was located within or near the project right-of-way. TxDOT offered to meet to discuss the project and potential impacts to the property and/or services provided, in addition to providing additional information. The outreach letters and mailing lists are included in Appendix A, Exhibit A-2.

September 2017: TxDOT sent a second coordination letter to those who had not responded to the February 2017 letter and were still within or near the right-of-way of the Preferred Alternative for the proposed project. This follow-up letter reiterated that TxDOT was available to discuss the proposed project and potential impacts to the property and/or services provided. TxDOT sent a similar coordination letter to additional community facilities and organizations that were newly identified within the proposed right-of-way of the Preferred Alternative. These letters and mailing lists are included in Appendix A, Exhibit A-3.

December 2017 - July 2018: Because of nonresponse issues from many of the coordination letters from 2017, the Study Team reached out with phone calls and emails beginning in December 2017. Five community centers that are near the project corridor were also contacted. Questionnaires were developed to assist with the discussion and understanding of potential project impacts to the facility, organization, or business and their clients, customers, or members. The Study Team contacted all of these entities by phone and sent questionnaires with varying success at engagement; some did not return the phone call, others were contacted by phone and then were emailed a questionnaire that was not returned, and some provided responses by email.

Several organizations requested a meeting, which TxDOT arranged to ensure awareness of the project and opportunities for participation. This was the case for many of these meetings; when a community group requested a meeting, TxDOT agreed to go to the area with project briefing materials to receive input.

6.1.1. Additional Community Outreach

Impact-specific questions were developed for - and distributed directly to - schools, service providers, places of worship, and businesses for widespread awareness of the proposed project. The questions generally focused on:

Summary

Public Involvement and Agency Coordination

- Respondent's knowledge of the proposed project
- Demographic information
- Customers/clients served
- Locations where clients/customers reside
- Length of time the entity has operated or been at the current address
- Number of full and part-time employees
- If they are displaced, would they like to remain in the same area
- Specialized needs to relocate
- How they feel the proposed project would affect their customers and clients

The majority of respondents explained that they primarily serve or otherwise include EJ populations as part of their normal operations. This indicated that these locations are EJ facilities and ought to be considered as such in the analysis. This broadened the Study Team's understanding from census data, which only provides demographic information for those who live within the study area, potentially overlooking many of those that travel to EJ facilities for work, worship, attend school, or other services.

Nearly all who answered the question concerning relocation stated that they would prefer to relocate within the same area, either because they are well established within the surrounding communities or offer services unique to the area. Specific questions for each type of EJ questionnaire and the responses received are included in Appendix A, Table A-1. Other key information provided by specific respondents is discussed in other sections of this technical report.

6.1.2. Advance Acquisition Notice and Site Visits

June 2018: TxDOT sent another letter to selected community organizations and businesses located with the proposed project right-of-way, advising them that they could apply for advance acquisition of the property. The advance acquisition notification letter and mailing list is included in Appendix A, Exhibit A-4. lists those to which TxDOT sent an advance acquisition letter. Advance acquisition is TxDOT's ability to legally purchase right-of-way prior to environmental clearance or before a determination is made that the property is needed for a particular transportation project. Details on the early acquisition process can be found in TxDOT's ROW Acquisition Manual (Revised January 2019), on TxDOT's website.

It is important to note that the level of follow-up varies because some organizations (e.g., Mexican Consulate) were already coordinating with TxDOT for advance acquisition of their property. Where it was determined that some of these organizations would either not be impacted directly, or minimal indirect impacts are anticipated, outreach was limited to letters and contact by phone.

Summary

Public Involvement and Agency Coordination

July 2018: To overcome low response rates, and design changes that would impact other property owners, site visits were conducted by the Study Team to attempt to contact some of the entities listed in Table A-2. If a person was not available at a location, a notice was left on the door or mailbox. Many of the places of worship could not be contacted during the site visits but later requested meetings by phone or in person. Organizations and businesses provided feedback about how the proposed project could affect their customers/clients, and some met with TxDOT to discuss the project. Resources for further information were offered at the end of meetings, in addition to contact information for follow-up if requested.

November 2018 - May 2019: Additional outreach to places of worship, schools and service providers located within the proposed project right-of-way was conducted by phone interview and/or email to discuss any additional concerns or needs due the proposed project. The interview included a question about clarification of relocation procedures and benefits. Many staff or volunteers at these organizations asked that the TxDOT Right of Way Division provide additional detail about relocation procedures and benefits, and others asked for meetings with TxDOT. Many of the organizations requested advance acquisition of their properties, which TxDOT is actively reviewing and following the procedures under its guidelines.

6.1.3. Housing and Affordability

Housing affordability within the NHHIP project area was frequently raised in conversations with the public. Long-term, low income, and minority households all face an increased risk of involuntary displacement as a result of increasing housing/property tax costs and other gentrification pressures. Transportation systems have associations with both of these issues, providing connections between housing and employment centers and other opportunities is one example. For this reason, along with the level of community concern over this issue regarding this project in particular, TxDOT included the question on the graphic below on the mitigation survey. Results show general support from survey respondents on the need for NHHIP to address this problem, and TxDOT is further evaluating mitigation strategies accordingly.

Summary

Public Involvement and Agency Coordination

Do you feel like the lack of affordable housing is a problem that this proposed project should address?

TxDOT has coordinated with Houston Housing Authority (HHA) consistently throughout project development. Discussions focused on updates on planned relocation for housing, addressing new concerns or needs of HHA or residents, and additional suggestions or information needed for inclusion in this analysis.

Public and low-income housing units are approximately 60 percent of the housing displacements in Segment 3. The Preferred Alternative would displace public and low-income housing units at Clayton Homes, Kelly Village, Midtown Terrace Suites, and the Temenos Place Apartments II. The Temenos Place Apartments II is managed under a non-profit organization that offers affordable housing for low-income individuals, homeless individuals, and persons

Summary

Public Involvement and Agency Coordination

with disabilities. The Temenos Place Apartments II were constructed during the analysis of the 2017 CIA Technical Report and Draft EIS; therefore, this development was not included in the previous study as a potential displacement.

In general, HHA does not have sufficient housing supply to meet the current demand for public housing units. The average wait period for public housing (public housing that is not specifically for elderly or disabled persons) is 18 months to two years. For one-bedroom apartments, the wait period is typically longer than two years. The average wait period for senior living communities is six to nine months (HHA 2016).

TxDOT has held four meetings to date with HHA staff to discuss potential impacts to Clayton Homes and Kelly Village. TxDOT is coordinating with the HHA for advance acquisition of the Clayton Homes property and a portion of Kelly Village property. HHA is planning to build or refurbish new subsidized housing within one mile of Clayton Homes and Kelly Village. Clayton Homes is currently located within an area prone to flooding, and some units were deemed uninhabitable after they were damaged by Hurricane Harvey in August 2017. HHA is looking for property near Downtown.

6.1.4. Homelessness

A Meeting with the City of Houston Mayor's Office for Homeless Initiatives was held in December 2018. The meeting focused on addressing potential impacts to homeless populations that live in encampments in the proposed project right-of-way. Such meetings resulted in recommendations for specific groups and initiatives to partner with for relocation, such as "The Way Home", which has a goal to provide support services and housing for people experiencing homelessness within the City of Houston. TxDOT met with the City of Houston Mayor's Office for Homeless Initiatives and the Coalition for the Homeless of Houston/Harris County, which is the lead agency for obtaining and managing Federal and other funding and serves as the lead agency for "The Way Home" Continuum of Care program. At these meetings, the potential impact of the project to homeless persons was discussed. TxDOT will continue to coordinate with the City of Houston and homeless services providers to develop a plan to assist in the relocation of this with no-to-extremely low-income population in a safe and sensitive way.

6.1.5. Schools of Concern

In May 2019, TxDOT met with representatives of Houston Independent School District (HISD) and Aldine Independent School District (Aldine ISD). TxDOT discussed the proposed project and potential positive and negative impacts to schools within 500 feet of the proposed project. Students at these schools are predominately minority students, many of whom are economically disadvantaged or otherwise vulnerable. During these meetings, TxDOT offered to meet with additional school representatives to discuss specific concerns and issues, such

Summary

Public Involvement and Agency Coordination

as the timing of the relocation process and how it could interrupt or impact class schedules, and safe school crossings.

A follow up meeting with school representatives from HISD's Jefferson Elementary took place on June 6, 2019. Topics discussed included history of the school, student transportation to/from the school, and school priorities. TxDOT is continuing to coordinate with HISD and Aldine ISD. TxDOT has commitments that include ongoing public coordination with schools.

In June 2019, TxDOT met with representatives of Alpha and Omega Christian Academy which is affiliated with Centro Cristiano Church. The school and church would be displaced as a result of the proposed project. Alpha and Omega Academy has an enrollment of approximately 40 students from Pre-K through 12th grade, most of whom speak Spanish. TxDOT is coordinating for advance acquisition of the property, which would allow the school to rebuild a new school prior to displacement and without disruption to classes. Centro Cristiano Church would relocate along with Alpha and Omega Academy.

6.1.6. Multi-Family Communities

TxDOT conducted phone interviews or in-person meetings in May and June 2019 with staff or property owners at multi-family apartment communities that would be partly or entirely displaced by the proposed project. Sixteen multi-family communities were contacted, including five that are already working with TxDOT for advance acquisition of property. The remaining properties were contacted by phone and/or through in-person interviews. Seven facilities were contacted, four through phone interviews and three through in-person interviews. Four properties were visited but no contact with a leasing office, property owner, or resident occurred because two properties did not have a leasing office, and two properties were unoccupied. The Study Team recognizes that most of these residents should be assumed to be renters and has therefore considered them as such in the potential displacements analysis.

Completed questionnaire responses and other comments are summarized in Appendix A, Table A-1. Table 2 indicates those who participated in a phone interview and/or completed a questionnaire or other response.

7. RECENT PUBLIC INVOLVEMENT

7.1.1. Noise Meetings - 2019

TxDOT is proactively responding to community concerns about potential traffic noise impacts by holding informational noise meetings with adjacent affected property owners. These meetings occurred earlier than the typical noise workshop process to both provide information to residents, and to receive feedback on proposed traffic noise mitigation. The noise meetings also served as opportunities to provide general project information as discussion topics included concerns beyond traffic noise barriers, such as flooding and drainage. Meetings for

Summary

Public Involvement and Agency Coordination

proposed barriers in Segment 3 were held in 2019 due to the construction schedule for that segment. Those dates are listed below:

- June 4th — Young Women’s College Preparatory Academy
- July 16th — Yellowstone Academy
- August 6th — Fifth Ward Multi Service Center
- August 15th — Baker Ripley Leonel Castillo Community Center
- August 20th — Third Ward Multi-Service Center

A Noise Meeting Summary Report is available for review at the Houston District Office. Noise workshops, where property owners and residents officially vote for or against a proposed abatement measure, will still be held after environmental clearance for the project.

7.1.2. City of Houston and Mayor’s Steering Committee

In June 2019, the City and TxDOT co-hosted two public meetings (June 20 and 26) to provide an overview and status update of the project, and to inform the public about the City-led engagement process for NHHIP. Mayor Turner initiated a Steering Committee to direct a series of meetings among various stakeholders within the project area, including TxDOT. The process is intended to gather information and further input to ultimately provide recommendations to the Mayor’s Office.

Although TxDOT has met with many of these stakeholders previously, such efforts are necessary to address the challenges in reaching residents that have been historically under-represented in government decision making. EJ populations often experience unique barriers to participation in the standard process of state agencies. Partnerships with HHA, COH, and other stakeholders helps overcome these barriers by working through existing relationships and well-established communication methods.

7.1.3. Other Community Outreach Events

TxDOT has also hosted and participated in public involvement events coinciding with the beginning of COH engagement during the summer of 2019. TxDOT hosted meetings with Super Neighborhood representatives, elected officials, and other invitees to provide an update about the proposed project, including updates about community impacts and proposed and potential mitigation measures. At the National Night Out and Back to School events, TxDOT provided project newsletters and solicited feedback about potential mitigation measures via a survey (see section below for more information).

Summary

Public Involvement and Agency Coordination

Table 3: Community Outreach – June – August 2019

Event	Date	Location	Attendance
Residential and Community Interface Meeting	June 6, 2019	Houston Community College Central Campus	20
Residential and Community Interface Meeting	June 8, 2019	Leonel Castillo Community Center	58
Residential and Community Interface Meeting	June 11, 2019	Partnership Tower	22
Residential and Community Interface Meeting	June 13, 2019	Empowerment Community Center	18
Independence Heights Super Neighborhood Meeting	June 18, 2019	Independence Heights Community Center	15-25
Third Ward Super Neighborhood Meeting (includes Greater Third Ward Super Neighborhood leadership and committee leaders)	July 18, 2019	Third Ward Multi-Service Center	17
National Night Out - Precincts 1, 2 & 6 (Near Northside/5th Ward/EaDo/East End)	August 6, 2019	Constable Precinct 6 Office	30+
Fifth Ward Super Neighborhood Meeting with Senator Miles*	August 7, 2019	Fifth Ward Multi-Service Center	100+
Near Northside Back-to-School Event	August 9, 2019	Castillo Community Center	63 Adults, 172 Children
Fifth Ward Super Neighborhood Workshop with Senator Miles	August 28, 2019	Fifth Ward Multi-Service Center	62

Note: *Given the high turnout at this meeting, TxDOT again worked with Senator Miles' office to co-host a second meeting at the same venue on August 28. The format was changed to a three hour, come-and-go workshop to facilitate the most one-to-one interactions.

TxDOT's public involvement methods have expanded and become more flexible in response to the observed limitations of standard procedures. The intent is to increase the cross-section of participants to meaningfully involve EJ and other vulnerable populations. The high rate of attendance at the initial meeting co-hosted with Senator Miles is likely due to the sharing of the event with the Senator's established district networks. These community workshops and other additional opportunities for input as part of the Mayor's Steering Committee have already provided valuable insight to TxDOT, as concerns and suggestions have developed alongside the project itself.

7.1.4. Mitigation Feedback - 2019

Community members were surveyed on topics based on feedback gathered since the publication of the Draft EIS. As mitigation options are developed, TxDOT is making sure that the current options included are feasible and relevant to the area in question, and that it builds upon and addresses priority concerns as identified by the community in previous public involvement efforts. The survey was intentionally designed to be brief, thus avoiding time investment as a potential barrier for EJ communities. The Study Team also attended two back-to-school events in August to conduct intercept surveys with mobile tablets for respondents to quickly complete surveys. These annual resource fairs are well attended by minority households and people with low-to-moderate incomes. TxDOT also attended the August National Night Out community building event at for Precincts 1, 2, and 6 (covering the Near

Summary

Public Involvement and Agency Coordination

Northside, 5th Ward, EaDo and East End neighborhoods). At all of these events, Study Team members distributed the project newsletter and handout with the survey URL code, in both English and Spanish. Spanish-speaking Study Team members were able to speak with the people with limited-English proficiency or who preferred to speak Spanish. Some attendees completed the survey at the events and others took the URL handout to complete the survey later.

The survey was promoted in a newsletter email distribution sent to more than 6,500 subscribers who previously indicated interest in receiving project updates, which considerably increased responses.

The survey closed on September 20, 2019 after being live for six weeks. Information collected at these established community events likely resulted in more exposure and survey responses from underrepresented populations than traditional outreach methods. In addition to strengthening the overall validity of the survey and further refining mitigation options, the Study Team is able to better understand who lives in the project area, along with their concerns and hopes for the project. However, what proves to be effective for one community might not be as effective in another, which is one of the reasons for including a question about which neighborhood the respondent lives or does business in. Because Houston is one of the most diverse cities in the country, working with groups that have connections within specific communities is one of the most practical ways to quickly and effectively engage the public, especially EJ populations. This has included coalitions of concerned citizens, nonprofits, management districts, neighborhood associations, Complete Communities coordination meetings, and many others. TxDOT is committed to continuing to work with local leaders and representatives of community facilities, housing, and businesses used by EJ communities to support the implementation of drafted mitigation measures.

The full and fair participation of EJ communities in the planning process to ensure that their priorities are addressed from the system-planning stage through the project-development stage. Nearly all invitations from interested parties to present NHHIP briefings or more specific project information was met with Study Team staff in some capacity. In fact, current design reflects many design changes and features that are a direct result of the coordination with and requests by stakeholders.

8. OUTREACH DURING CONSTRUCTION

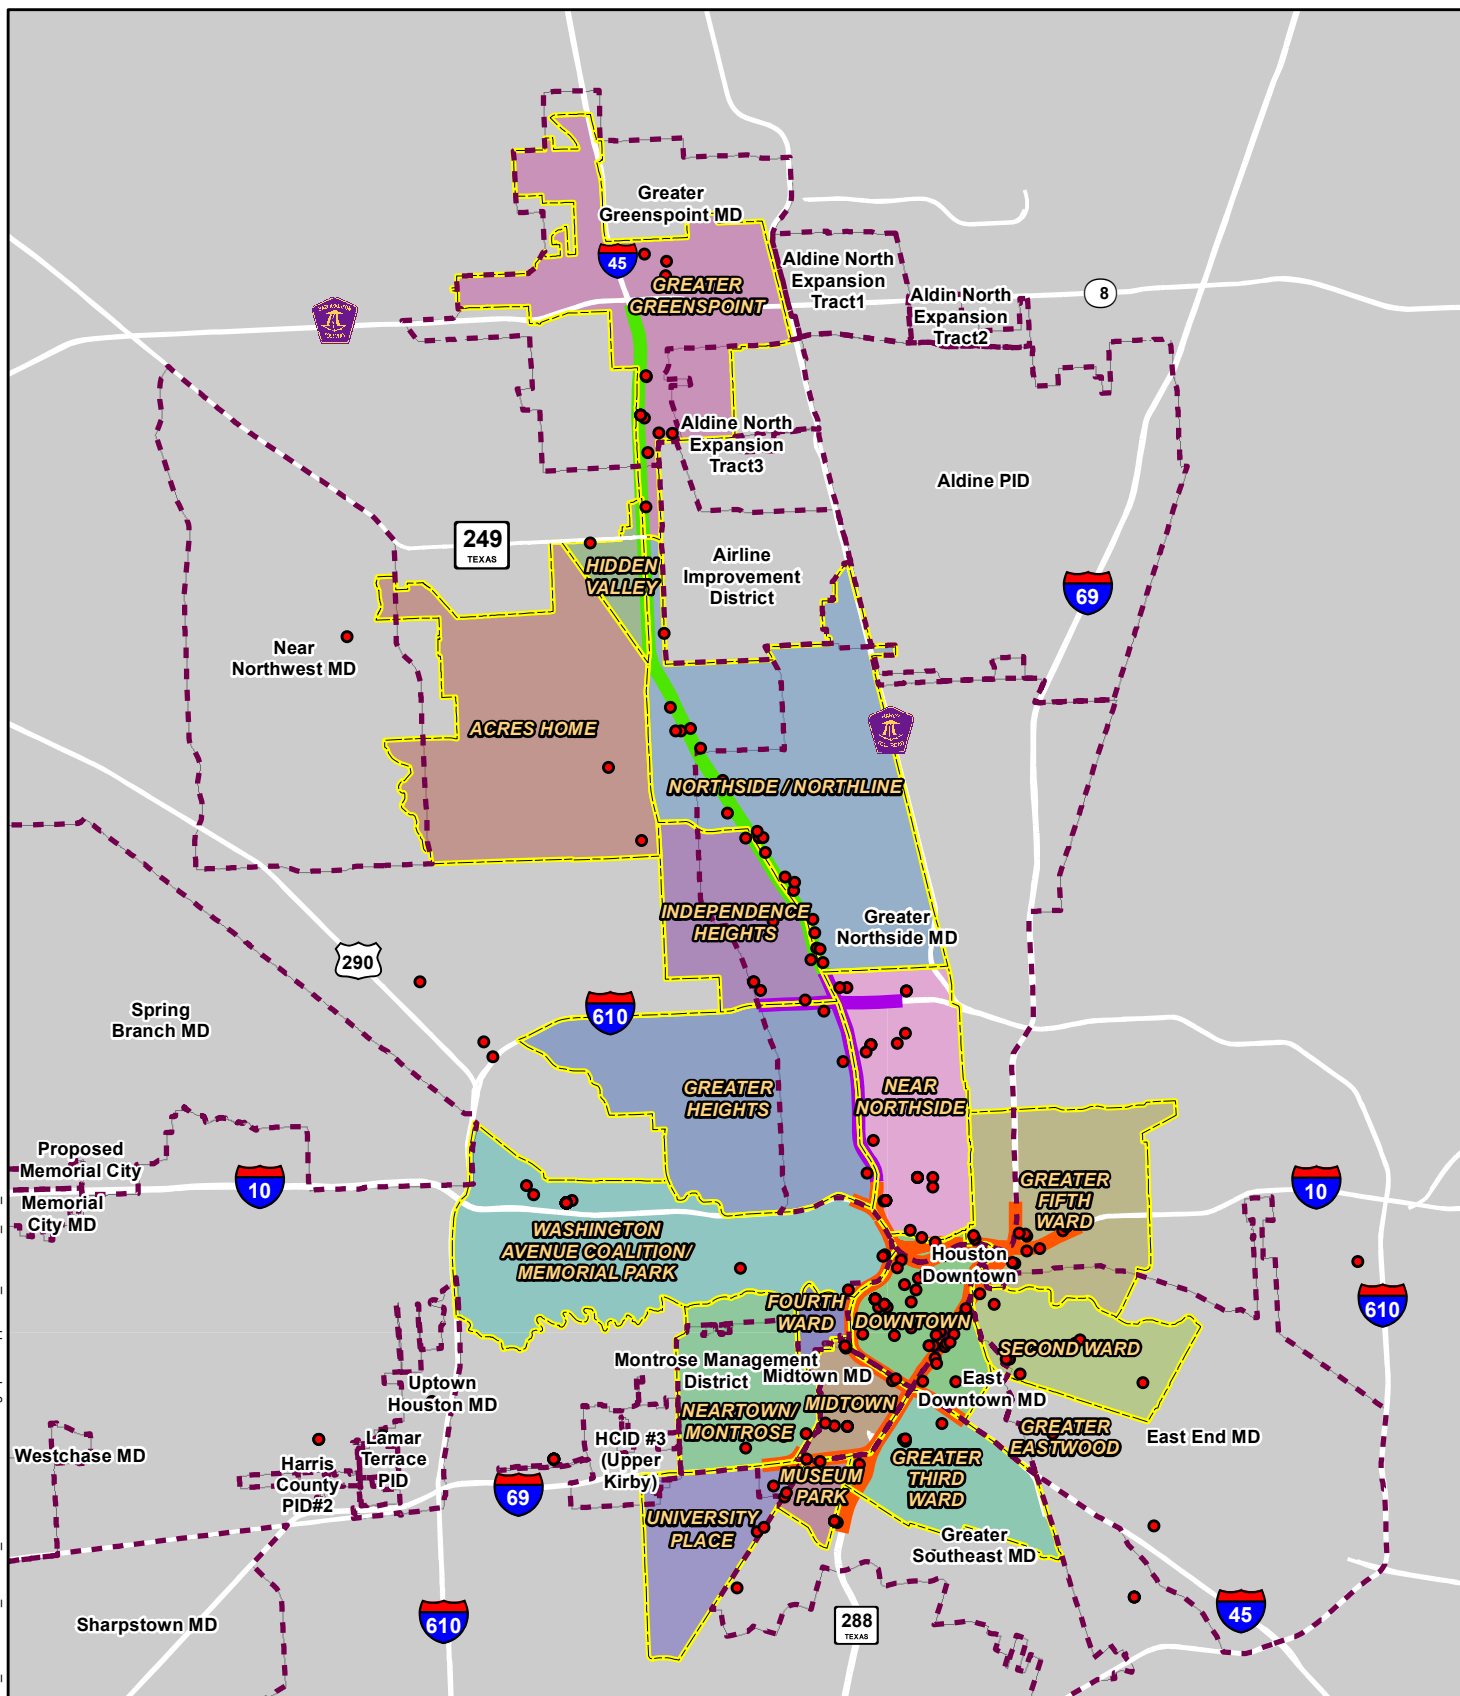

Because public interest in transportation projects is usually at its highest during construction, TxDOT will continue outreach efforts with as much advance notice as possible. When construction timelines are established, TxDOT will work to accurately and thoroughly communicate important information such as alternative routes, detours, and the maintenance of property access during construction. This includes safe and efficient connections to and through neighborhoods during construction for all modes of transportation, including bicycles and pedestrians.

Summary

Public Involvement and Agency Coordination

Outreach efforts will be developed with partners such as METRO to inform the public about transit changes. Rider alerts and other media advisories will communicate new routing information, the potential for service delays and more crowded buses, and mitigation measures to anticipate and address these impacts. Coordination with local government programs and bicycle/pedestrian groups will also be used to circulate information about construction activities using a variety of proven techniques such as changeable message signs, maintaining a project web page, email newsletters, traditional and social media, and broadly distributed flyers with population and impact-specific commitments listed in Tables 6-1 to 6-3.

Since the hearing on the Draft EIS, more than 2,400 concerns and other comments have been considered in the Final EIS documentation, but this does not signal the end of TxDOT's public involvement activities.

RE: Environmental Impact Statement
North Houston Highway Improvement Project
I-45: From Beltway 8 to I-10
Control 0912-00-146

Dear «Affiliation»:

The Texas Department of Transportation (TxDOT) is preparing an Environmental Impact Statement for the North Houston Highway Improvement Project, a proposed project in Harris County, Texas. A portion or all of your property is located in the proposed right-of-way of the proposed project. We are available to talk with you about the proposed project and the potential impact to your property and/or services provided at your facility.

The proposed project would add four managed express lanes to I-45 from Beltway 8 North to I-10 and would realign portions of sections of I-45, I-10 and US 59/I-69 in the downtown Houston area. The proposed project also consists of improving connections to SH 288 and US 59/I-69 south of downtown Houston. Included with this letter are a project area map (see page 2) and an illustration of the concept of the proposed recommended alternative in the downtown Houston area (see page 3). Additional information is available on the project website: www.IH45northandmore.com.

For additional information about the project, or to schedule a meeting, please contact me, at (713) 802-5241 or Kelly Lark, at (713) 802-5989.

Sincerely,

Pat Henry, P.E.
Director of Project Development
Houston District

RE: North Houston Highway Improvement Project Early Acquisition Requests
Harris County
US 59/I-69: At Spur 527 to I-45 at Beltway 8 North
Control 0912-00-146

Dear «Salutation»:

The Texas Department of Transportation (TxDOT) is preparing an Environmental Impact Statement (EIS) for the proposed North Houston Highway Improvement Project (NHHIP) in Harris County, Texas. The proposed project would add four managed express lanes to I-45 from Beltway 8 North to I-10 and would realign portions of sections of I-45, I-10 and US 59/I-69 in the downtown Houston area. The proposed project also consists of improving connections to SH 288 and US 59/I-69 south of downtown Houston. Included with this letter is a project area map (attachment). Additional information is available on the project website: www.IH45northandmore.com.

A portion or all of your property is located within the proposed right-of-way (ROW) of the project. As TxDOT continues the preparation of the EIS, we want you to be aware of an option available to you for the early acquisition of your property.

ROW acquisition is estimated to begin in certain areas in early to mid-2019; however, acquisition in some areas may not be initiated for a number of years. There is an option available for land owners to request early acquisition of their property in which the property could be acquired sooner. If you are interested in the early acquisition of your property, please notify TxDOT in writing. Once a letter requesting early acquisition is received by TxDOT, our ROW department will begin the process. Letters can be sent to, Director of Advanced Project Development, P.O. Box 1386, Houston, Texas 77251-1386.

For additional information about the project, or to schedule a meeting, please contact Pat Henry, at (713) 802-5241 or Kelly Lark, at (713) 802-5989.

Sincerely,

Pat Henry, P.E.
Director of Project Development
Houston District

Attachment

cc: Kelly Lark

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327, and a Memorandum of Understanding dated December 16, 2014 and executed by FHWA and TxDOT.

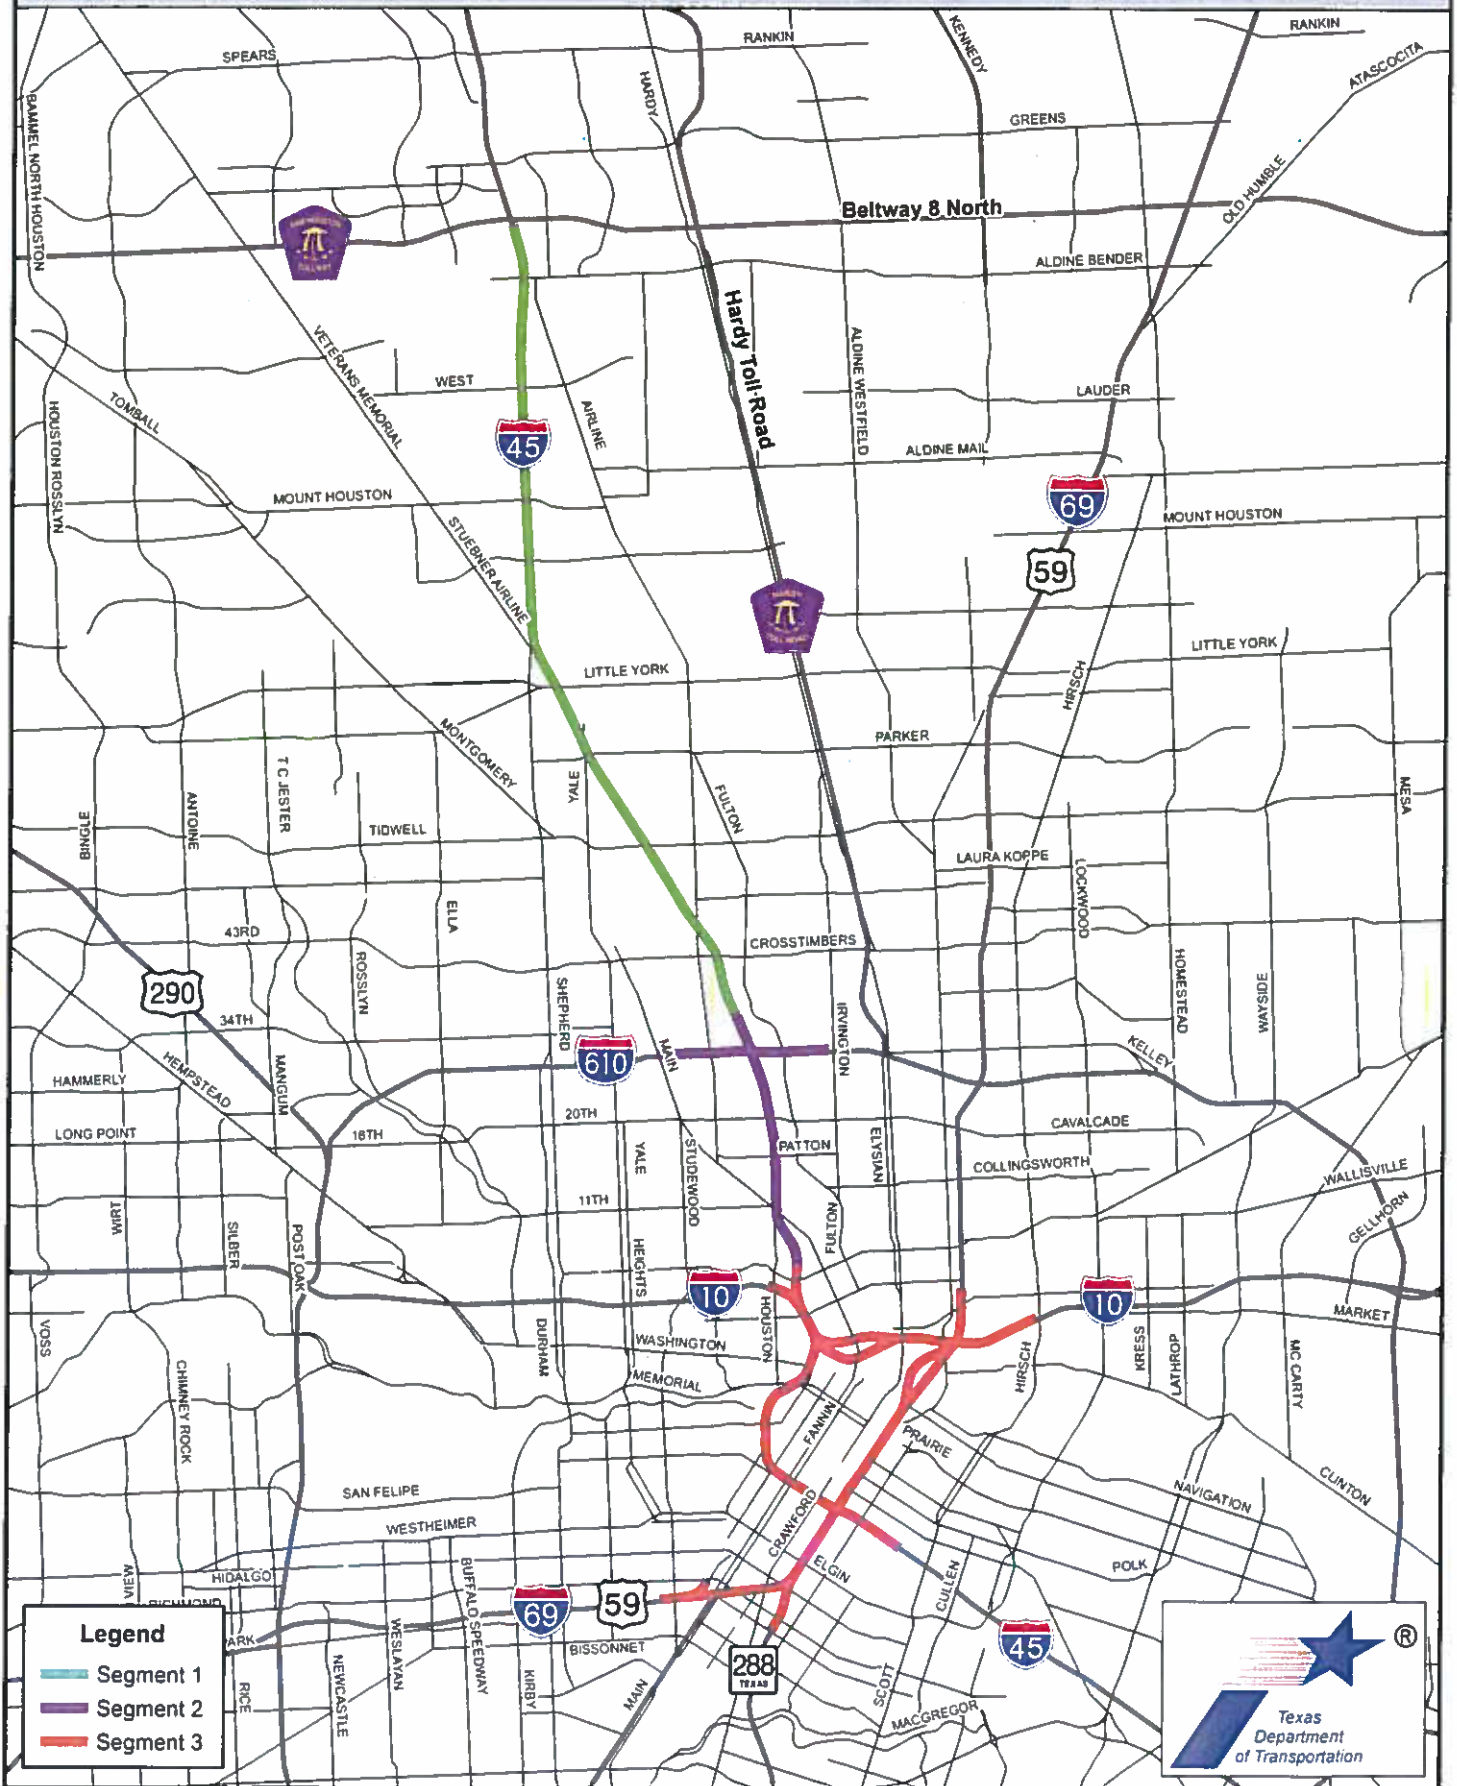

OUR VALUES: People • Accountability • Trust • Honesty

OUR MISSION: Through collaboration and leadership, we deliver a safe, reliable, and integrated transportation system that enables the movement of people and goods.

An Equal Opportunity Employer

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Place of Worship Questionnaire						
Questions:	Respondents:					
	Unity Spirit Missionary Worship Center Dr. Cecil Collins Phillips, Senior Pastor	Centro Cristiano Church Benjamin Cowpersmith, Assistant Pastor	Faith Tabernacle Church Debbie Reynolds, Pastor	Adath Israel and Adath Emeth Cemeteries Jeff Klein, Executive Director	Greater Mount Olive Baptist Church Joseph R. Johnson, Pastor	Goodwill Missionary Baptist Church Joseph Harvey, Assistant Pastor
1. Have you heard about the proposed North Houston Improvement Project?	No. AECOM provided a map showing the place of worship in the project right-of-way and Kelly Lark provided a project explanation.	Yes.	Yes. Attended one of the public hearings and spoke with relocation staff from TxDOT right-of-way department.	No.	Yes.	Yes. TxDOT provided a map of the proposed right-of-way in relation to the place of worship.
2. How do you think the project would affect your place of worship?	They would like to relocate in the area. They were planning to do some renovations to their property but would like to know if TxDOT will cause their place of worship to be relocated before they make updates to the place of worship. Dr. Phillips would like to start looking for a place to relocate now. They want flexibility to purchase another property, if a good location is available. The property owner would prefer the property be acquired by TxDOT rather than be avoided. The location of the place of worship is close to Halls Bayou but they said because the place of worship is on a hill it was not impacted by Hurricane Harvey or previous storms.	Most if not all of our buildings will be demolished. If we were to rebuild on the back portion of the property, we would have less area for community social activities and sports.	They would like to remain/relocate near current location since it is a central location. Ms. Reynolds is also worried about loss of access to highway frontage road because it is convenient for current and future members getting to the place of worship. Ms. Reynolds said the frontage road location is more visible and safer for members, with less criminal activity.	Mr. Klein was concerned about changes in traffic flow during construction and access to frontage roads on IH 610. Both cemeteries have gates that are locked without a code or prior notice. Mr. Klein asked how the driveways to those gates might be impacted. Mr. Klein also expressed concern about impacts to funeral procession routes during construction. Mr. Klein explained that Adath Israel and Adath Emeth cemeteries are the only cemeteries in the Houston area that can offer an official Orthodox Jewish burial.	Drastically, we would lose founding members of place of worship along with other members. It will affect us financially and emotionally as we are the oldest place of worship in the community; moving Greater Mt. Olive will be moving Independence Heights' Historical Landmark.	They want to remain/relocate in the same general area because the place of worship was originally founded in the Fifth Ward neighborhood. They want to find a place where there would be sufficient parking because parking is very limited at the current location. This current location of the place of worship was already impacted by the expansion of I-10, which limited parking and square footage of the place of worship.
3. Do your members reside in a specific neighborhood? If so, which?	Acres Home; Other: Aldine Bender, Missouri City, and other areas of Houston.	Greater Greenspoint; Independence Heights; Northside Northline; Near Northside	Acres Home; Other: Many congregation members live in North Houston near US 290 and Beltway 8.	The Adath Israel and Adath Emeth cemeteries serve several Modern Orthodox Synagogues in the greater Houston area.	Greater Greenspoint; Greater Fifth Ward; Acres Homs; Independence Heights; Other: Southpark, Humble, Spring, Settegast	Other: Kashmere Gardens, southwest Houston, and other areas of Houston.
4. Tell me about your congregation: a. How big is your congregation? b. Do you serve a specific ethnic group or provide services in languages other than English? c. How long have you been at your current location?	a. Approximately 75 - 100 members. b. Congregation is primarily African American and services are in English. c. 18 - 20 years.	a. Approximately 416 members. b. Congregation is primarily Hispanic and almost all services are in Spanish. Some youth events and activities are offered in English. c. 18 years; the place of worship opened at this location in 2000.	Non-denominational Christian a. Approximately 100 - 120 members. b. Congregation is primarily African American and services are in English. c. 20 years, currently leasing this property. Prior to this location, the place of worship was in the Acres Home neighborhood.	a. The cemeteries serve several synagogues from the greater Houston area. The cemeteries have available plots, so there are still burial services occurring on both properties. Mr. Klein estimated that there are burial services about once a month, however, the cemeteries are usually open to those that want to pay their respects. The cemeteries never have burial services on Saturday. c. The Adath Israel cemetery was established in 1910. The Adath Emeth cemetery was established in 1905.	a. Approximately 190 - 200 members. b. No. c. We have been in Independence Heights for 115 years.	a. Approximately 100 members. b. Congregation is primarily African American. c. 58 years.
5. How many full and part time employees currently work at your place of worship?		2 full-time 4 part-time	No full- or part-time employees, all volunteers.	Mr. Klein explained that the only dedicated staff for the cemeteries are the yard/lawn crew that maintain the grounds every other week. There are staff that work for the United Orthodox Synagogues of Houston that sometimes do work with the cemeteries, but that is not their full-time position.	2 full-time Numerous volunteers	No full- or part-time employees, all volunteers.
6. How many people and/or families are member of (or attend) your place of worship?	Approximately 20 families, 75 - 100 members.	Approximately 92 families; 416 members.	Approximately 15 - 20 families, 100 - 120 members.	Not applicable.	Up to 197 members.	Approximately 20 families.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Place of Worship Questionnaire						
Questions:	Respondents:					
	Unity Spirit Missionary Worship Center Dr. Cecil Collins Phillips, Senior Pastor	Centro Cristiano Church Benjamin Cowpersmith, Assistant Pastor	Faith Tabernacle Church Debbie Reynolds, Pastor	Adath Israel and Adath Emeth Cemeteries Jeff Klein, Executive Director	Greater Mount Olive Baptist Church Joseph R. Johnson, Pastor	Goodwill Missionary Baptist Church Joseph Harvey, Assistant Pastor
7. Tell me about your place of worship's community involvement: a. Do you hold any social or other community events at your place of worship? b. Do you provide social services like a food pantry or something similar? c. Do you serve as a meeting or event space for the community?	a. The place of worship only has events for members of the congregation, however, they also have a separate Foundation which benefits place of worship members that want to obtain scholarships.	a. The place of worship does host several events for the community, such as holiday celebrations and sporting events. The place of worship also offers English as a second language and citizenship classes. b. The place of worship has also provided food and clothing to the surrounding neighborhoods/communities in times of disasters, like hurricanes or flooding.	This place of worship engages in several community activities (see list below). They are in the process of developing a separate non-profit for outreach to the community. (1) Halloween- they invite the local community for a party. (2) Vacation Bible School open to the public. (3) Host party for Houston Public Library with games, free books, and videos for local youth. (4) Provide financial assistance, food, housing, clothing, and haircuts to local low-income and homeless individuals including residents that were living at Northline SRO across I-45 from the place of worship. (5) During Hurricane Katrina, was a temporary shelter for displaced families	Not applicable	a. - Yes. We offer all these services. We are a part of the Independence Heights Ministers Alliance. b. Food and toy giveaways c. We serve as a community meeting place and volunteer meeting place.	a. The place of worship only has events for members of the congregation. b. No. c. No.
8. How do your members primarily get to your facility?	Own car	Walking; Own car	Walking: local community members needing assistance will walk to the facility; Own Car; Other: 18 passenger van used to pick up people for events.	Own car	Taxi/Uber; Walking; Own Car; Friend/Neighbor's Car; Public Transportation	Own car; Other: a few congregation members use METROLift.
9. If your place of worship would be displaced, would you want to relocate near your current location?	Yes; would like to remain somewhere in the area due to the central location to members.	Yes; they would like to relocate in the same neighborhood. We have many members who live close to the place of worship. We are in a central location in the city, and often host conferences with people coming from other place of worshipes around the city. It will probably be difficult to find a location like this nearby, so we might have to stay and use the back portion of our property.	Yes; they would like to remain/relocate somewhere in the area because it is a central location and is easy access for members.	Not applicable - cemeteries will not be displaced.	Yes; or: Spring, TX; Cypress, TX; Greater Heights; Upper Sheperd	Yes; they would like to remain/relocate in this area. The place of worship's congregation historically comes from the Fifth Ward and the place of worship wants to stay in the same area to retain that connection to the community. They are interested in potentially moving to property down the street which was occupied by Bruce Elementary, and which is now an empty lot. This place of worship is located in an area that is experiencing gentrification; the place of worship is across the street and next door to brand new townhomes.
10. Does your place of worship have any special needs to relocate?	No specialized needs.	As a predominately Hispanic congregation, soccer is a big part of our culture. We would like to continue to have enough space to play.	The place of worship has several large storage containers that would need to be moved. These containers store tents, clothes, chairs, and other materials used during outreach events.		We would need storage, moving company, architects, contractors, and other special needs to relocate and rebuild.	If possible, the place of worship has A/V equipment that would take extra time and care to move.
11. Do you have any questions?	TxDOT) iscussed the right-of-way acquisition process with the Dr. Phillips and his wife. AECOM gave Dr. Phillips the project website address as a resource for information and updates on the project. Dr. Phillips requested that all mail be sent to his home address, since they are having problems with people tampering with the place of worship mailbox.	We have requested early acquisition because we are planning on doing remodeling of our current buildings. Early acquisition would allow us to rebuild on the back part of our property or start looking for somewhere to move to.	TxDOT discussed the right-of-way acquisition process and tenant relocation benefits with Ms. Reynolds. AECOM gave Ms. Reynolds the project website address as a resource for information and updates on the project.	AECOM gave Mr. Klein the project website address as a resource for information and updates on the project.		TxDOT provided information about the project timing/schedule and the property appraisal process to Mr. Harvey.
12. Follow-up needed?	No.		No.	No.		No.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Service Provider Questionnaire									
Questions:	Respondents:								
	SEARCH Homeless Services	Woodland Christian Towers-CCH	Texas Health and Human Services	Helping Hands Charity Center - Sloan Memorial United Methodist Church	Loaves and Fishes - Magnificat Houses, Inc.	Midtown Terrace Suites - Cloudbreak Communities	Harmony House, Inc.	Temenos Place II	Fatima House
	Thao Costis, CEO	Frankie Hamilton, Community Manager	Jackie Ross, Program Supervisor	Relia Scott, Trustee	David Taylor, Immediate Past President	Ralph Cooper, Veterans Services Coordinator Patricia Acuna, Property Manager	Meg Pohodich, CEO	Catherine Flowers, Ministry Partner - St. John's United Methodist Church	Lee Cowden, Real Estate Department Archdiocese of Galveston-Houston
1. Have you heard about the proposed North Houston Highway Improvement Project?	Yes.	Yes.	No.	Yes.	Yes.	Yes. Mr. Cooper attended previous public meetings.	Yes.	Yes.	Yes.
2. How do you feel the project would affect your organization and clients?	Will need to move. Will disrupt business and client's ease of access to our services. Will create some communication/brand challenges as we just built this new building and have been at this location since June 2016.	It may limit the access to our property. We have seniors and disabled residents that rely on public transportation.	Displacing the Texas Health and Human Services office should not impact most people because they can get assistance online and over the phone. However, those who are homeless and very low-income may not have a phone or have a hard time going to an office where they can apply in person with staff for assistance.	Displacing Helping Hands would be a big problem – we would have to operate the charity out of our homes. At one time there was a place of worship on this property; they raised funds to build a new modular building in 2019. Currently, place of worship services are held in Kashmere Gardens, but the place of worship plans to rebuild on its property. If Helping Hands is displaced by the NHHIP, they would need to relocate the charity to the new place of worship location or move the building to an area of their property not impacted by ROW acquisition.	It would affect our fund raising, significantly increase our operational budget, require us to add staff and to solicit more volunteers, and put our current pool of dependable and faithful volunteers in an overwhelming situation.	We are in the business of helping veterans and others in need with housing and other services. This project would be taking a very vulnerable group of individuals and placing them in to a worse situation. If housing is not provided to these individuals it could be a life or death situation because there are no facilities that offer these same services. Many of these individuals do pay rent, and they receive other medical services for physical and mental health, In the building being displaced there is the front office and recreational room for group events.	Main concern is a current capital project being built on 702 Girard Street. This is being funded by the City of Houston (TIRZ) and other entities construction will be completed in 2019.	No response provided.	The displacement of the Fatima House building would impact the ministry that currently assists Houston's homeless population. The ministry does not hold worship services at this location, but instead uses it as an outreach location for the local homeless persons and meetings held by the Legion of Mary.
3. What type of services do you provide? To whom do you generally provide services to? How many clients do you have? How often do they need your services?	Case management/counseling services to people who are homeless. Annually, we serve over 2,000 clients. Clients' needs are weekly, if not more frequent.	We provide affordable housing to seniors, disabled and homeless people. We have 127 units and currently 69 units are occupied. They need our services monthly.	Provide services to elderly, disabled, those with mental health disabilities, children and families that need temporary and permanent assistance. Some of services include assistance for rent or utility payments. Medicaid, child care, and food stamps. This clinic answers calls from all over the state but serves approximately 40 to 50 walk-in customers a day. Services needed vary and are not limited to a certain number of times a year.	Helping Hands - Has Sunday School and prayer services at their temporary location. They also do philanthropic work such as: back-to-school supply drives for local Fifth Ward elementary schools, collecting coat and hat donations during the winter, and collecting donations for hygiene kits, Helping Hands has church dinners and provides meals to the local community members who are in need. No list of clients is available. There is no client roster or congregation member directory (due to their temporary location). They primarily serve Fifth ward residents, which they say are impoverished, and many are immigrants. Services are provided periodically.	The Loaves and Fishes Soup Kitchen ministers and feeds the most needy among us, offers opportunities for clothing, hygiene needs, dignity, Spiritual worship services, etc. - Serve 3,500 meals a week to homeless and all those in need, 6-days a week - 9 beds for Women in Crisis and in need temporary shelter - The people served primarily are from the streets and many live under US 59/I-69 near the facility but information about all those served is not available. - Provide temporary work those struggling and need dignity in earning a wage. - Provide a central location for other church groups or others that want to help impoverished and homeless.	The currently have 500 residents, in the building that would be displaced, and 57 are disabled veterans who live there due to disabilities such mental illness or physical disabilities. The US Vets helps provide funding for those in the impacted building. This facility has also taken in others with mental health issues due to loss of housing because of Hurricane Harvey. Services are provided daily and Midtown Terrace Suites (Cloudbreak Communities) partners with approximately 60 caseworkers and outside staff partners to help individuals at this community.	We provide housing and medical care to extremely low income and homeless individuals. We have approximately 275 clients at any given time, not including the Harris Health patients that are served at our location.	Temenos Place II is a housing facility that serves low-income populations. The facility works with several programs in the Houston area to provide housing to low-income, fixed income, retired, and homeless populations, as well as veterans. The facility also offers housing to people in need of short-term housing. The housing facility has approximately 200 residents and operates 24 hours a day. The facility also has support staff that provide residents with opportunities such as life skill training seminars, therapeutic classes, and spiritual direction. The facility is mixed-use and mix-income. Approximately one-third of residents pay market rent rates. The remaining residents receive housing assistance from various local and governmental programs.	This facility provides as needed spiritual ministry, including small group spiritual outreach, social programs to assist homeless, prayer rooms, and spiritual counseling.
4. How long has your facility operated at your current address?	1 - 5 years	20+ years	6 - 10 years	137 years	42 years at current location	20+ years	20+ years	1 to 5 years; the facility opened in 2016.	Approximately 58 years; the ministry has been at this location since the 1960s.
5. How many full- and part-time employees currently work at your facility/organization?	75 full-time	5 full-time 1 part-time	43 full-time	No full- or part-time employees. Helping Hands is staffed entirely by volunteers.	Director and a few others live on property and are employed full- or part-time by Loaves and Fishes.	40 full-time (including staff members, case workers, and outside staff partners)	28 full-time		No full- or part-time employees, all volunteers.
6. How do your customers/members/clients primarily get to your facility?	Walking; Other: bus	Other: public transportation	Walking; Own car: Friend/Neighbor's Car; Other: public transportation (METRO) and shuttle busses from facilities that clients live in.	Other: public transportation (Metro lift) and other modes of transportation	Walking; Other: public transportation (METRO), shuttle van provided by Loaves and Fishes	Walking; Other: public transportation	Walking; Other: public transportation (METRO)	Own car; Other: public transportation	Walking
7. If your facility is displaced, would you desire to relocate near your current location? What is the service area or geographic area for the people you assist with services? If you don't relocate in the same area, where would you clients have to go for similar services?	Yes, we would like to relocate very close to current location. Approximately 30% of Houston's homeless population tends to concentrate in the downtown and surrounding area. Their transportation needs and the availability/accessibility to other support agencies are vital to their ability to obtain resources and support to exit homelessness.	If we become displaced then yes we would like to be relocated near our current location. We are in the Northline area. They would have to go further out to find available affordable housing.	Because Texas Health and Human Services is moving towards serving customers online and by phone it is likely that the facility would not re-open. Customers would have to go to the office at 220 Meadowfern or other offices in Houston, approximately 10 miles north on I-45.	They would like to relocate in the same area because they serve the Fifth Ward community and they want to stay close to their original plan of building a new place of worship building on their land. They would relocate the Helping Hands Center to their new place of worship once it is completed.	Yes, Loaves and Fishes would like to relocate in the same area because most of the Houston areas services for homeless or those in need are downtown, and they need to remain where the population is located. Loaves and Fishes is unique because they are the only facility providing this many meals, and the chronic homeless that will not accept housing need food and other services.	If displaced, they would like to relocate near the current location. The service area is primarily individuals in the Harris County. No other facility is available that provides housing and other services for homeless veterans.	Yes. We serve extremely low income and homeless individuals from the surrounding area.	They want to relocate within the same zip code.	Yes; the ministry would like to relocate in the same area because most of the Houston areas services for homeless or those in need are near downtown. They need to remain where the population is located. The ministry would want to be relocated to an area near other service providers so that they could continue their mission.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Service Provider Questionnaire									
Questions:	Respondents:								
	SEARCH Homeless Services	Woodland Christian Towers-CCH	Texas Health and Human Services	Helping Hands Charity Center - Sloan Memorial United Methodist Church	Loaves and Fishes - Magnificat Houses, Inc.	Midtown Terrace Suites - Cloudbreak Communities	Harmony House, Inc.	Temenos Place II	Fatima House
	Thao Costis, CEO	Frankie Hamilton, Community Manager	Jackie Ross, Program Supervisor	Relia Scott, Trustee	David Taylor, Immediate Past President	Ralph Cooper, Veterans Services Coordinator Patricia Acuna, Property Manager	Meg Pohodich, CEO	Catherine Flowers, Ministry Partner - St. John's United Methodist Church	Lee Cowden, Real Estate Department Archdiocese of Galveston-Houston
8. Does your facility/organization have any specialized needs to relocate?	No.	Our residents are elderly and disabled so yes we would need specialized services to assist them if they need to relocate.	No.	No.	Yes, very concerned about how relocating will impact operations. Finding a suitable location will be very difficult and refurbishing that location could be expensive. Also, the previously mentioned increase to operation budget.	Some of the residents are disabled and may need specialized services to assist them during the relocation process.	Close proximity to downtown, a bus line, and other homeless services providers.	No response provided.	No response provided.
9. Do you have any questions?	No.	No.	TxDOT provided information about timing of the project.	No.	No.	TxDOT provided information about timing of the project and offered contact information for the right-of-way staff at TxDOT.	No.	No response provided.	The ministry is intereset in the overall impacts of the proposed project to low-income and homeless populations.
10. Follow-up needed?	No.	No.	No.	Yes.	Yes.	Yes.	No.	Yes.	No.
Additional questions for two service providers									
Do your customers or members reside in a specific neighborhood? If so, name?	Not applicable.	Not applicable.	Many of the customers are from this area of Houston, which has a great need for assistance. However, customers from all over Houston and outside of Houston can come to this office. Staff at this location answer phone calls and online inquiries from all over Texas. Texas Health and Human Services office no longer serves specific zip codes for their clients.	The property the place of worship hopes to rebuild on is in the Fifth Ward, but congregation members come from the Fifth Ward and other parts of Houston. Helping Hands primarily provides services to people located in the surrounding Fifth Ward community.	Not applicable.	Not applicable.	Not applicable.	Not applicable.	Not applicable.
Tell me about your congregation. How big is your congregation? Do you serve a specific ethnic group or provide services in languages other than English? How long have you been at your current location?	Not applicable.	Not applicable.	No response provided.	The place of worship currently has 170-200 people in the congregation. They hope when they are able to relocate the place of worship to their current property that the United Methodist place of worship would assign a Spanish-speaking minister to serve the local Spanish-speaking population. This will let them offer services to more people in their community. Currently, place of worship services are only offered in English.	Not applicable.	Not applicable.	Not applicable.	Not applicable.	Not applicable.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Business Questionnaire			
Questions:	Respondents:		
	North Houston Birth Center, LLC	Huynh Restaurant and shopping center (BHVB Properties, LLC)	Yen Huong Bakery
	Brenda Solano, Manager	Bryan Hucke and Anny Dang, Owners	Ha Lu, Owner's brother
1. Have you heard of the proposed North Houston Highway Improvement Project?	Yes.	Yes. Property owner has attended several public meetings and the public hearing.	Yes.
2. How do you feel the project will affect your business and your customers?	Ms. Solano stated that there are very few free standing birth centers in Houston that accept Medicaid (a Federal and state program that provides medical benefits to low-income individuals who have no or inadequate health insurance coverage). Ms. Solano also stated no other birth centers are located nearby for women to go to. This clinic is participant of the Healthy Texas Women plan, a program dedicated to offering women's health and family planning at no cost to eligible women in Texas. Some of the services provide at the clinic include: (1) health screenings, prenatal care, well women exams, STD testing, family planning, and actual delivery of babies. Ms. Solano mentioned they refer patients to other medical offices in the building which accept Medicaid such as imaging center, eye doctor, and children's dentist. They understand that the building owners were offered early acquisition of the property but are wondering what benefits that businesses leasing space would receive.	Primary concerns is loss of prime location and the established client base, loss of skilled employees due to lapse of employment. Concerned with finding a suitable place to relocate in close proximity that is affordable due to increased cost of real estate in the neighborhood. Concerned about tenants in the shopping center. TxDOT said that all tenants will receive relocation assistance and benefits for for theri business.	If the can relocate in the same area and maintain the central location, they could still deliver wholesale Chinese and Vietnamese bakery items to customers (for example Hong Kong City Mall, and Viet Ho). They would need areas for bakery trucks to load up products.
3. Do your customers or clients reside in a specific neighborhood? If so, name?	Acres Home; Independence Heights; Other: surrounding community, but available to other areas of Houston.	Downtown; Museum Park; Other: many customers come to the restaurant that are going to events at the George R. Brown Convention Center and customers from all over Houston.	Other: Customers are all over Houston area but they deliver products to grocery stores.
4. How long has your business operated at the current address?	14 years	6 - 10 years; the restaurant also operated at different locations prior to moving to this location.	30 years
5. How many full and part time employees currently work at your business? What is the race/ethnicity of your employees?	All full-time employees, demographics of employees are primarily Hispanic, two African American, and two Caucasian staff members.	38 employees, all kitchen staff full-time. Demographics of employees is primarily Vietnamese with a few Hispanic kitchen staff. Mother-in-law started business originally, she is an immigrant from Vietnam. Now Bryan Hucke and Anny Dang, run the restaurant and many of their family members work at this restaurant.	8 Full time employees, mostly family members, demographics of employees are Asian (owners). The oldest generation of family are of Chinese descent but are refugees from Vietnam. Ha Lu (Brother of the Owner) came to the United States and then brought his entire family here. His sister (Muoi Luong) started this business and many of the family members work at the business. They have other temporary/seasonal staff to help with baking.
6. Is this business a minority, women owned or veteran owned business?	This is a Women Owned business.	This is a Women and Minority Owned business.	This is a Women and Minority Owned business.
7. Tell me about your customers. Does your business serve a certain community? If applicable, do you accept SNAP?	Approximately 95 percent receive Medicaid assistance. Many of the patients are Spanish speaking.	This restaurant does not serve a specific community.	They provide Asian cakes and desserts, primarily to the Chinese and Vietnamese community. They use delivery trucks to deliver to Asian groceries such as Hong Kong City Mall and Viet Ho. During the Autumn Moon festival celebrated by Chinese and Vietnamese communities, members of the community come to purchase Moon Cakes from the storefront, but most of the bakery goods are delivered to stores.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Business Questionnaire			
Questions:	Respondents:		
	North Houston Birth Center, LLC	Huynh Restaurant and shopping center (BHVB Properties, LLC)	Yen Huong Bakery
	Brenda Solano, Manager	Bryan Hucke and Anny Dang, Owners	Ha Lu, Owner's brother
8. How do your customers primarily get to your business?	Own car; Other: public transportation (METRO), transportation provided by Medicaid	Walking; Own car	Own car; Other: bakery goods are delivered to local stores.
9. How do employees most frequently get to work?	Own car	Own car; Other: car pooling	Own car
10. If your business is displaced, would you relocate near your current location and does your business have any specialized needs to relocate? If you don't relocate nearby, where would your customers go for similar services?	Ms. Solano stated that there are very few free standing birth centers in Houston that accept Medicaid and no birth centers are located near this clinic. Yes, they would like to relocate in the same area.	Yes, they like the central location of their business and would like to stay in the same area. Due to the changes in the area, no other restaurant of this type is in the general area. This is a prime location due to its location near stadiums and the GRB convention center; they want to stay in this area.	Yes, they like the central location of the business and would like to stay in the same area. They are concerned about purchasing a place to relocate in the same area due to increased prices of property in this area of town. No specialized needs to relocate.
11. Do you have any questions?	Ms. Solano asked questions about the relocation process and about timing. She wants to know what benefits will be offered to tenants leasing their space.	No.	Mr. Lu asked questions about the relocation process and about timing. Kelly Lark, TxDOT provided some information about the relocation process, and provided her business card with contact information. The owner said it is best to contact his son who is proficient in English. His sister speaks limited English.
12. Follow-up needed?	No.	No.	No.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

Community Center Questionnaire				
Questions:	Respondents:			
	Swiney Park Community Center John Davis, Supervisor	Castillo Community Center Rocio Gomez, Community Resource Specialist Maria Torres, Community Resource Specialist	Fonde Recreation Center Gregory Johnson, Recreation Specialist	Woodland Community Center Jarrett Murry, Supervisor
1. Have you heard of the proposed North Houston Highway Improvement Project?	Yes.	No.	No.	No.
2. How do you feel the project would affect your organization and clients?	Mr. Davis said he would learn more about the project on the project website and may follow-up via the website to request a presentation from TxDOT.	No response provided.	No response provided.	Mr. Murry felt there would not be any impact to the community center.
3. What types of services do you provide? a. To whom do you generally provide these services to? b. How many clients do you have? c. How often do they need your services?	Have multiple programs that are offered throughout the year; these programs are free in the fall and there is a waiver for the cost of summer programs. The community center has several outreach and partnership programs with schools in the surrounding community. There are some sports programs that regularly use the park. There is also the general recreational opportunity of the park that is open to the community. a. There are several people who come from the nearby public housing to use the park and attend the programs. However, the demographic of the clientele is changing; Mr. Davis attributed it to the new homes being built in the area and the gentrification the area is undergoing. May have classes/programs for seniors in the future, but do not currently offer anything specific to that demographic. b. No response provided. c. Programs are offered year-round. Some programs are offered daily (e.g., there is a daily art class offered for community children from Kindergarten to 12th grade).	There is a membership fee to join the community center's member list. There is also a registration fee for each program/class. Some forms of financial assistance are accepted, like NCI. Classes offered include martial arts, fitness programs, and sewing. There is also a computer class offered exclusively for youth. The community center also has a senior club. The community center has a food fair for members and people from the surrounding community; all food for the food fair is donated by the Houston Food Bank. a. The community center has classes and programs for community center members. b. No response provided. c. No response provided.	The community center offers daily activities, such as kickball, volleyball, basketball, and weight room classes. There is also a rich history of pick-up basketball at the facility's full court gym. The community center also offers fitness classes throughout the day. a. People come to the community center from all over the Houston area because of the highly competitive basketball pick-up matches. The showers facilities are often used by the homeless/transient people. The community center has activities and programs that are open/available to all age groups. b. No response provided. c. The community center is open six days a week (closed on Sundays). The community center offers programs or activities daily.	The community center offers several programs and activities throughout the year; several programs and activities are free and there is a waiver for the cost of the programs that have registration fees. There is a range of activities or programs available at the community center, such as arts and crafts, volleyball, and kickball. a. Many programs and activities are available to all ages. The community center also hosts several after-school and summer enrichment programs for children between the ages of 6 and 13. Most people using the community center come from the surrounding Heights community. b. No response provided. c. The community center is open six days a week (closed on Sundays). The community center offers programs or activities daily.
4.How long has your facility operated at your current address?	Swiney Park was opened in 1968.	Castillo Community Center opened in November 2013.	The recreation center opened in 1960 and underwent major renovations in 1988.	The community center has been open since the 1950s.
5. How many full- and part-time employees currently work at your facility/organization?	2 full-time	12 to 15 full-time 10 part-time	Mr. Johnson was not sure of the number of full-time and part-time staff.	Mr. Murry was not sure of the number of full-time and part-time staff.
6. How do your clients primarily get to your facility?	Walking	Walking; Own car; Other: public transportation (METRO)	Walking; Own car	Own car
7. Do you have any questions?	Mr. Davis suggested also interviewing the Pleasantville Community Center (located outside the project limits). AECOM gave Mr. Davis the project website address as a resource for information and updates on the project.	AECOM gave Mr. Gomez the project website address as a resource for information and updates on the project.	AECOM gave Mr. Johnson the project website address as a resource for information and updates on the project.	AECOM gave Mr. Murry the project website address as a resource for information and updates on the project.
8. Follow-up needed?	No.	No.	No.	No.

Table A-1: Summary of Environmental Justice Outreach Questionnaires

School Questionnaire		
Questions:	Respondents:	
	Alpha and Omega Christian Academy Maria A. Pena, Principal	Culinary Institute Lenotre Marie Lenotre
1. Have you heard of the proposed North Houston Highway Improvement Project?	Yes	Yes.
2. How do you think the project would affect the school, students, and teachers?	It would affect our school and community tremendously. We are very concerned about the anticipated inconveniences associated with such a large-scale projects and possible relocation.	The school offers a very special curriculum and if the facility is displaced, the class/course schedule is a huge concern. Relocating in the middle of a semester would be a huge inconvenience and detriment to their students.
3. In what geographic area (neighborhood or area) do your students primarily reside? Does the community use the school for other purposes such as, a polling station, playground, adult classes, or meeting space?	Our students come from all parts of the city. Being located on the freeway allows easy access to people from many directions of the city.	No response provided.
4. How long has this school operated at its current address?	11-15 years	20 years
5. How many full and part time employees currently work at your school? How many students attend your school?	8 full-time employees; 4 part-time employees; 40 students	300 to 350 students
6. Do you know if your students have any special needs? Do a lot of them get reduced cost lunch or speak languages other than English?	None of our students have special needs. We do not get government funding for reduced cost lunches. Most of our students speak Spanish.	No response provided.
7. How do your students primarily get to school?	Family car; Friend/Neighbor's car	No response provided.
8. If the school is displaced, do you know how this would affect the students and district? Would you be able to relocate in the same area or would this have impacts on distribution of students in the district?	No response provided.	The school would like to relocate near a major highway, because they want to maintain the easy access for their students. They also want to be near a highway frontage road so that they maintain the same level of visibility and advertising that their current location offers. The school would like to remain in their current facility until the new one is finished.
9. Do you have any questions?	No questions at this time.	The school is concerned about the early acquisition process and the lack of updates from TxDOT. They are also concerned about relocating their special equipment (cooking and teaching).
10. Follow-up needed?

Table A-2: NHHIP Environmental Justice Stakeholder Meetings

NHHIP MEETING LOG

Date	Meeting Held	Location	Primary Purpose of Meeting	Stakeholder POC	Stakeholder Agency	Environmental Justice (Y/N)
12/6/2018	Meeting with COH	COH City Hall	Discuss impact of project to homeless persons in the project ROW	Andy Icken, Marc Eichenbaum	COH	Y
12/7/2018	Coordination Meeting with Greater Northside Management District to discuss Segment 3 design		Discuss access at Main St and St. Arnold's Brewery along I-10 corridor		Greater Northside Management District	Y
1/14/2019	Meeting with Houston Housing Authority (HHA)	Houston Housing Authority	Discuss impacts to 2 HHA properties in the project area - Clayton Homes and Kelly Village	Tory Gunsolley	HHA	Y
3/6/2019	Meeting with Riverside Civic Association	TxDOT Houston District	Discuss noise wall locations along SH 288 south of I-69		Riverside Civic Association	Y
3/6/2019	Meeting with Coalition for the Homeless and COH	Coalition for the Homeless	Discuss impact of project to homeless persons in the project ROW	Michael Nichols, Coalition for the Homeless; Marc Eichenbaum, COH	Coalition for the Homeless, COH	Y
3/11/2019	OST Almeda		Present info about project			Y
3/26/2019	Meeting with Senator Carol Alvarado	TxDOT Houston District		Sen. Carol Alvarado	Texas Legislature	Y
3/26/2019	Hidden Valley Civic Club		Present project update, next steps, questions and answers		Hidden Valley Civic Club	Y
4/3/2019	Meeting with Greater Mt. Olive Missionary Baptist Church	TxDOT Houston District	Discuss project impact to church, relocation assistance		Independence Heights	Y
5/15/2019	Meeting with Houston ISD reps	TxDOT Houston District			Houston ISD	Y
5/15/2019	Meeting with HISD School Reps	TxDOT Houston District	Receive input from school on their issues/concerns		Houston ISD	Y
5/17/2019	Meeting with Aldine ISD	Aldine ISD Superintendent's Office			Aldine ISD	Y
5/17/2019	Meeting with AISD School Reps	M.B. "Sony" Donaldson Administration Building	Receive input from school on their issues/concerns		Aldine ISD	Y
6/4/2019	Meeting with Property Owners	Young Women's Preparatory Academy	Noise Meeting I-69: Spur 527 to Almeda			Y
6/6/2019	Community Stakeholder Meeting	Houston Community College Central Campus	Present project update, next steps, questions and answers			Y
6/6/2019	Meeting with Jefferson ES Wraparound Resource Specialist	Jefferson Elementary School	Receive input from school on their issues/concerns		Houston ISD	Y
6/8/2019	Community Stakeholder Meeting	Leonel Castillo Community Center	Present project update, next steps, questions and answers			Y
6/11/2019	Community Stakeholder Meeting	Partnership Tower Boardroom	Present project update, next steps, questions and answers			Y
6/13/2019	Community Stakeholder Meeting	Empowerment Community Center	Present project update, next steps, questions and answers			Y
6/18/2019	Independence Heights Neighborhood Meeting	603 East 35th Street	Present project update, next steps, questions and answers			Y
6/20/2019	City of Houston - TxDOT - Meeting with General Public	Harris County Department of Education	Present project update, next steps, one-on-one questions and answers			Y
6/21/2019	Centro Cristiano Church / Alpha and Omega School	TxDOT Houston District	Discuss impacts, advance acquisition of property and relocation assistance program			Y
6/26/2019	City of Houston - TxDOT - Meeting with General Public	Acres Home Multi-Service Center	Present project update, next steps, one-on-one questions and answers			Y
7/16/2019	Meeting with Complete Communities representatives	TxDOT Houston District	Discuss impacts and mitigation strategies			Y

Table A-2: NHHIP Environmental Justice Stakeholder Meetings

NHHIP MEETING LOG

Date	Meeting Held	Location	Primary Purpose of Meeting	Stakeholder POC	Stakeholder Agency	Environmental Justice (Y/N)
7/18/2019	Third Ward Neighborhood Meeting	Third Ward Multi-Service Center	Present project update, next steps, questions and answers			Y
8/6/2019	National Night Out - Precincts 1, 2, 6 Neighborhood Meeting	Precinct 6 - 5900 Canal Street	Present project update, next steps, questions and answers			Y
8/6/2019	Meeting with Property Owners	Fifth Ward Multi-Service Center	Noise Meeting I-10: Elysian to Waco			Y
8/7/2019	Fifth Ward Neighborhood Meeting	Fifth Ward Multi-Service Center	Present project update, next steps, questions and answers			Y
8/9/2019	Near Northside Back to School Event Neighborhood Meeting	Leonel Castillo Community Center	Information Table for questions and answers; survey			Y
8/13/2019	City of Houston Community Workshop - Meeting with General Public	Harris County Department of Education	Segment 2 and 3 North (I-610 to I-10 and I-10 to US 59)			Y
8/15/2019	City of Houston Community Workshop - Meeting with General Public	Aldine Ninth Grade School	Segment 1 North (BW 8 to N. Shepherd)			Y
8/15/2019	Meeting with Property Owners	Leonel Castillo Community Center	Noise Meeting I-10: Taylor to Houston & I-45: Ruthven to Andrews			Y
8/17/2019	City of Houston Community Workshop - Meeting with General Public	Burrus Elementary School	Segment 1 South (BW 8 to I-610)			Y
8/20/2019	Meeting with Property Owners	Third Ward Multi-Service Center	Noise Meeting SH 288: Alabama to MacGregor			Y
*	CORRESPONDENCE ONLY: Lindale Neighborhood				Lindale	Y

HDMD = Houston Downtown Management District; COH = City of Houston; H-GAC = Houston-Galveston Area Council; ASCE = American Society of Civil Engineers; EaDo = East Downtown; RTP = Regional Transportation Plan; HNWCC = Houston Northwest Community Center; WPM = Walter P. Moore; HCFCDD = Harris County Flood Control District; GCRD = Gulf Coast Rail District; UPRR = Union Pacific Railroad; NHA = North Houston Association; LPCC = Lindale Park Civic Club; GRB = George R. Brown Convention Center; UHD = University of Houston Downtown

Appendix B

Design Changes Resulting from Stakeholder Input

Table B-1: Design Changes Resulting from Stakeholder Input

Segment	Location	Change	Rationale	Super Neighborhood(s)	Environmental Justice Area (low-income and/or high minority)	TxDOT Revised Design to Minimize Impacts to Communities
Design Changes to the Reasonable Alternatives (2013 - 2015)						
3	Segment 3	Alternative 11 in was modified to include: - Depressing I 45/US 59/I-69 in the vicinity of the George R. Brown Convention Center; - Shifting the proposed coincidental alignment of I-10 and I-45 to improve roadway geometry, thereby improving safety and traffic flow; and - Adding a capped section or potential open space (which would be developed by others) over I-45 and US 59/I-69 in the vicinity of the George R. Brown Convention Center.	--	Multiple	--	Yes
Design Changes to the Proposed Recommended Alternatives (April 2015 - September 2016)						
1	Beltway 8 Interchange	Revised on west side of I-45 between Fallbrook and Beltway 8 to avoid impacts to office building.	Engineering Decision	Greenspoint, Hidden Valley	High Minority Low-income	Yes
1	Airline Drive	Removal of T-ramp between Airline Drive and the proposed MaX Lanes. Removal of the ramp would reduce cut-through traffic through the neighborhood. Access to the MaX Lanes would still be provided within the freeway system.	Engineering Decision	Independence Heights	High Minority	Yes
2	I-610 Interchange	Alignment was shifted west in the area of Little White Oak Bayou floodway to reduce impacts to residences on the east side of I-45.	Public Meeting Comments, Near Northside Management District	Independence Heights	High Minority	Yes
2	I-45 northbound entrance ramp at Quitman Street	Design modified to include access to northbound I-45 from Quitman Street. Provides better access for residential areas; however, there are more commercial impacts.	Public Meeting Comments, City of Houston	Near Northside	High Minority	Yes
2	I-45 northbound exit ramp at W. Cavalcade Street	Initial design was modified from a northbound I-45 entrance ramp south of W. Cavalcade Street to reversing it to an exit ramp and adding a northbound entrance ramp north of Link Road. Also, the southbound exit ramp was redesigned to go over Link Road as there was a concern about increasing traffic at the intersection which is near a school.	Community Comments	Near Northside	High Minority	Yes
2	I-610 eastbound and westbound access to Fulton Street/Irvington Boulevard	The redesign included reversing the proposed Airline Drive entrance ramp and the Fulton Street exit ramp, which would allow eastbound traffic on the I-610 mainlanes and frontage road west of I-45 to access the I-610 mainlanes and/or frontage road on the east side of I-45. The Collector-Distributor system allows for I-610 eastbound mainlane traffic to queue (form a line) for exiting the eastbound Fulton Street exit ramp without interfering with through-traffic on the I-610 mainlanes.	Community Comments	Near Northside	High Minority	Yes
2	Cottage Street and N. Main Street	Removed U-turn movements at Cottage Street and North Main Street.	I-45 Coalition	Greater Heights	No	Yes
2	Houston Avenue	Houston Avenue between N. Main Street and Bayland Avenue was modified to include a roundabout at I-45 entrance ramp to improve safety while allowing existing two-way traffic to remain.	Community Comments	Greater Heights	No	Yes
3	Depressed section from the I-45 and US 59/I-69 interchange to Commerce Street	- Maintain 3 lanes minimum on I-45 in each direction. - Adjust alignment to avoid impacts to Cheek-Neal Coffee Bldg. - Relocate southbound frontage road at George R. Brown center to be above I-45 and US 59/I-69 SB depressed mainlanes. - Reconfigure US 59/I-69 SB exit ramp at Hamilton Street to be above the US 59/I-69 SB mainlanes to connect to Hamilton Street - Add full height barrier separating the I-45 and US 59/I-69 mainlanes. Relocated various director connectors of the I-45 and US 59/I-69 interchange.	Coordination with key stakeholders, including Houston Downtown Management District and Houston First, and Public Meeting Comments	Downtown	High Minority	Yes
3	US 59/I-69 between SH 288 and Spur 527	Add continuous US 59/I-69 SB frontage road that extends from proposed Hamilton Street frontage Road to La Branch Street. This would provide a continuous frontage road system which would minimize cut-through traffic in adjacent neighborhoods.	Public Meeting Comments	Midtown, Greater Third Ward	High Minority (Greater Third Ward)	Yes
3	SH 288 Northbound frontage road	The SH 288 northbound frontage road would use existing Hutchins Street alignment beginning at Wheeler Avenue, and would parallel SH 288 to intersect with Cleburne Street and Alabama Street. After merging with the SH 288 northbound Elgin Street exit ramp, the proposed frontage road would connect to the proposed US 59/I-69 NB frontage road, using the existing Chartres Street alignment. This would provide a continuous frontage road system which would minimize cut-through traffic in adjacent neighborhoods.	Engineering Decision	Greater Third Ward	High Minority	Yes

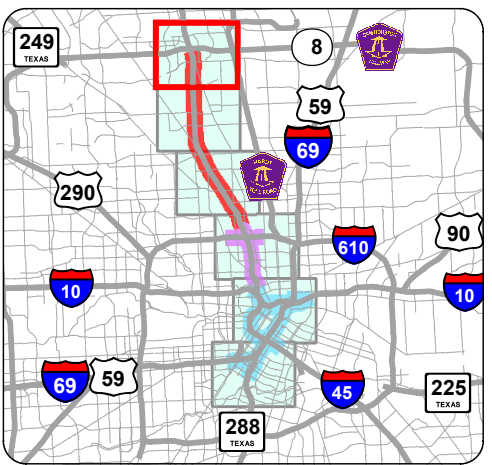

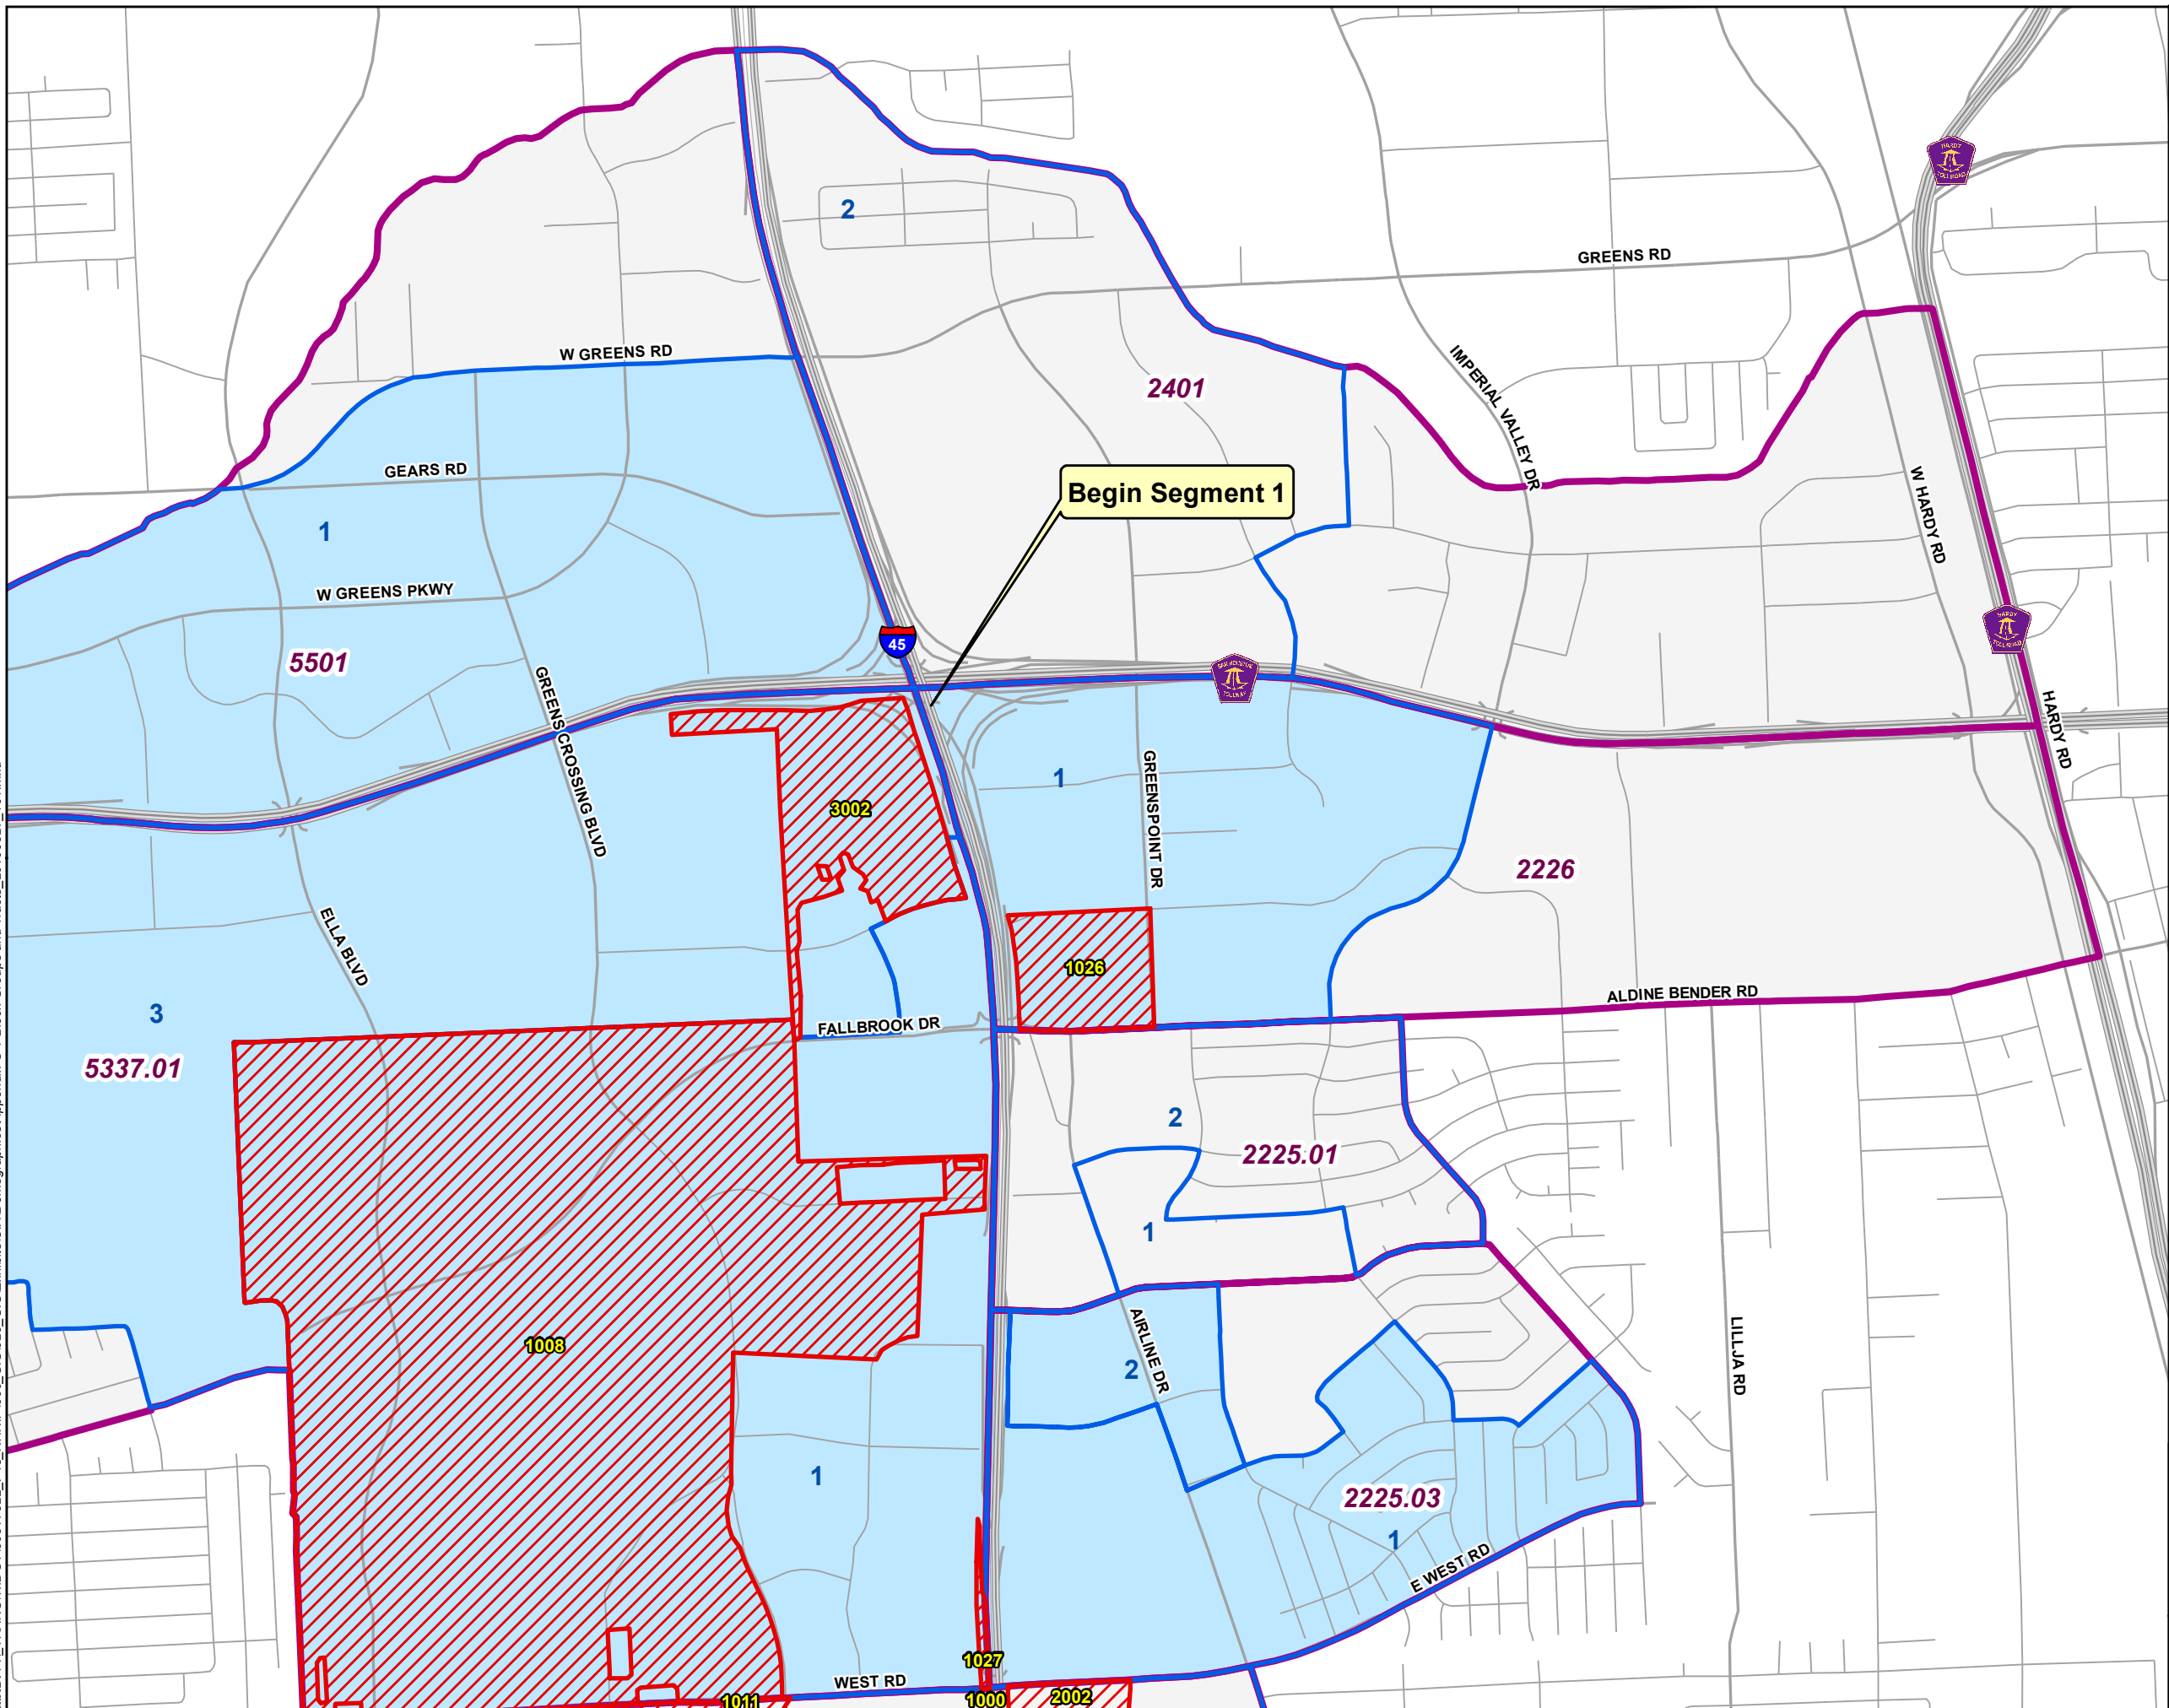

Segment	Location	Change	Rationale	Super Neighborhood(s)	Environmental Justice Area (low-income and/or high minority)	TxDOT Revised Design to Minimize Impacts to Communities
3	Caroline Street and Austin Street at I-69	Reconnected both Caroline Street and Austin Street across proposed I-69 mainlanes to maintain existing bus route connectivity.	Community Comments	Midtown Museum Park	No	Yes
Design Changes to the Proposed Recommended Alternative (2017 - 2019)						
1	Blue Bell Road	An I-45 overpass is proposed at this location and Blue Bell Road connects under I-45.	City of Houston	Greenspoint, Hidden Valley	High Minority	Yes
1	Unity Spirit Missionary Worship Center	Design was modified to avoid this church.	Community Comments	Hidden Valley	High Minority	Yes
2	I-45 and Crosstimbers Street	Removed proposed METRO Crosstimbers T-Ramp: Removal of T-ramp between Airline Drive and the proposed MaX Lanes would reduce cut-through traffic through the neighborhood. Access to the MaX Lanes would still be provided within the freeway system.	Engineering Decision	Independence Heights	High Minority	Yes
2	I-45 between Parker Street and I-610	Shifted I-45 alignment between I-610 and Parker Street to minimize business and residential impacts near Crosstimbers Street.	Community Comments	Independence Heights	High Minority	Yes
2	Westbound frontage ramp on I-610	WB frontage ramp on I-610 was modified from Irvington to I-610 to span over the METRO tracks.	Community Comments	Near Northside	High Minority	Yes
2	Connection between bike trail on Link Road to I-45	Revised design to provide connection to proposed trail/sidewalk on Link Rd. to I-45.	Community Comments	Greater Heights	No	Yes
2	I-45 at Wrightwood Street	Revised design to avoid the property at 1212 Wrightwood Street.	Avoid adverse impact to a contributing resource to the Germantown Historic District	Greater Heights – Germantown Historic District	No	Yes
3	Rail crossing at Rothwell Street	The at-grade railroad crossings were realigned so that there is a grade separation of the railroad tracks and the frontage road. This will allow for uninterrupted travel on the frontage road from Rothwell Street to Jensen Drive.	Community Comments	Downtown	High Minority	Yes
3	Downtown connectors; Allen Parkway, etc.	Depressed the elevated structures to allow connections between neighborhoods and improve the visual viewshed.	Community Comments	Fourth Ward, Downtown	High Minority	Yes
3	Gray Street exit from northbound US 59/I-69	The South Central + Station is adjacent to the proposed right-of-way of the Preferred Alternative. Although a proposed exit ramp from US 59/I-69 North to Gray Street was modified to avoid direct impacts to the City of Houston Police Department (HPD) building, access to the remaining property would not be adequate and the HPD would have to relocate. TxDOT is coordinating with the COH and HPD to determine a suitable location for a replacement facility.	Engineering Decision	Greater Third Ward	High Minority	Yes
3	Redesign access to SH 288 interchange	Relocated the SH 288 managed lane access from Chenevert Street to Hamilton Street.	Community Comments	Midtown	No	Yes
3	San Jacinto Street at US 59/I-69	Redesigned the existing access ramp from San Jacinto to US 59/I-69 due to the existing and projected traffic congestion. This ramp will have a dedicated lane to access the northbound frontage road without having to pass through the signalized intersection of San Jacinto Street and US 59/I-69.	Community Comments	Museum Park	No	Yes
3	US 59/I-69 near Montrose Boulevard	Design was modified to avoid right-of-way acquisition south of US 59/I-69, including the Post Oak High School property.	Engineering Decision	University Place	No	Yes
3	I-45/I-10 Interchange near Freed Art and Nature Park and Downtown connectors near Linear Park	Design was modified to avoid acquisition of park properties.	Community and City of Houston Comments	Greater Heights and Downtown	No	Yes

Source: U.S. Census 2010, U.S. Census Bureau 2016e

*Percent minority includes all non-white races and persons of Hispanic origin.

- **Bold** cells indicate a high percentage of minority and/or low-income population.
- **Red** cells indicate Census Tracts that are within more than one project Segment.
